## I. Letter to Shareholders

## i. Preface

### Dear Shareholders,

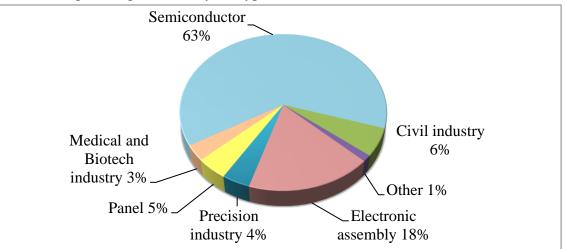

Thanks to all shareholders' support and encouragement during the past year. Acter develops its business through its Multi-Industries, Multi-Regions and Multi-type of Engineering Work strategic, adopts vertical division and horizontal integration and diversified talent cultivation layout, creates a competitive advantage, achieves the second-highest revenue for the same period in history in 2023. Looking forward to 2024, the company's management team will continue to actively face challenges and go all out to seek and contribute the greatest benefit to shareholders, employees and related parties of the company. The business performance in the previous year as well as this year's operating prospects is as follows:

### ii. Business Report

### 1. 2023 Business results

### (1)Business plan implementation results

Acter group continues to optimize the efficiency of project, accurate control the material delivery schedule, modularize the production workflow, satisfy the project complete schedule of the diverse scale projects for the Cleanroom and Electro-Mechanical Integration Engineering from the main clients of diverse industries. In addition, the implementation of the semiconductor and high-tech electronic industries' localized production base strategy has created a favorable order visibility for the group, boosting overall revenue performance. Consolidated revenue of 2023 achieves NTD 25.06 billion, hitting the second-highest record for the same period in history. In terms of profitability, the net profit after tax amounted to NTD 1.84 billion, which represents a 5% decrease compared to last year.

Ratios of engineering turnover by the type

|                                   | Unit : In thous | ands of New 7 | aiwan Dollars |
|-----------------------------------|-----------------|---------------|---------------|
| Items                             | 2023            | 2022          | %             |
| Operating revenue                 | 25,060,741      | 28,262,385    | (11.33)       |
| Operating cost                    | 20,142,993      | 23,484,234    | (14.23)       |
| Gross profit                      | 4,917,748       | 4,778,151     | 2.92          |
| Operating expenses                | 1,653,927       | 1,455,622     | 13.62         |
| Operating income                  | 3,263,821       | 3,322,529     | (1.77)        |
| Non-Operating income and expenses | 252,180         | 97,417        | 158.87        |

| Items  | 2023      | 2022      | %      |
|--|-----------|-----------|--------|
| Income before income taxes                                   | 3,516,001 | 3,419,946 | 2.81   |
| Tax expense  | 916,428   | 920,610   | (0.45) |
| Income after income taxes                                    | 2,599,573 | 2,499,336 | 4.01   |
| Income after income taxes - attributable to owners of parent | 1,838,104 | 1,933,122 | (4.92) |

(2)State of budget implementation

This item is not applicable since Acter has not disclosed any financial forecasts.

| (3)Financial structure and profitability | inancial structure and | nd profitability |
|--|------------------------|------------------|
|--|------------------------|------------------|

| Items               |  |                  | 2023     |
|---------------------|--|------------------|----------|
| Financial structure | Ratio of liabilities to assets                 | s (%)            | 52.56    |
| Financial structure | Ratio of long-term capital to fixed assets (%) |                  | 1,868.67 |
| Solvenov            | Current ratio (%)                              |                  | 185.77   |
| Solvency            | Quick ratio (%)                                |                  | 125.92   |
|                     | Return on total assets (%)                     |                  | 9.60     |
|                     | Return on stockholders' equity (%)             |                  | 21.76    |
| Drofitability       | Ratio to issued capital                        | Operating income | 37.03    |
| Profitability       | (%, Note1)                                     | Pre-tax income   | 39.90    |
|                     | Profit ratio (%)                               |                  | 10.37    |
|                     | Earnings per share (\$, Note2)                 |                  | 15.03    |

Note1: In the case of shares issued by a company with no par value or a par value other than NT\$10 per share, the calculation of ratio of the paid-in capital shall be replaced by ratio of the equity attributable to owners of the parent.

Note2: The company's par value per share is NT\$5.

(4)Research and development

The department in charge of technology, research, and development continued to develop different innovative techniques for different industries and projects taking advantage of value-added engineering in order to strengthen our competitive advantages and innovative project management effectiveness. Descriptions are provided as follows:

I. Technology patent development

The group keeps acquiring patents; most of them relating to construction methods, applications and new materials, and software programming of a chemical equipment supply system. Analyze industry and technology trends in order to find R&D items that can facilitate corporate or industrial development and have market value. Make a strategic deployment to continuously obtain patents for engineering core technologies.

II. Talent cultivation and academia-industry cooperation

The company has comprehensive on-the-job training programs in place to help employees develop skills required, and works with scholars to explore new innovations. The company establish a long-term industry-academia partnership with Taipei Tech, NYUST, NKUST, NCUT and FCU for joint developments, and has achieved outstanding results in talent cultivation and academia-industry cooperation. III. Energy-saving technologies

In light of rising global emphasis on energy-saving, green and low-carbon lifestyles, the group continues to conduct research into and develop environmental protection related engineering technology and products, develop high-efficiency eco-friendly facilities and energy management technologies, enhance the energy efficiency of energy consumption products, facilitate its integration with intelligent system, and optimize the control, optimize the application of energy-saving technology with our know-how in the field, and build a production environment with more efficient technologies to assist the industry in transformation to net zero emissions.

### IV. Continued Developments in Respective Engineering Aspects

- i. In utilization of the technical capability of established Building Information Modeling (BIM) - Revit of Company, take one step further into the Digital Twin application technology for air conditioning system which applies the digital computing and simulation technology in design and construction process so that the design efficiency, optimization design, construction efficiency and efficiency optimization of system energy is improved; the system balance and performance validation is assisted during the completion acceptance process so that the acceptance efficiency is improved; in the operation phase, the BIM, energy model, environmental control model, and monitoring system of physical and digital systems is integrated to perform the system operation management, system predictive maintenance diagnosis, faults diagnosis, operation optimization analysis, and artificial intelligence mechanical learning so that the risk of unanticipated faults is reduced, the operating costs is decreased, and the system energy efficiency is improved.
- ii. To solve the time-consuming and complicated modeling and calculation issues of air conditioning design engineers in the design stage, the Building Information Modeling (BIM) of Revit and energy simulation technology is integrated and utilized by external computer programs so that the system design calculation report will be produced automatically through the automation database connection mechanism between the system design data, which not only can assist the air conditioning design engineers to complete air conditioning design volume calculations efficiently but also perform the value engineering analysis such as energy efficiency and cost optimization calculations.
- iii. The adoption of illuminance simulation software-aided lighting design ensures that the number of installed lighting fixtures matches actual needs, while achieving the goal of minimal deviations and reduced energy consumption.
- iv. Construction automation: The adoption of steel reinforcement cages enhances structural accuracy as well as construction quality and shortens construction period. Establish the same-layer drainage technology.
- v. Import the 3D drawing and cooperate with the 3D online platform to improve the quality and efficiency of the project, reduce the correction and adjustment time required for the follow-up pipeline overlay conflicts, and import the ISOGEN software to save time costs, establish the pipeline ISO diagram, so that the pipeline can be factory preset to reduce waste and reduce carbon emissions.

- 2. Summary of business plan for 2024
  - (1)Business strategy

This year, Acter has set up its growth goals for various divisions and subsidiaries and implemented action plans for each unit. It also implemented the following business policies:

- I. Strengthen corporate governance, enhance enterprise culture and sustainable development
- II. Rooting deeply in this industry, continuously optimize engineering capabilities, provide a diverse, multi-project integrated engineering service, and strive to use core skills to help companies achieve carbon neutrality, pursue a better future
- III. Maintain constant contact with current customers from mainland China and Southeast Asia, develop new customers, create multi-regional business, improve investment efficiency, and expand industrial integration
- IV. Cooperate with international partners and continuously expand the scope of its professional service in biological, pharmaceutical, medical industries and desalination, and deepening of the professional technical capabilities such as green energy and environmental protection.
- V. Combine the professional manufacturing processes of gas and chemical supply systems in the treatment of liquid waste and solvent waste to create a new generation engineering integration technology and Earth-friendly technology
- VI. Recruiting more diverse talents and actively training management teams

(2)Expected sales volume and basis for estimates

Acter is a professional manufacturer that applies system integration. For over 40 years, it has provided services which cover cleanrooms, air conditioning, electrical machinery, chemical engineering as well as control and instrument, equipment installation, etc., with the support of its strong and reliable multi-disciplinary and elite engineering team. Aside from its strength and advantage, Acter aims to keep pace with the request of customers. It caters to the needs of clients through constant communication and by establishing brand value and competitive advantage via innovative technology and high quality services. In addition to serving its existing customers, Acter is aggressively expanding its domestic and overseas markets by identifying new industries and new customers, satisfying the demand for a cross-disciplinary project service with integration system, and expanding industrial integration. As for internal operations, managing the company's integral resources is vital in providing the best and efficient solutions for customers.

(3)Major production and sales policies

Acter provides rapid and flexible integration of services specializing in engineering and technology. It is a comprehensive turnkey service company that handles design and planning, construction, engineering supervision, maintenance after completion and transfer. Acter services offer vertical and horizontal integration and sustainable intensification of industry value-chain across various technologies that impact people's livelihood, biotechnology, green energy and the medical field as well as the photovoltaic industry, semiconductor industry, biotechnology industry, energy industry, energy engineering, railway stations, high-end housing, hotels, electromechanical solutions for air conditioning systems, biopharmaceutical, medical institutes, etc.

With respect to its manufacturing-retail policy, while considering the needs of its customers, the company shall maintain existing clients, acquire new ones, and enter new

industries in order to maintain business volume and achieve stable growth and profit. With regard to engineering, the company shall continuously improve and manage all kinds of projects and energy-saving and green eco-friendly economical engineering in order to create value and provide comprehensive solutions for its customers. As for financial considerations, it shall apply proper financial risk control strategies in handling customers and accelerate the collection rate of accounts receivable.

3. Future development strategies

The company is deeply committed to every project which represents and embodies Acter. It has been a long time since the company focused on the improvement and development of engineering technology. Currently, it has become a diversified engineering technology company through vertical and horizontal integration and continuous development. The content of service and professional engineering method were improved to keep pace with progress. It has continued to expand its service stations given the increasing demand of customers. In order to approach its customers and provide real-time service, Acter service stations are situated all over Taiwan, Mainland China and Southeast Asia.

Engineering system integration service is the core business of Acter. Therefore, when facing the challenges by climate change and industrial transformation, Acter will dedicate to the research and development of innovative green technology. Not only provides customers energy-saving and green eco-friendly economical engineering solutions from the technology end, but also integrates our professional skills, knowledge and experiences to, through cooperation with our subcontractors, build "high value, low power consumption and low pollution" quality spaces. We commit more effort to bring customers more general ideas of green sustainability and responsible services. In the global promotion of ESG and carbon neutrality, with the role of the driver of green project, Acter assists customers to achieve carbon neutrality and pursue a better future together.

4. Effect of the external competitive environment, legal and regulatory environment, and overall business environment

Large-scale construction suppliers offered turnkey solutions that enabled them to gain control of the electricity and machine engineering market, which led to greater competition in the electricity, machine and cleanroom engineering industry. Acter creates value engineering for customers through various contracting opportunities, utilizing its expertise, innovative technologies, and specialized methods to effectively reduce the equipment life cycle costs for customers. In addition, it reduces overhead expense and engineering construction risks. It also forms a stable and cooperative relationship with suppliers, manages quality, strengthens cost control to enhance competitive advantage in bidding. Meanwhile, it develops related business of energy-saving which will not only provide better services for its customers but also contribute to the overall industry environment.

As far as the regulatory environment is concerned, the company periodically reviews changes made to laws and regulations to ensure compliance with requirements of the competent authority and adheres to its belief of legitimate management. Generally speaking, changes to the regulatory environment will not have a major impact on the company.

In the macro business environment, the SEMI predicts that the market will regain growth by 2024. In addition, the trend of advanced packaging continues. The visibility into future factory constructions is high. Many existing factories currently lag behind international standards. In the future, there will be a shift towards high value, low energy consumption, and low pollution models, creating opportunities for re-layout. Besides, as demonstrated in the 28th Conference of Parties (COP28) of the United Nations Framework Convention on Climate Change, achieving net-zero emissions is imminent. Leveraging its expertise in

green engineering, Acter aims to provide clients with a broader range of services aligned with green sustainability principles. Those trends are beneficial to Acter's performance.

5. Sustainability

Oriented to "implementing the ESG spirit and developing green business", Acter is absorbed in the core business and industrial innovation. By linking United Nation's Sustainable Development Goals (SDGs), and our core competence, Acter has not only established a responsible supply chain and built a diverse and tolerant workplace, but also been promoting green low-carbon engineering, cultivating industrial talents, attentive to the disadvantaged monitory. It is our aspiration to create shared value for the society and win more reputation points with an excellent and sustainable corporate governance approach.

In the future, we will continue to work hard on sustainable development and cooperate with our partners and stakeholders to make the greatest contribution to the bring a positive development to the environment, society and economy.

It deeply appreciates the support of shareholders. Acter hopes to create greater value for the entire organization and its shareholders.

Sincerely yours,

Chairman: Liang, Chin-Li General Manager: Lai, Ming-Kun & Wang, Chun-Sheng Accounting Supervisor: Chen, Chung-Sheng

# **II.** Company Profile

# i. Date of Incorporation: February 19, 1979

## ii. Company History

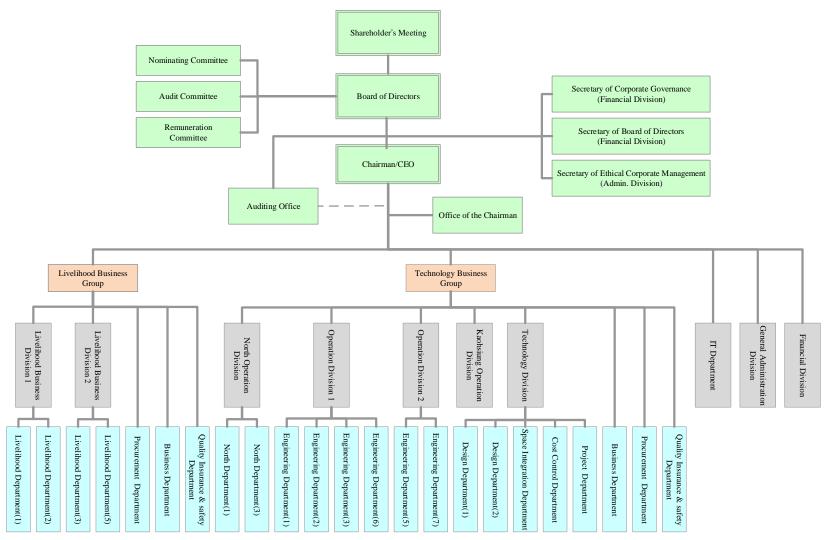

| Year | Milestones   |
|------|--|
| rear |  |
| 1979 | 1. Acter Co., Ltd. was established on Taiyuan North Road, Taichung City, Taiwan with a paid-in capital of NT\$ 10 million.   |
| 1992 | 1. Increased paid-in capital to NT\$20 million.  |
| 1993 | 1. Increased paid-in capital to NT\$50 million.  |
| 1999 | 1. Received ISO 9001 certification.  |
|      | 1. Changed to the shareholding system.   |
| 2002 | 2. Increased paid-in capital to NT\$100 million.   |
|      | 3. A branch office in Kaohsiung was established.   |
| 2003 | 1. Sheng Huei Engineering (Suzhou) Co., Ltd was established in Suzhou, China.  |
| 2003 | 2. The office was moved to Zhongming S. Rd., Taichung City, Taiwan.  |
| 2004 | 1. Increased paid-in capital to NT\$200 million.   |
| 2004 | 2. Acquired Her Suo Engineering Co., LTD.  |
| 2005 | 1. Sheng Huei (Shenzhen) Engineering Co., Ltd was established in Shenzhen, China.  |
| 2003 | 2. Increased paid-in capital to NT\$230 million.   |
|      | 1. Increased paid-in capital to NT\$260 million.   |
| 2006 | 2. A branch office in Taipei was established.  |
|      | 3. Acter Trading Co., Ltd was established.   |
|      | 1. Increased authorized capital to NT\$720 million. (Paid-in Capital was NT\$260 million)  |
| 2008 | 2. Acquired Sheng Huei Engineering Technology Company Limited (Vietnam).   |
| 2000 | 3. Suzhou Ding-Mao Engineering Co., Ltd. and Zhangjiagang Free Trade Zone Fuyu   |
|      | International Trade Co., Ltd were established.   |
|      | 1. Acquired Nova Technology Corp. by issuing 6,655,065 shares.   |
|      | 2. Increased paid-in capital to NT\$351,550,650.   |
| 2009 | 3. The application for initial public offering was approved by FSC.  |
|      | 4. The application for the GTSM registration and trading was approved by Gre Tai Securities  |
|      | Market.  |
|      | 5. Acquired Nova Technology Singapore Pte., Ltd.   |
| 2010 | 1. Increased paid-in capital to NT\$415,358,190.   |
|      | <ol> <li>Listed on Gre Tai Securities Market (Code-5536).</li> <li>Jointly invested SCEC International (HK) Company, Limited with Sumitomo Chemical</li> </ol>                         |
|      | Engineering Singapore Pte. Ltd. and indirectly invested SCEC (Shanghai) CORP.  |
| 2011 | <ol> <li>Increased paid-in capital to NT\$461,358,190.</li> </ol>  |
| 2011 | <ol> <li>3. Sheng Huei (Suzhou) Engineering Co., Ltd. increased capital of US\$3 million.</li> </ol>   |
|      | <ol> <li>Sheng Huer (Suzhou) Engineering Co., Etd. increased capital of Costs minion.</li> <li>Nova Technology Malaysia Sdn. Bhd. was established.</li> </ol>                          |
| 2012 | 1. Shenzhen Dingmao Trade Co., Ltd. was established.   |
|      | 1. SCEC (Suzhou) Corp. and Pt.Novamex Indonesia were established.  |
| 2013 | <ol> <li>Suzhou Ding-Mao Engineering Co., Ltd. and Acter Trading Co., Ltd were liquidated.</li> </ol>  |
|      | 1. Increased holding of SCEC (Shanghai) CORP. and it becomes the subsidiary of the   |
|      | company since 2014.  |
| 2014 | 2. Winmega Technology CORP. and Acter Engineering Co., Ltd. were established.  |
|      | 3. Invested Enrich Tech Co., Ltd. and Global One Source Life Sciences Co. Ltd.   |
| 2015 | 1. Issued 480,000 shares of New Restricted Employee shares and increased paid-in capital to  |
|      | NT\$466,158,190.   |

Note1: Based on the group's organizational integration and business needs, the company's chairman also serves as the chief executive officer, responsible for the promotion and execution of the group's operating plans. The President, on the other hand, will focus on managing the operations of Acter itself. The CEO and the President will exercise their respective responsibilities and roles, implementing a clear division of management and maximizing the functionality of the organization. The chairman's full understanding of the company's operation and development policies helps the board of directors quickly grasp the company's operating status. At the same time, in order to maintain the objectivity and independence of the board of directors, only one director concurrently serves as the company's officers; the directorship for independent directors has served for more than three consecutive terms.

Note2: The change in par value per share from NT\$10 to NT\$5 was approved by the Ministry of Economic Affairs by the Letter Jing So Shang Zi No.11101100840 dated June 24, 2022 and was further approved by TPEx by the Letter Zheng-Gui-Jian No.1110006888 dated July 1, 2022. Original shares were replaced with new shares on Sep. 19, 2022.

Note1: Please refer to page 12~17 for each director's experience and education.

- 4. Diversity and independence of the board of directors
  - (1)Diversity of the board of directors

The company has established "Corporate Governance Practical Rules" to formulate the composition of the board of directors. Diversity should be considered, and the board of directors shall possess ability to make operational judgments, ability to perform accounting and financial analysis, ability to conduct management administration, ability to conduct crisis management, knowledge of the industry, an international market perspective, ability to lead, ability to make policy decisions...etc. Besides, an appropriate policy on diversity based on the company's business operations, operating dynamics, and development needs be formulated, including gender, age, professional background (e.g., law, accounting, industry, finance, marketing, technology), professional skills, and industry experience. In addition, the company has set up the Nominating Committee. Members of the committee will review the number and conditions of directors before the expiry of each term and will find, review, and nominate candidates based on standards of independence and a diversified background covering the expertise, skills, experience, gender, etc.

| Policy on diversity              | Goal  | Achievement  |
|----------------------------------|---|--|
| Expertise, skills,<br>experience | The board members shall possess professional background (e.g., law, accounting, industry, finance, marketing, technology), professional skills, and industry experience   | Achieved, the board members are professionals in the fields of<br>engineering, accounting, law and operation management, with<br>professional capabilities and relevant experience   |
| Gender                           | Increase the number of female directors by one directorship   | Achieved, the company has two female directors, an increase of one female director over the previous term.   |
| Age                              | Average age of all directors not exceed 65 years old  | Achieved, average age of all directors is 64 years old.  |
| Standards of independence        | Directors concurrently serve as company officers not exceed<br>one-third of the total directorships, independent directors shall<br>exceed one-third of the total directorships, and the consecutive<br>terms for independent directors shall not exceed three terms. | Achieved, only one director concurrently serves as the company's officers; the directorship for independent directors is four-sevenths and none of the independent directors has served for more than three consecutive terms. |

The company's specific diversification goals and achievement status are as follows:

The board is comprised of members from a variety of backgrounds, genders and skills. Members have been chosen based on the development needs of the company. All directors have the academic background and experience necessary to enable the board's decision and supervisory capacity. Please refer to page  $12 \sim 17$  for their experience and education.

(2)Independence of the board of directors

The company has four independent directors, accounting for four-sevenths of the total directorships. None of the independent directors has served for more than three consecutive terms, and none of them violated the independence norms in the "Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies." In addition, the company's board of directors has only one director concurrently serving as the company's officers. After checking the written declarations and identity documents of each director, there is no kinship within the spouse and second relatives among the directors, reflecting the independence of the overall board of directors.

Note1: Based on the group's organizational integration and business needs, the company's chairman also serves as the chief executive officer, responsible for the promotion and execution of the group's operating plans. The President, on the other hand, will focus on managing the operations of Acter itself. The CEO and the President will exercise their respective responsibilities and roles, implementing a clear division of management and maximizing the functionality of the organization. The chairman's full understanding of the company's operation and development policies helps the board of directors quickly grasp the company's operating status. At the same time, in order to maintain the objectivity and independence of the board of directors, only one director concurrently serves as the company's officers; the directorship for independent directors is four-sevenths and none of the independent directors has served for more than three consecutive terms.

Note2: Executives of Financial Division Tsao, Yun-Han position adjusted on Nov. 9, 2023. Numbers of shareholding is according to the register of shareholders on Jan. 21, 2024. Information about his experience (education) is consistent with the 2022 annual report.

#### iii. Remuneration paid during the most recent fiscal year to directors, supervisors, president, and vice president

1. Remuneration of Directors and Independent Director

Unit: NT\$ thousand. Thousand Shares

. Please describe the policy, system, standards and structure in place for paying remuneration to directors and describe the relationship of factors such as the duties and risks undertaken and time invested by the directors to the amount of remuneration paid: According to the "Regulations governing remuneration paid to directors and functional committee," independent directors receive a fixed remuneration of NT\$50,000 per month and do not participate in the distribution of annual remuneration for directors. Independent directors that be appointed to be any member of functional committee by the board meeting can gain extra remuneration. The aforementioned fixed remuneration is recommended by the company's Remuneration Committee with reference to the market averages, taking into account the time invested and the responsibilities assumed by the independent directors, and approved by the board of directors.

 In addition to what is disclosed in the above table, please specify the amount of remuneration received by directors in the most recent fiscal year for providing services (e.g., for serving as a non-employee consultant to the parent company /any consolidated entities / invested enterprises): NT\$0

Note1: Refers to all companies in the consolidated financial statements

Note2: (A)Base Compensation (B)Severance Pay (C)Compensation to Directors (D)Allowances (E)Salary, Bonuses, and Allowances (F)Severance Pay (G)Employee Compensation.

Note3: This refers to director base compensation in the most recent fiscal year (including director salary, duty allowances, severance pay, and various rewards and incentives, etc.).

Note4: Includes the contribution and real disbursement of the pension. In 2023, under the new system of labor pension act, total amount contributed by the company for director listed in the table is NT\$0.

Note5: Board of directors resolved on Feb. 26, 2024.

Note6: This refers to director expenses and perquisites in the most recent fiscal year (including travel expenses, special disbursements, stipends of any kind, and provision of facilities such as accommodations or vehicles,

etc.). If housing, car or other form of transportation, or personalized expenses are provided, disclose the nature and cost of the property provided, the actual or fair market rent, fuel expenses, and any other amounts paid. Additionally, if a driver is provided, please add a note explaining the relevant base compensation paid by the company to the driver, but do not include it in the calculation of the director remuneration.

- Note7: This includes any remuneration received by a director for concurrent service as an employee in the most recent year (including concurrent service as general manager, assistant general manager, other managerial officer, or non-managerial employee) including salary, duty allowances, severance pay, rewards, incentives, travel expenses, special disbursements, stipends of any kind, and provision of facilities such as accommodations or vehicles, etc. If housing, car or other form of transportation, or personalized expenses are provided, disclose the nature and cost of the property provided, the actual or fair market rent, fuel expenses, and any other amounts paid. Additionally, if a driver is provided, please add a note explaining the relevant base compensation paid by the company to the driver, but do not include it in the calculation of the director remuneration. Additionally, salary expenses recognized as share-based payment under IFRS 2—including employee share subscription warrants, new restricted employee shares, and participation in share subscription under a rights offering, etc.—should be included in the calculation of remuneration.
- Note8: This refers to employee profit-sharing compensation (including stocks and cash) received by a director for concurrent service as an employee in the most recent fiscal year (including concurrent service as general manager, assistant general manager, other managerial officer, or non-managerial employee). Disclose the amount of profit-sharing compensation approved or expected to be approved by the board of directors for distribution for the most recent fiscal year. If the amount cannot be forecasted, disclose the amount expected to be distributed by calculating pro-rata to the amount that was actually distributed in the preceding fiscal year.
- Note9: Disclose the total amount of remuneration in each category paid to the directors of the company by all companies in the consolidated financial report (including the company).
- Note10: Net income means the net income after tax on the parent company only or individual financial report for the most recent fiscal year.
- Note11: a. In this column, specifically disclose the amount of remuneration received by the directors of the company from investee enterprises other than subsidiaries or from the parent company (if none, state "None"). b. Remuneration means remuneration received by directors of the company for serving in capacities such as director, supervisor, or managerial officer at investee companies other than subsidiaries or at the parent company, including base compensation, profit-sharing compensation (including employee, director, and supervisor profit-sharing compensation) and expenses and perquisites.

\*This table is for information disclosure purposes only and is not intended to be used for tax purposes, as the remuneration disclosed in this table differs from the concept of income under the Income Tax Act.

2. Remuneration of Supervisors : Not applicable

#### 3. Remuneration of President and Vice President

| In addition to the di | isclosure of the table | above, th            | ere are remun                                    | erations t                   | o presidents a                                   | ind vice p                               | residents prov                                   | ided servio                       | ce (e.g. se | erve as inde  | ependent c | onsultant r | ather than       | employee)   | in the mos | st recent year for all  |

companies: NT\$ 621 thousands

Note1: This includes salary, duty allowances, and severance pay to the president and vice president in the most recent fiscal year.

Note2: Includes the contribution and real disbursement of the pension. In 2023, pensions contributed to the pension account at Bank of Taiwan by the company for employees applying old system of labor standards act are NT\$1,200 thousand and disbursement from that account is NT\$0, while under the new system of labor pension act, total amount contributed by the company for managers listed in the table are NT\$540 thousand, which has been fully paid into their individual pension account at Bureau of Labor Insurance.

Note3: This includes the amounts of all types of rewards, incentives, travel expenses, special disbursements, stipends of any kind, provision of facilities such as accommodations or vehicle, and other compensation to the president and vice president in the most recent fiscal year. If housing, car or other form of transportation, or personalized expenses are provided, disclose the nature and cost of the property provided, the actual or fair market rent, fuel expenses, and any other amounts paid. Additionally, if a driver is provided, please add a note explaining the relevant base compensation paid by the company to the driver, but do not include it in the calculation of the director remuneration. Additionally, salary expenses recognized as share-based payment under IFRS 2—including employee share subscription warrants, new restricted employee shares, and participation in share subscription under a rights offering, etc.—should be included in the calculation of remuneration.

Note4: This refers to employee profit-sharing compensation (including stocks and cash) received by the president and vice president as approved or expected to be approved by the board of directors for the most recent fiscal year (including concurrent service as general manager, assistant general manager, other managerial officer, or non-managerial employee). If the amount cannot be forecasted, disclose the amount expected to be distributed by calculating pro-rata to the amount that was actually distributed in the preceding fiscal year.

Note5: Disclose the total amount of remuneration in each category paid to the president and vice president by all companies in the consolidated financial report (including the company).

Note6: Net income means the net income after tax on the parent company only or individual financial report for the most recent fiscal year.

Note7: a. In this column, specifically disclose the amount of remuneration received by the president and vice president of the company from investee enterprises other than subsidiaries or from the parent company (if none, state "None").

b. Remuneration means remuneration received by the president and vice president of the company for serving in capacities such as director, supervisor, or managerial officer at investee companies other than subsidiaries or at the parent company, including base compensation, profit-sharing compensation (including employee, director, and supervisor profit-sharing compensation) and expenses and perquisites.

\*This table is for information disclosure purposes only and is not intended to be used for tax purposes, as the remuneration disclosed in this table differs from the concept of income under the Income Tax Act.

### 4. Employee Compensation Granted to Management Team

(2)The policies, standards, and portfolios for the payment of remuneration, the procedures for determining remuneration, and the correlation with business performance and future risk exposure.

A. Directors

Remuneration for directors includes the transportation and attendance fare for directors attending the board meetings, attendance fare for members of functional committee attending the committee, executive business expense, and the annual compensation for directors in accordance with the Articles of Incorporation. According to Article 26-1 of the Articles of Incorporation, when distributing the surplus profits for each fiscal year, the company shall first offset its losses of previous years and set not more than five percent of the profit before tax excluding the amount of employees' and directors' compensation as compensation to directors. The "surplus profits" here refers to the balance of pre-tax profit before deducting the employees' and directors' compensation. Total compensation paid to directors are reviewed by the Remuneration Committee in consideration of the company's business performance, the general pay levels in the industry and be submitted to the board of directors for approval. Compensation for individual director is determined in accordance with the "Regulations governing remuneration paid to directors and functional committee." The company takes into account the results of the performance evaluation of directors to calculate the points of each director. Such as the degree of participation in the company's operations, the attendance rate for the year, whether to serve as the chairman and other items. Then distributes the total amount approved by the board of directors according to the proportion.

Independent directors receive a fixed amount of remuneration per month and do not participate in the distribution of annual remuneration for directors. If an independent director is appointed as a member of any functional committee by the board of directors of the company, he/she will receive additional remuneration paid to members of functional committee.

B. Presidents and Vice Presidents

The remuneration for presidents and vice presidents includes fixed salary and variable salary. The fixed salary is the monthly salary; the variable salary includes the employee compensation and performance bonus, which is measured based on their personal annual appraisal performance and is closely linked to the company's operational and sustainable performance results. The content of the annual appraisal includes qualitative indicators (such as the key core competence of the job, future development potential... etc.) and quantitative indicators (such as the status of achievement of the personal goal, including financial performance indicators, comprehensive management indicators, and sustainability practice indicators, as well as the achievement rate... etc.) as shown in <Table 1>. The total amount of employee compensation is in accordance with the company's articles of association, when distributing the surplus profits for each fiscal year, the company shall first offset its losses of previous years and set not less than three percent of the profit before tax excluding the amount of employees' and directors' compensation as compensation to employees. The total amount of performance bonus payout is determined based on the company's annual operating performance. Both are reviewed by the company and the Remuneration Committee and submitted to the board of directors for approval. In addition, if the presidents and vice presidents serve as directors or supervisors of subsidiaries, they can also receive remuneration in accordance with the "Regulations governing the representative of a juristic person director or supervisor appointed to the group companies."

C. The company's procedure for determining remuneration of all employees (including all executives) is in accordance with the performance evaluation and salary regulations approved by the board of directors. After the overall consideration of the individual's participation in the company's operations and performance evaluation, reasonable remuneration will be given. The measurement aspects are listed in <Table 1>. The Remuneration Committee and the Board of Directors also regularly review the fairness of salary and remuneration of directors and executives, and review the regulations in a timely manner based on actual operating conditions and relevant laws and regulations. There is no incentive for the directors and executives to pursue compensation by engaging in activities that exceed the tolerable risk level.

(3)Performance Evaluation of the Board of Directors

| Circle  | Conducted once a year   |  |
|---------|---|--|
| Period  | From Jan. 1 to Dec. 31 of the evaluation year   |  |
| Range   | The board as a whole, individual directors, and functional committees (Including Remuneration Committee, Audit Committee and Nominating Committee)  |  |
| Method  | Internal evaluation by the board, self-evaluation by the board members of themselves,<br>and evaluation by an appointed external professional institution and experts once every<br>three years   |  |
| Content | <ul> <li>Evaluation of the board of directors: At least include participation in the operation of the company, improvement of the quality of the board of directors' decision making, composition and structure of the board of directors, election and continuing education of the directors, and internal control.</li> <li>Evaluation of the board members on themselves: At least include familiarity with the goals and missions of the company, management of internal relationship and communication, the director's professionalism and continuing education, and internal control.</li> <li>Evaluation of the functional committees: At least include participation in the operation of the director's professionalism and continuing education, and internal control.</li> <li>Evaluation of the functional committees: At least include participation in the operation of the duties of the functional committee, improvement of quality of decisions made by the functional committee, makeup of the functional committee and election of its members, and internal control.</li> </ul> |  |

The Board has approved to establish the company's "Rules for Performance Evaluation of Board of Directors and Functional Committees" on Feb. 26, 2015. The company conducts internal evaluation at the end of each year through questionnaire. Directors and members of Functional Committees shall fill out questionnaires such as the Questionnaire of Self-Performance Evaluation of the Board, the Questionnaire of Self-Performance Evaluation of the Functional Committee. According to Article 3, the company also conducts external evaluation at least every three years. The criteria for evaluating the performance of the board of directors is regularly reviewed by the Nominating Committee and results of the evaluation will serve as a reference for the calculation of individual directors' remuneration and the selection or nomination of directors by the company.

After all questionnaires are completed, the Financial Division will then collect it and calculate the score. The internal evaluation in 2023 has been conducted in January 2024. All participants including the entire Board, individual members of Board, and each functional committee (Remuneration Committee, Audit Committee and Nominating Committee) have scored more

than 90 points (out of 100 points). The performance is evaluated as excellent and there is no need to improve. During the assessments, the directors suggest further strengthening the board's role in sustainability, including participating in internal sustainable development strategy and promotion meetings, as well as providing relevant advice and assistance. The company has implemented the recommendations from the directors. The above result of the internal evaluation has been reported to the Board meeting after approval by the Nomination Committee on Feb. 26, 2024 and has been revealed on the website of the company.

The company commissioned the "Taiwan Corporate Governance Association" to carry out an external evaluation of Board performance in October 2023. It is confirmed that the Taiwan Corporate Governance Association and evaluating experts have no financial interest and business relations with the company, and they do not violate the requirement of professional and independence. All the evaluation processes were completed with the evaluation report available by Jan. 3, 2024. The result of the external evaluation has been reported to the Board meeting after approval by the Nomination Committee on Feb. 26, 2024 and has been disclosed on the company's website. The content is summarized as follows.

- Evaluation duration: From November 1, 2022 to October 31, 2023.
- Evaluation standards and method: Evaluate the eight aspects of the Board, including the composition, leadership, authority, supervision, communication, internal control and risk management, self-discipline and others, through an online questionnaire and site visits.
- Overall evaluation results: Board members understand the implementation of sustainable management in the company. The company fully implements environmental, safety, and health management and reports to the board to strengthen its supervisory function. The company voluntarily establishes a Nominating Committee to actively implement corporate governance systems, enhance the effectiveness of the Board of Directors and create corporate value. The company provides orientation training for new directors to assist them in assuming their roles and complying with laws and regulations, which is highly appreciated.

• Evaluation recommendations:

- A. Establish board term objectives and incorporate them into performance evaluation indicators to effectively assess the board's effectiveness;
- B. Upgrade the existing "corporate sustainability committee" at the management level to a functional committee under the board of directors, to effectively fulfill the board's supervisory responsibilities;
- C. Further develop the company's overall risk management policy.
- Improvement status: The company is undergoing internal assessment as recommended.

(4)Measures taken to strengthen the functionality of the Board:

In addition to implementing the "Board of Directors Meeting Rules" in accordance with the "Regulations Governing Procedure for Board of Directors Meetings of Public Companies," the company also has an independent director system to complement its board. Independent directors perform their roles in accordance with the relevant laws and instructions of the competent authority, and serve both executive and supervisory purposes.

A. Board structure

The board is comprised of members from a variety of backgrounds, who have been chosen based on the development needs of the company. All directors and independent directors have the academic background and experience necessary to enable the board's decision and supervisory capacity. "Directors Election Procedures" that stipulate a cumulative voting system and nomination system for director and independent director elections. Shareholders who hold above a certain number of shares are given the right to nominate candidates. The nomination process is fair and transparent; it increases minority shareholders' chances to participate, protects the interests of investors, and prevents the nomination from becoming monopolized or excessive. Furthermore, a set of by-election procedures was also introduced to avoid disruption to the company's business operations if some or all directors and independent directors are dismissed. To ensure the independence of the board, the company has rules that each director and independent director are required to exercise their authorities independently. The company also establishes a performance evaluation system for the board of directors in order to improve the operation efficiency and enhance the board functions. According to the "Rules for Performance Evaluation of Board of Directors and Functional Committees," the company not only conducts internal evaluation of the board and self-evaluation by the board members of themselves once a year but also commissions an external evaluation institution or panel of external experts and scholars to conduct external evaluation of the board at least every three years. Information such as directors' shareholding positions, transfer restrictions, and collateralized shares are fully disclosed on the Market Observation Post System, which investors are welcome to make inquiries on.

B. The independent director system

The company has clearly outlined the availability, eligibility, and authorities of its independent directors in the "Articles of Incorporation" and "Independent Director Authorities and Responsibilities." Currently, the company has established four independent director positions with the power to be involved in decision making and to express opinions according to the Securities and Exchange Act.

C. Establishment of an Audit Committee

The company established an Audit Committee, which replaced supervisors according to Article 14-4 of the Securities and Exchange Act. The committee is composed of four independent directors. All of them are chosen from persons with sufficient financial knowledge or business experience. "Audit Committee Charter" outlines the level of independence expected from the Audit Committee and the role they play in the company's operations. The Audit Committee ensures that the company's internal control system is effectively implemented and financial statements are properly prepared.

The company has created a mailbox exclusively for communication with the Audit Committee on its website (under the "Investors" section), which enables investors, stakeholders and employees to communicate with the Audit Committee directly by e-mail.

D. Establishment of a Remuneration Committee

The company established the "Remuneration Committee Charter" in accordance with Article 14-6 of the Securities and Exchange Act and completed the recruitment of committee members. The Committee evaluates matters relating to the compensation of the directors and managerial officers of the company in a professional and objective way, and submits recommendations to the board of directors for its reference in decision making.

E. Establishment of Nominating Committee

The company established the "Nominating Committee Charter" and set up the Nominating Committee to ensure the soundness of the board and strengthen the management mechanism. The 2<sup>nd</sup> Nominating Committee is composed of five directors selected by the board of directors and including four independent directors. The duties of the committee are finding, reviewing, and nominating candidates for directors, evaluating the performance of the board and so on.

#### F. Improving information transparency

Financial information, resolutions on material issues, board meeting participation, and director ongoing education information are published on the Market Observation Post System as required by law. The company's financial and business performance is also made accessible to the public on its website.

- (5)Independent directors' attendance of board in 2023: A total of 5 board meetings were held in 2023, all independent directors attended each meeting in person.
- (6)In 2024, 2 board meetings were held up to the date of printing of this annual report and all directors and independent directors attended in person.

#### 2. Audit Committee

A total of 5 (A) Audit Committee meetings were held in 2023. The attendance of the independent directors was as follows:

| Title (Note)            | Name           | Attendance in<br>Person(B) | By<br>Proxy | Attendance<br>rate (B/A) | Remarks                               |

(4)If there are independent directors' avoidance of motions in conflict of interest, the directors' names, contents of motion, causes for avoidance and voting should be specified: None.

(5)Communications between the independent directors, the Company's chief internal auditor and CPAs (shall include the material items, methods and results of audits of corporate finance or operations, etc.)

CPAs and internal auditors report to the independent directors the results of the annual, quarterly, or semi-annual audited (reviewed) financial statements, or the functioning of internal controls through the Audit Committee meetings. In the meetings, independent directors are given sufficient opportunities to communicate with the CPAs and internal auditors face to face, which provides independent directors with sufficient overview of the company's operations and helps them to supervise appropriately. In addition to holding Audit Committee meetings quarterly, the independent directors also maintain regular e-mail contact with the CPAs and internal auditors in order to stay informed of the company's operations. The company holds a Closed-door meeting between the chief internal auditor and the independent directors at least once a year. Results of communication between the independent directors, the internal auditors and the CPAs in 2023 are listed in the table below and have been revealed on the company's website.

|   | • To amend the company's "Subsidiary   |  |
|   | Management Policy."  |  |
| Feb. 01, 2023<br>Communication<br>via e-mail or<br>phone call | <ul> <li>Are there any ways to completely resolve the issues occurring in the subsidiary, including discrepancies in income and expenditure control and flaws in procurement documentation? If the regulations are too strict, should they be relaxed? If there are gaps in execution, how can management be strengthened? For company operations, having a deficiency is relative to having risk. Finding the optimal balance between regulations and implementation is a creative opportunity for us and could also be one of the good ways to assist company growth.</li> </ul> | <ul> <li>In terms of internal control and management systems, the group is generally consistent. Regarding income and expense management, each company submits a monthly Income and Expense Statistics form to the headquarters for approval, which is then reviewed by the CEO. The report has addressed measures for abnormal reasons (such as differences in income and expenses exceeding 10%) and filled in projected invoice amounts and payment expenditures for the next three months. If there are any additional instructions from the CEO after review, each department will provide a response. Flaws in procurement documentation are minor oversights identified during the procurement process (most documents adhere to the established system), and it will be strictly required that the subsidiary company effectively</li> </ul> |
|   |  | implements execution according   |
|   |  | to the internal control system.  |
| Nov. 02, 2023<br>Communication<br>via e-mail or<br>phone call | Based on the investigation of old data,<br>it was found that a risk assessment<br>standard form was issued by the<br>company in October 2022. The<br>structures of the two forms are similar,<br>with only some adjustments made to<br>the internal evaluation parameters.<br>May I know if the adjustment values<br>in this new report were derived from a<br>general survey, expert consultation, or<br>self-study by the department? Will<br>this risk report be included in the<br>future sustainability report?   | <ul> <li>The risk assessment standard form covers the overall business operations of the company, so the framework is generally consistent. However, it is adjusted annually based on the past two years' incidents and potential risks associated with operational activities of the group. This assessment standard is developed by the audit unit and presented to the management for review and confirmation. The risk assessment standard form is used as the basis for developing the annual audit plan and serves to incorporate</li> </ul>   |

| risk events into audit work that<br>requires enhanced monitoring or<br>attention, thus it will not be<br>included in the sustainability<br>report. The main focus of the<br>sustainability report is on risk<br>management operations,<br>including risk management<br>processes, organizational<br>structure and responsibilities, risk<br>identification, and response<br>strategies (such as market, credit,<br>cybersecurity, legal, climate<br>change risks), which are similar<br>to the report on risk management<br>to be presented to the board of<br>directors | Date | Communication matters | Execution results  |

| <ul> <li>to the Remuneration Committee and the Audit Committee?</li> <li>(3) Whether the company formulates the regulations and method for the performance evaluation of the board of directors, conducts evaluation regularly every year, reports the results to the board of directors, and takes it as a reference for the remuneration, nomination and re-appointment of each director?</li> <li>(4) Does the company regularly evaluate the independence of CPAs?</li> </ul> |              |                              | Abstract Illustration           refer to page 52~53 for the composition and operations of the Nominating Committee.           (3) The Board has approved to establish the company's "Rules for Performance Evaluation of Board of Directors and Functional Committees" on Feb. 26, 2015. The company conducts internal evaluation at the end of each year through questionnaire. According to Article 3, the company also conducts external evaluation at least every three years. Results of the evaluation will serve as a reference for the calculation of individual directors' remuneration and the selection or nomination of directors by the company. The 2023 internal evaluation has been conducted. In addition, the company commissioned the "Taiwan Corporate Governance Association" to carry out an external evaluation of Board performance in October 2023. Please refer to page 34~35 for more information regarding content and results of evaluations.           (4) Our Audit Committee will conduct annual assessments of CPA independence and competence and submit the results of such assessments to the board for resolution pursuant to the "Regulations governing the CPA's performance evaluation", which have been approved by the board of directors. Members of the Audit Committee fill out the Assessment Form based on the actual situation and reference to the written statement issued by a CPA for financial reporting and AQIs after the end of the fiscal year. The assessment form consists of three dimensions: Independence Indicators, Performance Indicators, and Audit Quality Indicators. Please refer to page 49 <table 1=""> for specific indicator items.           The average compliance rate for 2023 is 93%, which met the criteria for renewal of 80% or above. Therefore, upon approval by the Audit Committee and the Board of Directors on February 26, 2024, the company has renewed its contract with the CPA.      <tr< td=""></tr<></table> |      |  |  |  |

| describe its governance and<br>supervisory framework for<br>sustainable development, including<br>but not limited to management<br>policy, strategy and goal<br>formulation, review measures, etc.) |     |    | <ul> <li>meeting yearly, while the implementation situation will be reported to the board of directors in the fourth quarter and the result will be disclosed on the company's website simultaneously. The performance of 2023 has been reported to the Board meeting on the 8th of November 2023. Excerpts are as follows</li> <li>I. Facilitate the shared prosperity with the whole society to take the corporate social responsibility to the utmost.</li> <li>Specific approaches: Contribute to the social welfare and help the vulnerable groups with our expertise and professional skills to form a corporate culture of willing to do something good and helping people.</li> <li>2. Facilitate the workplace health and build up a safe working environment</li> <li>Specific approaches: Facilitate the project of health promotion and conduct the activities for physical-psychological-spiritual relax and work-life balance. Meanwhile, implement all required working security management system to build up a safe working environment.</li> <li>Implementation results: There were some activities like On-site health services by professional specialists, prevention of illegal infringements in the workplace, advocate of smoking hazards and health information (such as influenza prevention, cardiovascular disease, etc.) and family day conducted. In 2023, the injury at work in Acter was 0%.</li> <li>3. Establish a diverse and equal workplace culture</li> <li>Specific approaches: Establishing related rules to protect human rights of all employees.</li> <li>Implementation results: "Human Rights Policy" was set to secure the human rights and benefits of all the employees (active employees, contractors and temporary staff, interns etc.) Meanwhile, the policy will be updated based on the related regulations continuously.</li> <li>Directors attach great importance to promoting sustainable development and have offered recommendations regarding ESG issues, such as recommending further</li> </ul> |                |

|  |     | Implementation Status |   |                |  |  |
|--|-----|-----------------------|---|----------------|--|--|
| Promotion Item   | Yes | No                    | Abstract Explanation  | and<br>Reasons |  |  |
|  |     |                       | strengthening the board's role in sustainability, including participating in internal sustainable development strategy and promotion meetings, as well as providing relevant advice and assistance. The company has implemented the recommendations from the directors. The Board of Directors will continue to pay attention to the promotion of sustainable development and give advice in a timely manner.   |                |  |  |
| 2. Does the company conduct risk<br>assessments of environmental,<br>social and corporate governance<br>issues related to its operations in<br>accordance with the materiality<br>principles, and formulate relevant<br>risk management policies or<br>strategies? The materiality<br>principles refer to those who have<br>a significant influence on the<br>company's investors and other<br>stakeholders on environmental,<br>social and corporate governance<br>issues. (the company shall describe<br>its risk management policies or<br>strategies for operations-related<br>environmental, social, and<br>corporate governance issues, and<br>the assessment status.) |     |                       | <ul> <li>The disclosed information encompasses the sustainable development performance between January and December 2023. Risk assessments currently focus on the Taichung HQ and the defined boundaries currently do not include the Company's subsidiaries. The company has formulated a "Risk and Crisis Management Rules" and approval by the board. The board of director is appointed as the supreme governance unit and established an inter-departmental risk management team to identify, assess, confirm and classify all types of risks faced by the company, and negotiate a feasible plan to effectively reduce the company's operating risks. In addition, the company set up the "Corporate Social Responsibility Committee" in 2019, the Committee is renamed to "Corporate Sustainability Committee" in 2021, with the chairman as the convener and the General Administration Division as the executive secretary, responsible for promoting sustainable development. Based on the GRI Reporting Standards and the Inclusivity, Materiality, Responsiveness, and Impact of AA1000AP(2018), the Committee carry out materiality analysis through identification, analysis and confirmation to identify major issues of environmental, social and corporate governance and formulate relevant risk management policies or strategies as follows:</li> <li>1. In the environmental dimension, we have formulated climate risk identification procedures with reference to the TCFD framework. Regular GHG emission inventories within the scope of the operations are conducted in line with the ISO14064-1:2018 standard. Formulation of response measures to reduce the impact of environmental risks on operations are paired with the improvement for the ongoing development of green, energy-saving engineering technologies.</li> <li>2. In terms of social, we assess the issue of "occupational health and safety management."</li> </ul> |                |  |  |

|  |     | -  | Implementation Status   | Deviations     |
|--|-----|----|---|----------------|
| Promotion Item   | Yes | No | Abstract Explanation  | and<br>Reasons |
|  |     |    | <ul> <li>By establishing an Occupational Safety Committee, we jointly deliberating, coordinating and planning safety and health relevant regulations to effectively prevent occupational disasters and protect employees' health and safety.</li> <li>3. In terms of corporate governance, we assess the issue of "corporate governance and legal compliance." By strengthening the operation of the board of directors and implementing integrity management to ensure that all personnel around the company comply with the relevant laws and regulations and create a sound corporate governance culture.</li> <li>Please refer to the "Sustainable Management" chapter of the company's sustainability report for more information.</li> </ul>  |                |
| <ul> <li>3. Issues of Environment         <ul> <li>(1) Does the company establish proper environmental management systems based on the characteristics of their industries?</li> </ul> </li> </ul> | v   |    | (1) The company has set up standard operating procedures and operations manuals according to the nature of its construction work. In addition to requiring employees to comply with construction procedures, the company is also dedicated to enhancing safety and hazard control over the work environment, work activities, and any instruments or equipment used. Work environments are tested regularly and the company's work practices have received ISO45001:2018 Occupational Health and Safety certification.  |                |
| (2) Does the company endeavor to<br>use energy more efficiently and<br>to use renewable materials with<br>low environmental impact?  |     |    | (2) The company has passed ISO14001:2015 Environmental Management certification<br>and ISO50001:2018 Energy Management Systems certification processes and are<br>firmly committed to realizing optimal use of energy and substantial achievements in<br>the field of energy conservation through systematization, implementation,<br>maintenance, and ongoing improvements of energy management, continues to devote<br>resources to technology R&D to provide customers with energy-saving solutions. By<br>using energy-saving and heat recovery equipment, the company expects to reduce<br>environmental pollution and promote recycling. The company also making regular<br>inventories and reviews to understand its energy use status, enhancing energy<br>efficiency through regular maintenance works; adopting energy-saving, water-saving |                |

|  |     |    | Implementation Status  | Deviations     |
|--|-----|----|--|----------------|
| Promotion Item   | Yes | No | Abstract Explanation   | and<br>Reasons |
|  |     |    | or energy star labeled products; and, educating employees the energy-saving concepts<br>and enhancing their awareness towards energy saving.<br>Acter mostly relies on purchased electricity (within the boundaries of the Taichung<br>HQ) and gasoline for company vehicles to meet its energy demands. We set a value not<br>exceeding the baseline value (defined as the average value of the preceding two years)<br>in the respective year as the energy conservation target for the following year.<br>The per capita power consumption in 2023 amounted to 4.33 (GJ/number of<br>employees), which is a 5.46% decrease from the baseline value of 4.58 (GJ/number of<br>employees), indicating that the energy-saving measures implemented by the company<br>continue to have a positive impact. The total gasoline consumption increased due to an<br>increase in project volume in 2023, leading to a higher demand for commuting to and<br>from work locations. However, the per capita consumption decreased by<br>approximately 15.27% to 2.58 (GJ/number of employees) compared to the baseline<br>value of 3.045 (GJ/number of employees). The company will regularly promote<br>energy-saving education and implement daily management, and will continue to<br>monitor to achieve energy-saving goals in the future. |                |
| (3) Does the company assess the<br>current and future potential<br>risks and opportunities of<br>climate change to the company,<br>and adopt measures to respond<br>to climate-related issues? |     |    | (3) With a view to tackling the challenges of climate change early on, a Corporate Sustainability Committee has been formed as the highest body in the field of climate change with the chairperson of the Company serving as chair and the General Administration Division as the executive secretary. This committee deliberates climate change-related strategies and targets, identify climate change risks and opportunity. Based on the identification results, we further established metrics and management by objectives, and submits reports to the board of directors. We disclose information on governance, strategy, risk management, metrics and targets in accordance with the TCFD framework announced by the Financial Stability Board. Assessments of climate change risks are relaunched every two years and updates are inspected every year. The latest climate risk assessment was completed at the end of 2023. Relevant response measures were devised and the potential opportunities were analyzed. For a more  |                |

|                |     | We adopt the average value of the previous two years as the baseline value and set a value for the respective year not exceeding the baseline value as the target for water consumption reduction for the following year. In 2023, the total water consumption at the headquarters has increased compared to the baseline value due to expansion of business leading to an increase in office space. In the future, the company will continue to promote water conservation policies to achieve the goal of reducing per capita water consumption. With a view to reinforcing the management of water resources and reduction of water consumption, Acter has adopted automatic sensing devices for all faucets on its company premises. Water conservation slogans are displayed to remind all staff members to cherish water resources. 3. 6. If the company has adopted its own sustainable development best practice principles based on the Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies, please describe any deviation from the principles in the company's operations:

The company has made a commitment to sustainability, and has implemented measures such as an employee code of conduct and environmental safety and health policies. These actions are consistent with the rationale of the "Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies."

7. Other important information to facilitate better understanding of the company's promotion of sustainable development : Please refer to <Table 1> and <Table 2>.

<Table 1>

| Item                                       | Detailed Description  |  |  |  |  |
|--|---|--|--|--|--|
| Human rights                               |   |  |  |  |  |
| Compliance with the Labor<br>Standards Act | The Company will follow the human rights related policies announced by the government. According to the Labor Standards Act, Act of Gender Equality in Employment and the related regulations, the company has set the "Work Rules" to secure the legal rights of the employees. "Human Rights Policy" was set to secure the human rights and benefits of all the employees (active employees, contractors and temporary workers, interns etc.) after referencing the International Bill of Human Rights, International Labor Convention and related international initiatives. To maintain employer-employee relations, the company holds employment meetings on a regular basis according to the "Regulations for Implementing Labor-Management Meetings." Four meetings were held in 2023. |  |  |  |  |
| Other (e.g. protecting employees           | The company has implemented the "Human Rights Policy," "Sexual Harassment Prevention Policy," and   |  |  |  |  |
| and recruitment candidates from            | "Personal Information Protection Policy" to protect employees' rights, interests and privacy. There were no   |  |  |  |  |
| harassment and discrimination)             | complaints to violation of human rights as of 2023.   |  |  |  |  |
| Employees' rights, safety and health       |   |  |  |  |  |
| Adequate training for employees            | In order to inspire growth among employees and nurture professional talent, the company has implemented a set of training guidelines and empowered General Administration Division to oversee employee training.  |  |  |  |  |
| Employees' right to express                | The company implements two-way communication through multiple channels such as internal platforms,  |  |  |  |  |

| Item   | Detailed Description   |
|--|--|
| opinions   | employee mailboxes, seminars, labor-management meetings, and employee satisfaction surveys. An employee mailbox has been made available on the company's website (under the HR section), through which employees may reflect their opinions about rights, welfare, management and the work environment. The company conducts employee satisfaction surveys through questionnaire each year and improvement measures are then proposed so as to achieve employee demands and expectations.  |
| Other (e.g. ISO45001 certification<br>on occupational health and safety,<br>and offering of reasonable welfare<br>and remuneration packages to<br>employees) | The company has obtained ISO9001:2015 certification on quality, ISO14001:2015 certification on environmental management, ISO50001:2018 certification on energy management systems and ISO45001:2018 certification on occupational safety and health. Its employee remuneration system has been developed in compliance with relevant laws including those that govern minimum wages and mandatory benefits.  |
| Employee care  |  |
| Workplace safety   | The company has empowered a Quality Insurance & safety Department to oversee safety and health conditions at various work sites. The department conducts regular tests on the operating environment and takes steps to ensure that safety and health regulations have been strictly complied with to provide employees with the utmost assurance.  |
| Establishment of written employee health and safety policies   | The company has an environmental safety and health policy and related regulations and cooperates in their execution.   |
| Other (e.g. care for employees' physical/mental development and family life)   | The company has established "Employee Welfare Committee" in 2005. It planes employee traveling activities, association, gathering party, reunion party and so on, including family day, using activities to increase the interaction of employees with their families. We anticipated that our employee could attach importance on the family life and mental development apart from work value the importance of family for our employees and our Human Resource Division staff aims to take care of the needs of the employee, including physical and mental development. In 2023, a total of 3 employee welfare committee meetings were held, with a total annual appropriation amount of NT\$6,925,853, including special funds for employees to have overseas or domestic trips. A total of 62 overseas or domestic activities were held. |
| Environmental Protection   |  |
| Establishment of written<br>environmental protection policy,<br>compliance with environmental<br>protection laws, and other (e.g.                            | The Company has established the environmental management system based on the internal "Environment manual" and passed the certification of ISO14001 International Environmental Management Systems in 2010. We have not only continuously improved the ISO14001 International Environmental Management Systems but also followed the requirements of the revised ISO version to have the system upgraded in 2017. We've done our best to   |

| Item   | Detailed Description  |
|--|---|
|  | The Company has followed the article 38 of "People with Disabilities Rights Protection Act" and article 12 of "Indigenous Peoples Employment Rights Protection Act" to hire the people with disabilities and indigenous people. By 2023, 3 people with disabilities and 3 indigenous people were hired and they'd represent 1% of total employees in the company. The ratio meets the provisions of the laws and Acter will continue to evaluate if they were at the right position and provide them the equal rights for working.  |
| Social services  |   |
| Promotion of social welfare and other                                  | Over the years, the company has been continuously cooperated with schools and relevant educational institutes for industrial and academic projects, including "industrial and academic cooperation" and "internship programs." It is the Company's expectation to integrate the industry and school resources to generate synergy and create more opportunities for students. In 2023, total expenses for "industrial and academic cooperation" and "internship programs" are NT\$984 thousand and NT\$4,085 thousand respectively. |
| Investor relations   |   |
| Operating transparency   | The company publishes financial and business information on the Market Observation Post System and its website as required by law.  |
| Corporate governance   | In an attempt to achieve more robust corporate governance, the company has empowered its directors and Audit<br>Committee in accordance with the "Corporate Governance Best-Practice Principles for TWSE/TPEx Listed<br>Companies" to make the company's operations more transparent to shareholders.   |
| Other  | The company has set up its own website and implemented a spokesperson and a deputy spokesperson policy as a means of providing more transparent financial information to investors.   |
| Supplier relations   |   |
| Reasonableness of procurement prices and other                         | The company has developed a set of "Material Procurement and Management Procedures" based on ISO9001 standards. By establishing procurement contracts with suppliers, the company is able to define the specifications for its purchases and thereby protect its own interests. Business dealings with suppliers are based on trust and a mutually beneficial relationship made possible by open communications.  |
| Stakeholder interests  |   |
| Intellectual property rights   | The company respects intellectual property rights, and is yet to be involved in any case of IP infringement.  |
| Regulatory compliance  | The company's operating policies and systems are in strict compliance with laws.  |
| Other (e.g. disclosure of corporate social responsibilities on company | The company has disclosed its corporate social responsibilities in prospectus and in its annual reports.  |

#### <Table 2>Climate-Related Information of TWSE/TPEx Listed Company

1. Implementation of Climate-Related Information

| Item   | Implementation status   |
|--|---|
| 1. Describe the board of directors' and management's oversight and governance of climate-related risks and opportunities.                                  | management unit, regularly planning and reporting on related issues,<br>and presenting results at board and executive management meetings.  |
| 2. Describe how the identified climate risks and opportunities affect the business, strategy, and finances of the business (short, medium, and long term). | <ul> <li>2. Based on the likelihood and impact of climate risks and opportunities, summarize relevant items and assess the timeline and impact as listed below :</li> <li>Physical risks: equipment damage and operational interruptions caused by various disasters <ul> <li>(1) Extreme weather events: long-term (30 years)</li> <li>(2) Adapt to Climate Change: Long-term (30 years)</li> </ul> </li> <li>Transition risk: Global trends are moving towards greenhouse gas emissions control, leading to increased costs. The company is taking measures to conduct audits and voluntary reductions, complying with regulations. <ul> <li>(1) Policy and Regulatory Impact: Midterm (10 years)</li> <li>(2) Greenhouse gas emission pricing: midterm (10 years)</li> </ul> </li> </ul> |
|  | <ul> <li>Opportunities         <ul> <li>(1) Innovative energy-saving technology, precise market response:<br/>short-term (5 years)</li> </ul> </li> </ul>   |

| Item   | Implementation status   |
|--|---|
|  | (2) Enhancing Climate Resilience, Internal Regulatory Audit<br>Identification: Short-term (5 years)   |
|  | <ul> <li>(3) Promote energy conservation, carbon reduction, and resource<br/>management to mitigate potential policy impacts on operations:<br/>short term (5 years)</li> </ul>   |
| 3. Describe the financial impact of extreme weather events and transformative actions.   | 3. The mentioned entities, transition risks and opportunities will impact changes in the company's operating costs.   |
| 4. Describe how climate risk identification, assessment, and management processes are integrated into the overall risk management system.  | 4. Regularly identify risks and opportunities, communicate with responsible units, and incorporate them into the company's annual risk management assessment. The Corporate Sustainability Committee will report risk control measures and operational effectiveness to the Board of Directors. |
| 5. If scenario analysis is used to assess resilience to climate change risks, the scenarios, parameters, assumptions, analysis factors and major financial impacts used should be described.   | 5. Please refer to the Sustainability Report for an explanation of the scenario analysis.   |
| 6. If there is a transition plan for managing climate-related risks, describe<br>the content of the plan, and the indicators and targets used to identify<br>and manage physical risks and transition risks.   | 6. Please refer to the chapter on "Sustainable Innovation" in the sustainability report for more details on the relevant initiatives.   |
| 7. If internal carbon pricing is used as a planning tool, the basis for setting the price should be stated.  | 7. We currently do not use internal carbon pricing planning tools, but will consider in the future based on the impact of climate change on our company °   |
| 8. If climate-related targets have been set, the activities covered, the scope of greenhouse gas emissions, the planning horizon, and the progress achieved each year should be specified. If carbon credits or renewable energy certificates (RECs) are used to achieve relevant targets, the source and quantity of carbon credits or RECs to be offset should be specified. |   |
| 9. Greenhouse gas inventory and assurance status, reduction targets, strategies, and specific action plans.  | 9. Please refer to pages 58~60 of the annual report for an inventory and verification of greenhouse gas emissions, reduction targets, strategies, and specific action plans. The company will fill out the form according to the schedule specified in the Sustainability Roadmap.              |

- 6. The Status of the Company's Performance in the Area of Ethical Corporate Management and Deviations from "the Ethical Corporate Management Best-Practice Principles for TWSE/TPEx Listed Companies" and Reasons
  - (1)To uphold operational principles of the utmost integrity, the company has established "Ethical Corporate Management Practice Principles," "Code of Ethics, " "Ethical Corporate Management Operating Procedures and Conduct Guide," "Corporate Governance Practical Rules," "Sustainable Development Best Practice Principles" and "Employee Ethical Business Guidelines" that prohibit employees from offering, accepting, committing or requesting any inappropriate benefits, whether directly or indirectly, while performing their duties. Employees are also prohibited against involvement in any conduct that may be construed as dishonest, illegal, or a breach of trust.
  - (2)Measures adopted :
    - A. Employees of the company are prohibited from offering or accepting inappropriate benefits, and are discouraged from doing business with dishonest agents, suppliers, customers or other business partners.
    - B. All employees of the company are required to comply with policies and refrain from dishonest conduct.
    - C. Employees of the company are required to disassociate themselves whenever there is a conflict between their interests and the interests of the company.
    - D. Employees of the company are bound to maintain confidentiality over any commercial secrets learned during their involvement. They are prohibited from revealing such secrets to others as well as inquiring into secrets unrelated to their job roles.
    - E. All major operating policies, investments, asset acquisitions and disposals, loans, corporate guarantees and endorsements, and bank financing are subjected to thorough analysis before they are proposed for the board's resolution.
    - F. The company's Financial Division is responsible for reviewing transactions according to accounting policies and conducting credit assessments of its customers. The Financial Division clarifies with the financial statement auditor should they encounter any major issues or queries. It reports regularly to the competent authority and makes public announcements on mandatory disclosures as required by law.
    - G. The Auditing Office is responsible for carrying out internal audits on various departments within the company, and therefore ensures the robustness and effectiveness of the company's internal control systems.
    - H. For the purpose of pursuing sustainable development, the company is committed to the concept of "integrity" as an operational principle. This integrity is reflected in the company's transparent disclosure of financial and corporate governance information on its website and on the Market Observation Post System and its corporate governance system (comprising of its "Ethical Corporate Management Practice Principles" and "Ethical Corporate Management Operating Procedures and Conduct Guide").

The adoption or amendment to the procedures was submitted to the board of directors for approval by resolution and publicly announced. Please refer to the company's website at <u>www.acter.com.tw</u> $\rightarrow$ Investors $\rightarrow$ Corporate Governance.

9. Internal Control System

(1)Statement of Internal Control System: Please refer to page 81.

(2)Where a CPA has been hired to carry out a special audit of the internal control system, furnish the CPA audit report: None.

#### ACTER GROUP CORPORATION LIMITED Statement of Internal Control System

Date: Feb. 26, 2024

Acter has conducted a self-assessment of internal controls for the period of January 1, 2023 to December 31, 2023. The results are as follows:

- 1. Acter acknowledges that the company's Board of Directors and management are responsible for establishing, implementing and maintaining the preexisting internal control system. The purpose of the internal control system is to provide a reasonable assurance for achieving the company's goals: efficient and effective operations (including profit, efficiency, and the safeguard of assets, etc.), reliability, timeliness, transparency, and regulatory compliance of reporting, and compliance with applicable laws and regulations.
- 2. The internal control system has its inherent constrains. Regardless of how well the system is implemented, it can only provide a reasonable assurance that the above goals will be achieved. Indeed the effectiveness of the internal control system may vary due to resulting changes in the environment and circumstances. Acter's internal control system is self-monitoring and requisite actions are promptly taken to address any recognized shortcomings in the system.
- 3. Acter evaluates the effectiveness of the design and performance of its internal control system as indicated in the Rules Governing Internal Control Systems Established by Public Listed Companies announced by the Securities and Exchange Commission, MOF. Based on the management control process, the items for assessing the internal control specified in the Points are: 1. Control Environment 2. Risk Assessment 3. Control Activities 4. Information and Communication and 5. Monitoring. Each is comprised of certain factors that are described in the Points.
- 4. Acter has evaluated the effectiveness of the design and performance of its internal control system in accordance with the above factors.
- 5. Acter believes that the effectiveness of the design and execution of its internal control system in 2023/12/31 the above mentioned assessment period provides reasonable assurance of achieving the goals of operation efficiency and effectiveness, reliability, timeliness, transparency, and regulatory compliance of reporting and compliance with applicable laws and regulations.
- 6. This Statement of Internal Control will be a prominent feature of Acter's annual report and prospectus and will be released to the public. Should any statement contained within be misleading or falsely represented, Articles 20, 32, 171 and 174 of the Securities Exchange Law shall apply.
- This Statement of Internal Control has been approved by Acter's Board of Directors at the Feb. 26, 2024 board meeting. Seven directors attended the meeting and agreed with the content of the statement.

#### ACTER GROUP CORPORATION LIMITED

Chairman: Liang, Chin-Li President: Lai, Ming-Kun Wang, Chun-Sheng

- 10. If there has been any legal penalty against the company or its internal personnel, or any disciplinary penalty by the company against its internal personnel for violation of the internal control system, during the most recent fiscal year or during the current fiscal year up to the date of printing of the annual report, where the result of such penalty could have a material effect on shareholder equity or securities prices, the annual report shall disclose the penalty, the main shortcomings, and condition of improvement. None.

Note1: List the highest and lowest market price of common shares in each fiscal year and calculate the average market price by weighing transacted prices against transacted volumes in each respective fiscal year.

Note2: Calculate the net worth per share based on the number of outstanding shares at yearend. Calculate the amount of distribution based on the amount resolved by the board of directors or resolved in the next year's shareholders meeting.

Note3: If retrospective adjustments are required because of issuance of stock dividends, the earnings per share should be disclosed in the amounts before and after the retrospective adjustments.

Note4: If equity securities are issued with terms that allow undistributed dividends to be accrued and accumulated until the year the Company makes profit, the amount of cumulative undistributed dividends up until the current year should be disclosed separately.

Note5: Price/earnings ratio = average closing price per share for the year / earnings per share.

Note6: Price / dividend ratio = average closing price per share for the year / cash dividends per share.

Note7: Cash dividend yield = cash dividend per share / average closing price per share for the year.

- Note8: Net worth per share and earnings per share are based on audited (auditor-reviewed) data as at the latest quarter before the printing date of the annual report. For all other fields, calculations are based on the data for the current year as of the date of printing of the annual report.
- Note9: The data for the current year as of the date of printing of the annual report has not been reviewed by CPA.
- Note10:The company's general shareholders' meeting resolved to amend the "Articles of Incorporation" and change the par value per share from NT\$10 to NT\$5 on May 26, 2022, which was approved by the Ministry of Economic Affairs by the Letter Jing So Shang Zi No.11101100840 dated Jun. 24, 2022 and was further approved by TPEx by the Letter Zheng-Gui-Jian No.1110006888 dated July 1, 2022. Original shares were replaced with new shares on Sep. 19, 2022. After the replacement, the number

of common shares was 114,607,990 shares and the average closing price per share in 2022 was NT\$104.16. Considering the comparability of information, the highest, lowest and average market prices are disclosed in the amounts before and after the change in par value per share.

#### vi. Dividend Policy and Implementation Status

- 1. Dividend Policy
  - (1)The dividend policy according to the Article of Incorporation provides as follows.

The company's surplus earning distribution or loss off-setting proposal may be proposed after the end of each half fiscal year.

When distributing the surplus earnings for each half fiscal year, the company shall first estimate and reserve the taxes to be paid, offset its losses, estimate and reserve the amount of employees' and directors' compensation, set aside or reverse a legal capital reserve at 10% of the remaining earnings provided that the amount of accumulated legal capital reserve has not reached the amount of the paid-in capital of the company, then set aside a special capital reserve in accordance with law and the competent authority.

If there is a balance left over, the balance, together with the accumulated undistributed surplus in the previous period, shall be drafted by the board of directors for a distribution proposal. When the company distributes its surplus by issuing new shares, it shall follow the Article 240 of the Company Act; if such surplus is distributed in the form of cash, it shall be resolved by a majority vote at a board of directors meeting attended by at least two-thirds of the total number of directors.

If there is a surplus earning following annual closing, the company shall first pay the taxes and offset its losses, then distribute it in the following order:

- A. Set aside a 10% legal reserve. Where such legal reserve amounts to the total paid-in capital, this provision shall not apply;
- B. Special reserve in accordance with law and the competent authority.
- C. If there is a balance left over, the balance, together with the accumulated undistributed surplus in the previous period, shall be drafted by the board of directors for a distribution proposal. When the company distributes its surplus by issuing new shares, it shall be resolved at the shareholders' meeting; if such surplus is distributed in the form of cash, it shall be resolved by a majority vote at a board of directors meeting attended by at least two-thirds of the total number of directors and shall be reported to the shareholders' meeting.

In accordance with the Article 241 of the Company Act, when the company distributes its legal reserve and the capital reserve, in whole or in part, by issuing new shares or by cash distribution which shall be distributed as dividend shares to its original shareholders in proportion to the number of shares being held by each of them, it shall be distributed in accordance with the resolution in the preceding paragraph.

The company reserves a portion of the surplus depending on its current environment, growth stage and long term financial planning. The remaining amount will be distributed by the board of directors as shareholder dividend based on the capital situation and economic development of the current year and cash dividend shall account for 10% or more of the total shareholder dividend.

(2)The board of directors shall set out the company's distribution proposal based on the operational performance and the need of capital. When the company distributes its surplus by issuing new shares, it shall be resolved at the shareholders' meeting; if such surplus is distributed in the form of cash, it shall be resolved by a majority vote at a board of directors meeting attended by at least two-thirds of the total number of

directors and shall be reported to the shareholders' meeting. According to the resolution of board, the distributed shareholder dividend would be not less than 51% of the current undistributed profit. Besides, cash dividend should account for 10% or more of the total shareholder dividend. Please refer to the company's website at www.acter.com.tw $\rightarrow$ Investors $\rightarrow$ Shareholder service $\rightarrow$ Contact information & Stock quote & Dividends history.

2. Distribution of Dividend

| Period      | Date of the<br>resolution by the<br>board of director | Payment date   | Cash Dividends<br>Per Share (NTD) | Total Amount<br>(NTD) |
|-------------|---|----------------|-----------------------------------|-----------------------|
| First half  | Nov. 08, 2023   | Feb. 2, 2024   | 4.5                               | 558,364,185           |
| Second half | Feb. 26, 2024   | To be resolved | 6.0                               | 744,485,580           |
|             |   | Total          | 10.5                              | 1,302,849,765         |

### vii. Effect upon business performance and earnings per share of any stock dividend distribution proposed or adopted at the most recent shareholders' meeting

There was no stock dividend distribution proposed or adopted at the most recent shareholders' meeting.

#### viii. Compensation of employees and directors

1. The percentages or ranges with respect to employee and director compensation, as set forth in the company's articles of incorporation.

When distributing the surplus profits for each fiscal year, the company shall first offset its losses of previous years and set not less than three percent of the profit before tax excluding the amount of employees' and directors' compensation as compensation to employees; and then set not more than five percent of the profit before tax excluding the amount of employees' and directors' compensation as compensation to directors. The "surplus profits" here refers to the balance of pre-tax profit before deducting the employees' and directors' compensation. The distribution of compensation to employees and directors shall be resolved with a majority vote of directors attended by at least two-thirds of total directors and reported to the shareholder's meeting.

Compensation to employees can be distributed in the form of shares or in cash and employees of parents or subsidiaries of the company meeting certain conditions set by the company can receive it as well.

- 2. The basis for estimating the amount of employee and director compensation, for calculating the number of shares to be distributed as employee compensation, and the accounting treatment of the discrepancy, if any, between the actual distributed amount and the estimated figure, for the current period.
  - (1)The basis for estimating the amount of employee and director compensation

Please refer to viii.1 Policy.

- (2)The company doesn't distribute employee compensation in stock for the current period.
- (3)The accounting treatment of the discrepancy, if any, between the actual distributed amount and the estimated figure, for the current period

Shall there be any difference between the actual distributed amount and the estimated figure, it will be deemed as the changes in accounting estimates and will be recognized in the profit and loss account of the distributing year.

- 3. Information on any approval by the board of directors of distribution of compensation
  - (1)The amount of any employee compensation distributed in cash or stocks and compensation for directors. If there is any discrepancy between that amount and the estimated figure for the fiscal year these expenses are recognized, the discrepancy, its cause, and the status of treatment shall be disclosed.
    - A. The amount of any employee compensation distributed in cash or stocks and compensation for directors. The proposal was passed at the Meeting of the Board of Directors on Feb. 26, 2024. The employee cash compensation is NT\$141,100,771 and the compensation for directors is NT\$70,550,385.
    - B. If there is any discrepancy between that amount and the estimated figure for the fiscal year these expenses are recognized, the discrepancy, its cause, and the status of treatment shall be disclosed: None.
  - (2)The amount of any employee compensation distributed in stocks, and the size of that amount as a percentage of the sum of the after-tax net income stated in the parent company only financial reports or individual financial reports for the current period and total employee compensation.

None.

- 4. The actual distribution of employee and director compensation for the previous fiscal year (with an indication of the number of shares, monetary amount, and stock price, of the shares distributed), and, if there is any discrepancy between the actual distribution and the recognized employee or director compensation, additionally the discrepancy, cause, and how it is treated
  - (1)The actual distribution of employee and director compensation for the previous fiscal year (with an indication of the number of shares, monetary amount, and stock price, of the shares distributed) are as follows.

Employee compensation: NT\$119,021,000. The compensation for directors: NT\$75,045,955.

(2)If there is any discrepancy between the actual distribution and the recognized employee or director compensation, additionally the discrepancy, cause, and how it is treated:

The estimated employee compensation for year 2022 amounted to NT\$150,091,911, with a difference of NT\$31,070,911 compared to the actual distribution. This difference is due to accounting estimate changes and is recognized in the profit and loss account of the distributing year.

#### **V.Operational Highlights**

#### i. Business Activities

1. Business Scope

(1)Main areas of business operations

- A. Turnkey engineering projects.
- B. Cleanroom engineering.
- C. Bio-medical engineering.
- D. Energy technology services.
- E. Air-conditioning electromechanical engineering.
- F. Ice storage projects.
- G. Industrial ventilation engineering.
- H. Constant-temperature constant-humidity engineering.
- I. Design and construction of pure water as well as wastewater systems.
- J. Environmental engineering.
- K. Water, gas, and chemical system integration engineering services for high-tech processes.
- L. Design and construction of high-purity chemical supply systems.
- M.Design and construction of high-purity gas supply systems.
- N. Design and construction of volatile organic gas processing systems.
- O. Design and construction of CMP solution supply systems.
- P. Design and construction of shared systems for entire plants.
- Q. Repair and maintenance engineering.
- R. High-tech equipment/materials sales and services.

(2)Revenue distribution

| Unit | ; | NT\$ | thousand; | % |
|------|---|------|-----------|---|
|------|---|------|-----------|---|

| Major Divisions         | Total Sales in Year 2023 | (%) of total sales |
|-------------------------|--------------------------|--------------------|
| Construction Revenue    | 24,594,830               | 98%                |
| Sales and Other Revenue | 465,911                  | 2%                 |
| Total                   | 25,060,741               | 100%               |

(3)Main products (Services)

Currently, our primary services include the design and construction of cleanrooms, electromechanical equipment, and process pipelines for high-tech electronics and biomedical industries. In particular, we specialize in turnkey services (responsible for the overall design, construction, testing, and verification of integrated system solutions). Our services include the following (categorized according to services provided as well as industry type):

- A. Cleanroom engineering or full-plant electromechanical system integration for high-tech factory construction.
- B. Full-plant electromechanical system integration for biomedical technology facilities.
- C. Air-conditioning electromechanical engineering for traditional industries.
- D. Other general electromechanical engineering and customer services.
- E. Liquid waste recycling system.
- F. Reclaimed water recycling system.
- G. Green energy certification.
- H. Intelligent green engineering.
- I. Energy-saving project improvement engineering.

(4)New products (Services) planned for development

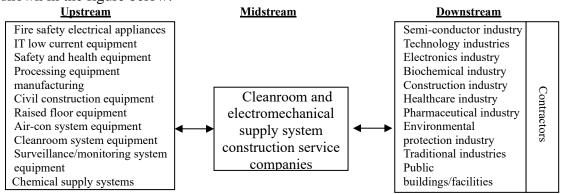

- A. Energy conservation technique
- B. Wastewater reclamation system
- C. Heat recovery system for air conditioner
- D. AI Smart Factory Management System
- E. Power Management System
- F. 3D BIM pipeline simulation and facility equipment information management
- 2. Industry Overview

(1)Current Status and Development of the Industry

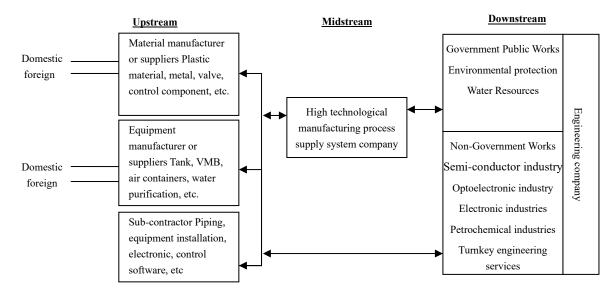

In the macro business environment, the SEMI predicts that the market will regain growth by 2024. In addition, the trend of advanced packaging continues. The visibility into future factory constructions is high. Many existing factories currently lag behind international standards. In the future, there will be a shift towards high value, low energy consumption, and low pollution models, creating opportunities for re-layout. Besides, as demonstrated in the 28th Conference of Parties (COP28) of the United Nations Framework Convention on Climate Change, achieving net-zero emissions is imminent. Leveraging its expertise in green engineering, Acter aims to provide clients with a broader range of services aligned with green sustainability principles. Those trends are beneficial to Acter's performance. As Acter's business covers multiple industries, except for the semiconductor industry and the photovoltaic panel industry, other industries also have considerable demand for plant and capital expenditures. It shows huge business opportunities in the market. Although large-scale construction suppliers offered turnkey solutions that enabled them to gain control of the electricity and machine engineering market, which led to greater competition in the electricity, machine and cleanroom engineering industry, Acter is committed to creating valuable projects and reduceing the financial burden of its clients through innovative technologies and special engineering methods. In addition, it reduces overhead expenses and engineering construction risks. It also forms a stable and cooperative relationship with suppliers for effective cost control and improvement of price competition in construction engineering.

(2) The Links between the Upstream, Midstream and Downstream segments of the Industry

The cleanrooms and electromechanical systems integration engineering services industry encompasses construction contractors and construction materials, equipment, and subcontractors, providing customers with full-plant electromechanical and cleanroom turnkey engineering services based on contractor requirements, by combining engineering disciplines and technologies from various professional fields. The relationships between upstream, midstream, and downstream service providers are shown in the figure below:

High technological manufacturing process supply system industry is in charge of the connection between the owners of engineering companies and the merchants of engineering materials, equipment and projects. The industry will provide the manufacturing process supply system equipment and engineering services. The relationships between upstream, midstream, and downstream are shown in the figure below:

(3) Development Trends for the Company's Products

- A. The systems integration engineering services industry is becoming increasingly important.
- B. There is a trend towards joint venture projects or cross-industry alliances and turnkey services.
- C. User-friendly spatial integration is becoming increasingly popular.
- D. High-tech product life cycles are becoming shorter, resulting in an increased need to quickly and safely adjust production lines.
- E. Health awareness and preventive healthcare has become mainstream, creating a wealth of opportunities for the biotech industry.
- F. Safety, stability, conciseness and precision of each system. Safety and quality requirements are becoming increasingly strict.
- G. Energy conservation and environmental protection awareness is on the rise. Pursuing sustainable development of enterprises.

(4)Competition for the Company's Products

Engineering services have been a cornerstone for the advancement of civilization and industry. Human knowledge and intellect are continuing to evolve, while the industrial engineering market undergoes rapid changes. The key to survival and rapid growth in this highly competitive environment is being able to keep up with the pace of change. With competition between both foreign and domestic engineering service providers becoming increasingly fierce, economies of scale, increased efficiency, and integrated services are the keys to success. Sound engineering practices and professional techniques have always been critical to the expansion of engineering businesses and to the creation of new opportunities. The ability to quickly obtain sources of raw materials as well as provide customers with rapid and advanced engineering services will dictate whether or not a service provider will be able to achieve industry-leading status in today's competitive environment. This is why Acter continues to engage in the development of new system integration techniques, as well as research ways to conserve energy, with an emphasis on inter-system compatibility, in order to meet the integration needs of plant-wide systems.

- 3. Research and Development
  - (1)Technology and Research Development

System integration engineering techniques are different from those of other industries and involve the rearrangement of working techniques and equipment in order to achieve higher levels of performance. In addition, based on the requirements of the client industry, professional expertise from the fields of architecture, electromechanical engineering, air conditioning, fire prevention, instrumentation control, pipeline distribution, and project management need to be integrated and tailored to fit the customer's production environment. Since this involves a wide range of complex issues, there are usually many different service providers working independently and in parallel with each other, making it difficult to integrate all of their efforts. Furthermore, due to divisions of labor resulting in a high level of subcontracting as well as a large number of subcontractors working on relatively small parts of the overall project, engineering quality is difficult to control. In addition, different personnel and equipment need to be involved in different project phases, making the presence of experienced personnel with sound professional expertise extremely important in ensuring construction quality and on-time project delivery. Project durations are usually longer than the production times of other industries, with wider ranges of technical expertise being involved, making the accumulation of experience and sound construction techniques extremely important. In general, our company belongs to an industry with a high degree of professional division of labor and in what is considered a labor-intensive field.

(2)Research and Development expenses during the most recent fiscal year or during the current fiscal year up to the date of printing of the annual report

Unit; NT\$ thousand

| Year               | 2023    | As of February 29, 2024 |
|--------------------|---------|-------------------------|
| Total R&D Expenses | 370,516 | 33,833 (Note1)          |

Note1: The data for the current year as of the date of printing of the annual reporthas not been reviewed by CPA.

(3)Research and Development Achievements during the most recent fiscal year or during the current fiscal year up to the date of printing of the annual report

We strive to develop innovative techniques, accumulate technical experience, and enhance performance. The following is a description of some of our unique and innovative construction techniques and patents.

| Category  | Unique or innovative technique  |
|---|---|
| Ice storage and energy conservation engineering | Taking advantage of mat foundations to store ice in order to offload peak loads   |
|   | Taking advantage of fire-extinguishing water tanks to store cold water in order<br>to reduce the amount of space occupied and lower electricity contract capacities |
| Skyscrapers                                     | Reduction of pipeline occupancy areas for ultra-cold ventilation systems  |
|   | 42-story general-use buildings  |
|   | Exclusive integrated negative-pressure SARS technology for hospitals  |
| Special types of engineering<br>technologies    | The Department of Health and Welfare's dedicated bio-chemical laboratory  |
|   | Integration engineering technology of whole plant import of Tobacco manufacturer  |

Note: The above patents were newly added in 2023.

4. Long-term and Short-term Development

(1)Short-term Development

- A. To expand the scope of operation in Southeast Asia.
- B. Energy conservation service expansion engineering.
- C. Assisting biotech companies with factory upgrades.
- D. Actively develop turnkey services for technology industries.
- E. Establish industry-academia cooperative efforts in order to develop talent.
- F. Integrate marketing services in order to boost customer satisfaction levels.
- G. Waste water and gas treatment and cremation of sludge and waste liquids.
- H. Water recycling, desalination, and zero emissions of waste water.
- I. Pre-fabrication Technique for Large Cement Tanks.
- J. Development of developer recovery and reuse system.

(2)Long-term Development

- A. Strengthen corporate governance, enhance enterprise culture and sustainable development.
- B. Rooting deeply in this industry, continuously optimize engineering capabilities, carry out a diverse, multi-project integrated engineering service, and building a comprehensive marketing service system. Continuing to root deeply in the technology, biotechnology, livelihood, petrochemical, and other industries, and strive

to use core skills to help companies achieve carbon neutrality, pursue a better future .

- C. Maintain constant contact with current customers from mainland China and Southeast Asia, develop new customers, create multi-regional business, improve investment efficiency, and expand industrial integration.
- D. Cooperate with international partners and continuously expand the scope of its professional service in biological, pharmaceutical, medical industries and desalination.
- E. Combine the professional manufacturing processes of gas and chemical supply systems in the treatment of liquid waste and solvent waste to create a new generation engineering integration technology and Earth-friendly technology.
- F. Recruiting more diverse talents and actively training management teams.
- G. Deepening the professional technical capabilities such as green energy and environmental protection in fulfillment of its duty as a global citizen.

#### ii. Market and Sales Overview

- 1. Market Analysis
  - (1)Sales (Service) Region

Our company as well as our subsidiary companies currently provides cleanroom and electromechanical systems integration services, as well as water, gas, and chemical integration engineering services for process systems. We primarily serve the domestic, China, and Southeast Asian regions.

(2)Market Share (%)

High-tech cleanrooms and electromechanical systems integration services for industrial plants are needed in a wide range of fields and sectors including the semiconductor industry, the optoelectronic industry, as well as the biomedical industry. In addition, domestic engineering companies participate in bidding on projects across a wide range of engineering fields, therefore, market share percentages calculated based on individual industries would not be able to reflect the actual state of the market, making it difficult to calculate our company's market share based on output on a consistent basis. However, in terms of engineering scale as well as technological maturity, there are only a few engineering companies that can compete with publicly listed companies, and Acter is one of the few companies that can simultaneously service the optoelectronics, electronics, biochemical drug production, and residential construction industries, with a wealth of project experience.

- (3)Demand and supply conditions for the market in the future, and the market's growth potential
  - A. Supply conditions for the market in the future

There are currently many service providers providing cleanroom air conditioning electromechanical engineering services in Taiwan. Electromechanical systems integration services, on the other hand, require long-term accumulation of experience and technological expertise. In some market segments, factors including professionalism of employees, company reputation, and past engineering accomplishments form entrance barriers, resulting in only a few service providers currently being able to provide professional electromechanical system integration services, with Acter being one of them.

B. Demand conditions for the market in the future

Electromechanical engineering services business opportunities are created by factory

expansion, plant upgrade, or maintenance projects of customers. Primary customer groups include high-tech manufacturers, biomedical manufacturers, and hospitals. In recent years, due to innovation in the global semiconductor, optoelectronics, and other electronics-related industries, the functionality and performance of electronic products has continued to advance, creating new market demand for the electronics industry. In light of the uniqueness of the industry, businesses have to be ready for an upgrade and expansion at all times. In addition, the constantly increasing awareness of environmental protection and energy saving gives rise to the needs for mechanical and electrical engineering not only in the high-tech industry but also in the daily life. As such, the demand for integration of mechanical/electrical systems and clean rooms continues to remain at a certain level. According to the SEMI released The World Fab Forecast subscription, it is estimated that 42 wafer fabs worldwide will enter production in 2024. In addition, the trend of advanced packaging continues. The visibility into future factory constructions is high. Many existing factories currently lag behind international standards. In the future, there will be a shift towards high value, low energy consumption, and low pollution models, creating opportunities for re-layout.

C. The market's growth potential

Cleanroom electromechanical air conditioning systems and chemical systems engineering are considered an important production facility for high-tech manufacturers, and particular emphasis is placed on the technological grade and sophistication of these systems. Industries, including semiconductors, optoelectronics, as well as biomedical, all rely on these types of equipment to achieve their required production environments. In addition, driven by continual industry upgrade requirements, market demand for cleanroom electromechanical systems is significantly increasing. Furthermore, domestic service providers have accumulated an abundant amount of high-tech factory construction experience in recent years, allowing their technological capabilities to significantly improve. Domestic service providers also have a price advantage as well as the advantage of being based locally and being able to provide local services, allowing them to compete head-to-head with foreign service providers. Looking to the future, demand for cleanrooms, electromechanical systems integration engineering, and chemical systems engineering will come from factory expansion and factory upgrade projects of semiconductor, and biomedical manufacturers. On the other hand, the Southeast Asian market will benefit from the global supply chain restructuring, which will in turn drive spending as well as capital expenditure for the establishment of factory facilities. Moreover, the biotech industry, which the government is currently heavily investing in, is still in its development, with strong demand for cleanroom facilities, electromechanical systems integration engineering services, and chemical systems engineering. Looking to the opportunities are unlimited, future, business therefore, the cleanroom, electromechanical engineering, and chemical systems engineering markets still have room for future growth.

(4) competitive niche

A. Exceptional construction performance and extensive service coverage

Over the 45 years of the company's existence, it has been involved in the construction of commercial buildings, public infrastructure, department stores, hospitals, and facilities for green energy, optoelectronics, semiconductors, and biotech industries. It has built up a strong track record in the construction of air-conditioning, electrical and

cleanroom facilities, making it one of the few local construction service companies that are able to deliver across different industries and across borders. Compared to its peers, the company is able to quickly adjust to changes in economic cycles, and hence is exposed to fewer business risks. In addition, the company also proactively engages itself in the environmental protection and energy saving fields. The company and its subsidiary Nova Technology Corp. cooperate with the overseas large-scale company for developing water treatment relevant business and actively expand various fields.

B. A high quality image and reputation

A "creator of quality space" is how the company positions itself. It delivers cutting-edge work spaces supported by comprehensive after-sale services/warranties that has gained it a sparkling reputation. The company is IS0-9001:2015, ISO45001:2018, ISO50001:2018, and CANB certified. It is also the only company among its industry peers that has been recognized and rewarded for achievements in energy conservation. "Quality" and "reputation" are the critical intangible assets that give the company the assurance to win over customers.

C. A quality management team and modularized construction methods

The company provides services to businesses on a project-by-project basis. It has project managers who engage customers directly to oversee construction progress and quality according to customer needs and the terms of construction agreements. The company's key project managers all have more than 10 years of experience in the industry, and each of them is well-versed in managing construction work. For completed projects, the Company has established a complete and detailed database. With engineering experiences accumulated over the years, for related projects, there are the closure meetings where authorities concerned are invited to take part so that we can learn further and it helps us modularize different types of customers and is therefore able to reduce design costs and respond to customers with optimal construction solutions in a timely manner.

D. Specialized construction talents

The Company has staff with practical experience in many areas and has placed comparable emphasis on educational training for its employees and recruitment of various professionals since its establishment. Besides internally, the Company sends people to attend all kinds of educational training that are held externally as well. It has placed great emphasis on training and recruitment since its establishment. Employees undertake regular training to develop skills applicable both in the integration of large-scale construction projects and in ensuring work quality. These training courses give our engineers a distinct advantage over competitors. The company also works with professional institutions in developing new construction design methods.

E. Stringent cost control and complete after-sales services

The company places great emphasis on the cost control and after-sales services of its construction projects. In order to accurately estimate and control costs, the company maintains good relationships with, and has up-to-date information on, all the certified suppliers and contractors it works with, which gives it control over changes in the costs of purchasing and outsourcing. With regards to after-sales services, the company makes a commitment to serving customers during the warranty period exactly as agreed in the contract, and takes the initiative to resolve customer queries regarding their construction projects, which builds up sound relationships that help boost the company's reputation and competitiveness.

#### F. Robust financial structure

Although the company is a provider of integrated system construction services, it outsources actual construction work to other subcontractors. Depending on the nature of the construction agreement, some of the materials and equipment needed for the job are purchased by the subcontractors while others are purchased by the company subject to proper procurement procedures. Subcontractors are required to have sufficient capital resources for payments such as tender bonds, performance bonds, material and equipment purchases, construction costs, and warranties, before they engage in large-scale integrated system projects. Meanwhile, the financial structure of the Company has been sound and healthy. There is sufficient working fund to support engineering operations. There are also abundant financing credits available at financial institutions. The sound and healthy financial structure helps enhance the level of confidence that clients have in the Company as well.

(5)Favorable and Unfavorable Factors in the Long-range Future, and the company's response to such factors.

#### A. Favorable Factors

a. Technological development and plant upgrade

We are currently in an era characterized by rapidly evolving technology and emerging opportunities such as biotech, healthcare, energy conservation, environmental control, etc. The pace of technological development means a constant need for plant upgrade to keep up with production, and thus gives construction service providers an opportunity to thrive. The demand for industries relating to cloud application is also increasing on a daily basis as changes continue. One of the most prominent opportunities in the future will perhaps be biotech industries. A focus of recent government policy and an ongoing global trend, the growth of the biotech industries should not be underestimated. Due to the fact that biotech workplaces are subject to more stringent regulatory requirements and higher technology standards, the company is confident that its abundant experience in the sector stands it in good stead for future development.

b. As living standards rise living space requirements also rise

Because of improved living standards, people accordingly have increased demand for quality living spaces. This naturally gives rise to the sightseeing and tourism industry. The demand for constructions of large hotels and shopping malls, for example, is climbing as well and construction companies with the ability to deliver quality living space will be able to capitalize on this growth.

c. Opportunities within the China market

The China market offers significant potential business opportunities, although there may be a short-term growth slowdown, overall market potential is expected to maintain an upward trend in the long term. China presents enormous and growing potential for Taiwanese businesses because of the similarities in language and culture unmatched by any foreign company. Over the years, investment from Taiwan in China has evolved from small businesses to large conglomerates, and from labor-intensive businesses to capital and technology-intensive businesses. The increasing amount of factory construction presents immense opportunities for the company's air-conditioning business in China, and our subsidiary, Acter Technology Integration Group Co., Ltd., has acquired the highest qualification of the first grade of general contractor in mechanical and electrical installation engineering, and has been listed in 2022 to increase its reputations, while Winmax Technology Corp. become a participating development unit simultaneously for technical code for chemical system of electronic engineering in China with the technical advantage, which is very beneficial for business development in Mainland China.

d. Growth in Southeast Asia Markets

Due to global geopolitical changes, supply chain diversification risks, vast potential markets, and favorable policies, many companies are adopting a trend towards risk mitigation and actively expanding their presence in Southeast Asia. In response to this trend, the company has set up subsidiaries in Singapore, Malaysia, Vietnam, Indonesia and Thailand and transplanted its successful Taiwanese experience to quickly develop a working system. Because of its early entry, the company is confident of securing a competitive advantage in this market.

e. The biomedical industries

Biomedicine is the fastest growing, most widely applied and most influential technology among all human science and technology. In light of the prosperous outlook and the importance of the biomedical industry, the government continues to promote The Biomedical Industry Innovation Program (BIIP), expects to establish Taiwan as the "Asia-Pacific Biomedical R&D Industry Center" and envisions biomedicine as next trillion-dollar industry by 2025. Acter has been involved in the biotech industry for several years; it has the experience, the technology and the track record to help China accomplish its biotech goals.

f. Complete and versatile categories of services and providing TOTAL SOLUTION

The company provides engineering integration services including construction, mechatronics, cleanroom, processing, environmentally-friendly and energy saving programs, biotechnology certification, chemical supplying system and equipment. Moreover, it possesses a professional design work to provide utmost efficiency and maintenance service.

- B. Unfavorable Factors and the company's response to such factors
  - a. Price competition

Many large construction companies are starting to offer cleanrooms as part of their factory turnkey solutions, and hence pose a threat to cleanroom specialists.

## **Response strategies:**

The company will compete for customers with an emphasis on the use of innovative technologies and construction methods to help customers reduce costs. Meanwhile, the company will aim to control human resources and administrative expenses and minimize construction risks by exercising proper work management and quality assurance, and deliver greater output efficiency by investing in talent training. The company will also keep up with new construction techniques by collaborating with academic and technical institutions in R&D projects, and earn customer trust to undertake more complex projects that mitigate the impact of reduced margins. To remain price competitive, the company will leverage the strong partnership it has with suppliers and control costs to its advantage.

b. Intensifying competition from international industry peers

Construction projects in China are becoming more and more competitive not only in terms of pricing, but also in terms of capabilities of local competitors. Given the service intensive nature of the company's cleanroom business, the company needs to constantly improve its technical and management capabilities to meet uncertainties and changes in economic cycles. The training, attrition and aging of service talent all pose risks to the company's business.

## **Response strategies:**

For more than 40 years, the company has grown its business through differentiation and specialized construction techniques. This method has proven to be effective not only in Taiwan, but in China and Southeast Asia as well. It has been our goal to play the role of a pioneer in industry upgrade and optimization. We respond to changes in the construction market by striving for outstanding innovation and services that set us apart; over time, this becomes the means by which we compete in the market. Furthermore, the company is taking a proactive step towards globalization and hopes to develop a business presence outside of China.

c. Recruitment and retention of professionals meet challenges

For the engineering service industry that the Company belongs to, professional engineers have to deal with a relatively changeable and difficult workplace, not to mention the required technical attainments. It is hence comparatively difficult for younger generations to work in such an environment, which makes recruitment of talent uneasy and results in the susceptibility to brain drain, particularly among new hires, and talent shortage. "People" are the most important assets of the Company. It is hence a big challenge for the Company as to how to find professionals and enable them to develop steadily in their profession.

# **Response strategies:**

Internally, the apprenticeship system is adopted in order to pass down the experience, culture, and technology. Each new hire is led by a senior master while getting to know the Company and the new hire's work. This helps reduce the sense of frustration felt by new hires, make them feel cared for, and expose them to professional learning to greatly cut down the learning time and create a sense of belonging as well as achievement in them. In addition, there is a defined discipline and reward system and a transparent evaluation system in place to adequately provide employees with feedback. The sound systems and humanistic warmth create a substantial momentum that helps retain talent.

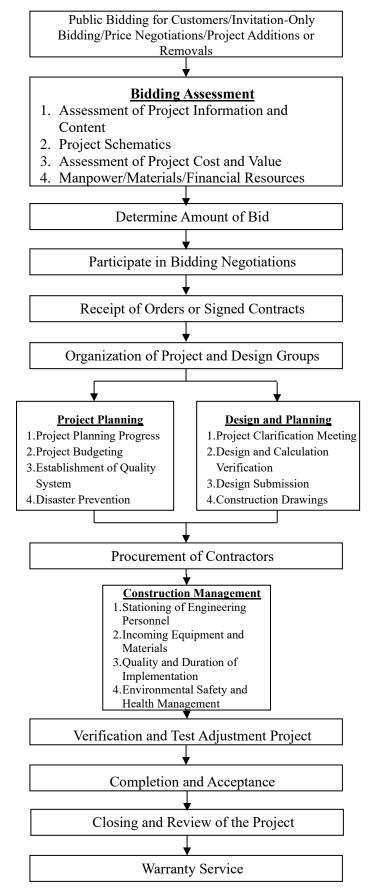

Externally, the Company creates a favorable image and collaborates with related departments in colleges and universities to increase its publicity and a sense of identity so that students will prioritize the Company when choosing a career in the future.

#### 2. The Production Procedures of Main Products

#### (1) Major Products and Their Main Uses

The company specializes in the design and installation of cleanroom facilities, a service that helps manufacturers manufacture products in a dust-free environment with controlled temperature and humidity for the highest precision, yield and product quality.

#### (2) Major Products and Their Production Processes

3. Supply Status of Main Materials

Our company's materials and equipment procurement operations are carried out according to contractual agreements put in place for different projects, and are mainly divided into two models: (1) subcontracting projects to subcontractors, including all labor and materials requirements, and (2) making procurements ourselves. Construction materials and equipment our company purchases include various types of machines, air conditioning equipment, fan equipment, pumps, water towers, electrical generators, cleanroom equipment, electrical wires and cables, pipeline materials, valves, power distribution panels, buses, raised floor panels, vibration/shock proofing equipment, etc. These products are all purchased from domestic suppliers that we enjoy stable relationships with.

4. A list of any suppliers and clients accounting for 10 percent or more of the company's total procurement (sales) amount in either of the 2 most recent fiscal years, the amounts bought from (sold to) each, the percentage of total procurement (sales) accounted for by each, and an explanation of the reason for increases or decreases in the above figures

|      |                       |            |     |                         |                       |            | Unit · | IN 15 thousand          |

Note : The company compiles group human resources on a quarterly basis, therefore this column is updated with the latest information.

# iv. Disbursements for Environmental Protection

1. Any losses suffered by the company in the most recent fiscal year and up to the date of printing of the annual report due to environmental pollution incidents (including any compensation paid and any violations of environmental protection laws or regulations found in environmental inspection, specifying the disposition dates, disposition reference numbers, the articles of law violated, and the content of the dispositions), and disclosing an estimate of possible expenses that could be incurred currently and in the future and measures being or to be taken. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided.

None.

#### v. Labor Relations

1. List any employee benefit plans, continuing education, training, retirement systems, and the status of their implementation, and the status of labor-management agreements and measures for preserving employees' rights and interests

## (1)Employee Benefit Plans

To win employees' loyalty, the company provides employees with labor and national health insurance and has established an Employee Welfare Committee to oversee employee benefits such as health check-ups, annual company trips, recreational activities and year-end celebrations, while serving as a bridge for communication of employer and employee opinions. Below are the company's key employee benefits:

- A. Labor insurance, national health insurance, group insurance, pension plan, and health check-ups
- B. A variety of subsidies such as child birth, wedding, funeral, injury, illness, and disaster relief.
- C. The company offers cash gifts on occasions such as birthdays, Dragon Boat Festival, Mid-Autumn Festival etc, as well as other compensation including year-end bonus, year-end banquet lucky draw, profit distribution and share subscription.
- D. Group trips, recreational events and birthday parties are organized for employees on a regular basis.
- E. The company strives to achieve stable growth and thus secure employees' work rights.

## (2)Continuing Education, Training

Talent training has been identified by the company as a key to human resource management and a sustainable solution to respond to rapidly changing technologies. For this reason, the company has organized a range of workshops and training courses that aim to enhance employees' skills and knowledge, and subsidizes employee participation in external training in the hope that they may contribute what they learn to improve the quality of work and generate profits for the company. The following is a list of training courses offered to employees in recent years:

Unit: hour: NT\$

Below is a description of courses offered to employees:

- A. Specialized training: these courses are offered to enhance employees' work skills and practical experience, and include training on sales skills, construction design and supervision, project management, project cost estimation, 3D drawing, quality management, and work site safety. These courses are carried out in a lecture format combined with the practical experience of project managers.
- B. General knowledge training: the company organizes seminars on a variety of topics such as self-development, time management, listening and communication to help employees develop a positive attitude towards their jobs. These courses also give them the chance to learn about their own potential and encourage them to participate in mental and physical activities.
- C. Operation and management training: For important staff, operation and management-related training courses are provided; with case studies and the instructor's abundant practical experiences, it helps enrich the trainees' management skills.
- D. Orientation: these are training courses given to new hires upon arrival. They provide an introduction to the company's welfare system, work culture, and basic work practices such as safety and health education, system introduction, information processing and accounting.
- E. Subsidies: Different subsidies are available for different areas and positions. There are cross-area allowances, phone bill subsidies, and medical care reimbursements, for example.

- F. Bounties: In some companies, there are subsidies and bounties for foreign language learning programs, covering tuition or increasing salary.
- (3)Retirement Systems, and the Status of their Implementation

The company has an employee retirement policy in place. It has assembled a Pension Supervisory Committee and contributes 2% of employees' monthly salaries into a pension account held with the Bank of Taiwan. Since July 1, 2005, the company has adopted the new pension system where the company contributes 6% of employees' salaries into individual pension accounts. In 2023, the total amount contributed to individual pension accounts at the Bureau of Labor Insurance was NT\$15,460,392. Overseas companies also follow local laws and regulations governing employee benefits.

- (4) The Status of Labor-Management Agreements and Measures for Preserving Employees' Rights and Interests
  - A. The company values employees' opinions and is dedicated to building an environment of open communication. Departmental meetings are held on a regular basis where opinions can be expressed openly and directed to the personnel responsible. Managers are also designated to oversee timely responses to such opinions.
  - B. Due to harmonious employer-employee relations, there were no employment-related disputes in the last year.
- 2. List any losses suffered by the company in the most recent 2 fiscal years and up to the date of printing of the annual report due to labor disputes (including any violations of the Labor Standards Act found in labor inspection, specifying the disposition dates, disposition reference numbers, the articles of law violated, the substance of the legal violations, and the content of the dispositions), and disclosing an estimate of possible expenses that could be incurred currently and in the future and measures being or to be taken. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided.

None.

3. Protective measures about safety and health of employees

The company has passed ISO 14001:2015 (Validity period: from Dec. 14, 2021 to Dec. 13, 2024) and ISO45001:2018 (Validity period: from Feb. 23, 2022 to Feb. 22, 2025) certification for the purpose of ensuring proper management over workplace safety and health. It has a Quality Insurance & safety Department that is dedicated to promoting and supervising workplace safety.

The company strives to prevent occupational disasters and safeguard labor safety and health. According to its industrial mandate, the company maintains a management system that ensures environmental safety and health, and identifies unacceptable risks by taking into account major environmental considerations and occupational safety and health. It monitors possible risks and hazards caused by the environment and personnel. Using the PDCA management method, it continuously plans, implements, checks, improves and enhances its environmental safety and health performance.

The company's operating procedures related to working environment and employee safety include: protective measures such as general safety operations, elevated safety operations, hot work safety operations, electrical safety operations, hanging safety operations, milling hole safety operations, stacker safety operations, confined space safety operations, organic solvent safety operations, cleanroom safety operations, environmental safety and health inspections, safety equipment management, emergency response management, hazard education and management, site audits, self-inspection operations, etc., and employee safety.

#### vi. Cyber security management

1. The cyber security risk management framework, cyber security policies, concrete management programs, and investments in resources for cyber security management

With the development of technology, the information security risks faced by enterprises are increasing day by day. The company also pays attention to this issue. To strengthen information security management, protect security of computer information data, systems, equipment and networks of the company, prevent the improper use, leakage, alteration and destruction of information assets due to human negligence and deliberate sabotage, which may affect the normal operation of the computer operating system or damage the operations of the company, the company formulates an "Information Security Policy" for all colleagues to follow, and at the same time promotes it from time to time to enhance employees' awareness of information security

#### (1)Management Framework

The company assigns the IT department as the information security unit. Supervisor of the IT department concurrently serves as the company's chief information security officer and has one information security personnel, jointly responsible for the maintenance and management of information security. They will regularly evaluate the appropriateness and effectiveness of information security policies, draw up a plan to strengthen protection measures and reduce information security risks, take ISO27001 as the benchmarks for information security management, and in the spirit of PDCA, continue to implement information infrastructure and information security measures to ensure the Security, Integrity and Availability of the company's important information.

The IT department executes the routine information security inspections and submits inspection reports to the responsible supervisor for review and verification. The ratification status of the findings and issues addressed in such inspection shall be understood, tracked and verified to confirm that the information security policy has been complied with by the internal and external related personnel and units.

The company conducts the internal audit and the specific audit in accordance with the annual audit plan for the information and communications security inspection items of the company. The audit results are not only submitted to the Board of Directors but also reported to the chairman on a monthly basis or on an as need basis in order to provide the operation status of internal control functions to the management level so that they can understand the existing or potential issues and then made the optimization.

(2)Specific Management Scheme

The company does not have information security insurance, but the following specific management schemes are applied to minimize the information security risks. The company believes and expects that information technology can be enhanced and information security can be ensured through these efforts, so that the operation results of the company will be improved to promote the interests of all shareholders.

A. Respect the Intellectual Property

The use of the network resources and information assets of the company means respecting intellectual property rights and preventing the following behaviors that may infringe on intellectual property rights:

- a. Use of unauthorized computer software.
- b. Illegal downloading or copying works or software that are protected by copyright laws.
- c. Uploading copyright protected works to a public website without the consent of the copyright owner.

- d. Randomly reposting articles published in internet discussion sections when reposting is expressly forbidden by the author.
- e. Setting up a website that allows the public to download protected works illegally.
- f. Other behaviors that infringe on intellectual property rights.
- B. Authority Control over the Information System
  - a. The control is managed in accordance with the Information Service Request Form that any modification to the System shall be approved by the immediate supervisor and the head of the IT department to reduce the risk of unauthorized modification of data.
  - b. Users have the relevant functions in accordance with their given authority, and users of the non-relevant system do not have the authority to use the system that is not related to their business.
- C. Security Control of the Account Passwords
  - a. Each user shall have his/her own account and password. In the event of departure or transfer of employees, his/her account shall be deleted or renewed.
  - b. The password of the user shall be updated regularly to reduce the risk of unauthorized use.
- D. Regulations Governing the Use of Internet and Email

The users shall not conduct the following behaviors:

- a. Spreading a computer virus or other programs that may interrupt or break the system functions.
- b. Using the internet resource or email to release official information outside the company without the permission.
- c. Hacking, impersonating the account and password of others or lending your own account to others without justifiable reasons.
- d. Abusing internet resources in any way, such as sending mass unsolicited marketing materials, chain letters or useless messages via email, or flooding mailboxes or robbing resources, etc. that affect the normal operations of the system.
- e. Conducting fraudulent or illegal transactions, and using defamatory, insulting, obscene, harassing, discriminatory language in messages or illegal software transaction distributed by e-mail, online chats, bulletin board system (BBS) or similar functions.
- f. Any use behavior that is not expressly regulated herein is prohibited if such behavior may endanger the information assets or information security of the company or if it violates the laws of the country.
- E. Regulations governing the Use of Information Assets
  - a. In the event that the information equipment of the company or its' own device is used, the latest version of the virus protection software issued by the company shall be installed, and its virus code shall be updated regularly. We explicitly prohibit employees from bringing computer equipment not provided by the company to their workplaces.
  - b. The IT department publishes information concerning information security from time to time, such as update notices of the system software, introduction and prevention campaigns for common viruses, to ensure that employees are aware of relevant information.
  - c. Backup the necessary data regularly.

- F. Data Protection Mechanism for Information System and Server Room Management
  - a. The documents in different classes are controlled by the access principle of divisional authorization, and the document management system establishes a document access security mechanism in accordance with the level of confidentiality, such as download forbidden, printing forbidden, and duplicating the content forbidden.
  - b. The routine data backup is performed by the IT department which performs the operation for the data file backup of all application systems and fills out the Server Backup History Table as backup records; the data after backup is stored offsite in case it is needed again.
  - c. Access control shall be installed for the Server Room and the computer server equipment shall be installed with appropriate security measures in case of fire, flooding and theft; an uninterrupted power system is installed to prevent damage caused by power interruptions.
- G. Manual governing the Emergency Contingency Response and System Restoration
  - a. In the event that an abnormal incident occurs to the computer server, the logout notification shall be immediately made to the user and the data backup operation shall be carried out.
  - b. In the event that the restoration of the System is required due to any abnormality of system, the system restoration plan shall be prepared by the user with the help of the information personnel, which shall achieve the following objectives:
    - (a)Disrupt the source of disaster as soon as possible to reduce the scope of the disaster.
    - (b)Restore the operation of equipment as soon as possible.
    - (c)Utilize the backup device or media to carry out the system restoration.
    - (d)Notify the user to conduct the restoration work of time-difference data.
  - c. The system restoration plan shall be rehearsed, tested and modified from time to time to ensure that the restoration can be done as soon as possible.
- (3)Execution in 2023

In 2023, we commissioned a third-party business to conduct a safety assessment encompassing the following items:

- A. Import MDR information security service: Monitor the behavior data of endpoints and analyze them 24 hours a day by a professional technical team to prevent unknown attacks that cannot be detected by antivirus software and reduce the risk of hacker extortion
- B. Inspection of malicious computer activities on the user end: Detection of malware or malicious files on personal computers including active and dormant malware, hacker utilities, and abnormal accounts and groups
- C. Inspection of malicious computer activities on the server end: Detection of malware or malicious files on servers including active and dormant malware, hacker utilities, and abnormal accounts and groups
- D. Social engineering drills: Sending of test mails to employees and recording of click rates to gain a better understanding of employee information security awareness

We have organized three information security awareness training courses to raise our employees' awareness of security threats, and total education hours is 214.5 hours. This course focused on safe use of social media, protective measures, sharing of cases, and e-mail safety rules. After conclusion of the course, relevant contents were made available to employees who were unable to attend the course via the E-learning system.

The completion rate of corrective action aimed at material and high-risk items has reached 100%, which guarantees optimal information security.

(4)The incident handling process, response measures and daily prevention and protection for the Information Security Instances

Establish the response for various phases, as follows:

- A. Security Prevention: Establish various prevention, contingency and restoration plan and protection measures related to the software and hardware, environment, and personnel training for the system equipment.
- B. Emergency Response during the Incident: In the event of an intrusion or attack, activate the emergency response plan to minimize the damage caused by the incident promptly.
- C. Restoration Operation after incidents occurred: Review the existing protective measures, execute the restoration and reconstruction works, and amend the loopholes of the existing security mechanisms and related contingency plans in a timely manner.

Response Procedure for Security Incidents:

- A. Inform the Information Unit promptly for Handling.
- B. Whether the incident is an information security incident that is judged by the Information Unit: Identify the incident that belongs to internal security incidents, external intrusion incidents, natural disasters or catastrophic emergencies and determine the response methods and procedures.
- C. The reporting level is determined based on the judgment and the damage control is carried out in line with various incidents to reduce the degree and scope of impact and to resolve the problem thoroughly.
- D. Restore the system back to its normal state of operation before the incident occurred and review the ratification and establish related preventive measures.

**Daily Protection** 

- A. Promotion and education training shall be emphasized in order to increase the employees awareness of the information security risks
- B. Adjust the network security level and acquire the equipment in accordance with the current situation from time to time
- 2. Any losses suffered by the company in the most recent fiscal year and up to the annual report printing date due to significant cyber security incidents, the possible impacts therefrom, and measures being or to be taken. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided.

None.

Analysis of financial ratio change in the last two years. (If the difference does not exceed 20%, the analysis is not required.)

1. The decrease in inventory turnover and increase in average days in sales were mainly due to the increase in total contract assets and inventories, but slower progress in contract execution leading to lower cost inputs.

2. The decrease in property, plant and equipment turnover was mainly due to the decrease in net operating revenue in 2023 compared to 2022.

3. The decrease in return on total assets was mainly due to the decrease in net operating revenue and the increase in average total assets due to contract assets and accounts receivable.

4. The decrease in return on shareholders' equity was mainly due to the increase in capital surplus resulting from the difference between the conversion price and face value of convertible bonds in 2023, leading to higher average shareholder equity compared to 2022.

5. The increase in cash flow ratio, cash flow adequacy ratio and cash reinvestment ratio were mainly due to a 158.42% increase in the cash inflow from operating activity in 2023 compared to 2022.

Note1: In the case of shares issued by a company with no par value or a par value other than NT\$10 per share, the calculation of ratio of the paid-in capital shall be replaced by ratio of the equity attributable to owners of the parent and it has been retrospectively adjusted.

Note2: The par value per share was changed to NT\$5 in September 2022 and the calculation of earnings per share has been retrospectively adjusted.

## 2. Financial Analysis-IFRS (Standalone Financial Statements)

Analysis of financial ratio change in the last two years. (If the difference does not exceed 20%, the analysis is not required.)

1. The increase in quick ratio was mainly due to the decrease in contract assets.

- 2. The increase in times interest earned ratio and decrease in return on total assets were mainly due to the conversion and early redemption of convertible bonds in 2023, resulting in reduced interest amortization.
- 3. The decrease in accounts receivable turnover, property, plant and equipment turnover, and total assets turnover, along with the increase in average collection period and profit ratio were mainly due to the decrease in operating revenue.
- 4. The decrease in inventory turnover and accounts payable turnover, along with the increase in average days in sales were mainly due to a decrease in operating revenue, resulting in a 51% decrease in operating costs and a 41% decrease in accounts payable.
- 5. The decrease in return on shareholders' equity was mainly due to adjustments in total equity attributable to the recognition of the conversion of convertible bonds of subsidiary Novatech, which resulted in a change of approximately NT\$104 million, coupled with a decrease in revenue leading to a 4.92% decrease in net profit after tax, around NT\$95 million.
- 6. The increase in cash flow ratio, cash flow adequacy ratio and cash reinvestment ratio were mainly due to a 1,417.05% increase in the cash inflow from operating activity in 2023 compared to 2022.
- Note1: In the case of shares issued by a company with no par value or a par value other than NT\$10 per share, the calculation of ratio of the paid-in capital shall be replaced by ratio of the equity attributable to owners of the parent and it has been retrospectively adjusted.
- Note2: The par value per share was changed to NT\$5 in September 2022 and the calculation of earnings per share has been retrospectively adjusted.
- Formulas for the above two tables are as follows.
- 1. Financial Structure

- (1) Ratio of liabilities to assets = Total liability / Total assets
- (2) Ratio of long-term capital to property, land and equipment = (Net shareholders' equity + Long-term liability) / Net property, land and equipment
- 2. Solvency
  - (1) Current ratio: Current assets / current liability
  - (2) Quick ratio = (Current assets Inventory Prepaid expense) / current liability
  - (3) Times interest earned ratio = Net income before tax and interest expense / Interest expense of the year
- 3. Operating ability
  - (1) Account receivable turnover (including accounts receivable and notes receivable derived from business operations) = Net sales / Average accounts receivable (including accounts receivable and notes receivable derived from business operation)
  - (2) Days sales in accounts receivable = 365 / Account receivable turnover
  - (3) Inventory turnover = Cost of goods sold / Average inventory amount
  - (4) Account payable turnover (including accounts payable and notes payable derived from business operation) = Cost of goods sold / Average accounts payable (including accounts payable and notes payable derived from business operation)
  - (5) Average days in sales = 365 / Inventory turnover
  - (6) Property, land and equipment turnover = Net sales / Net property, land and equipment
  - (7) Total assets turnover = Net sales / Total assets
- 4. Profitability
  - (1) Return on assets = (Net income (loss) + interest expense x (1-tax rate)) / Average total assets
  - (2) Return on shareholders' equity = Net income (loss) / Net average shareholders' equity
  - (3) Profit ratio = Net income (loss) / Net sales
  - (4) Earnings per share = (Net income attributable to owners of the parent preferred stock dividend) / Weighted average stock shares issued(NoteA)
- 5. Cash flow
  - (1) Cash flow ratio = Net cash flow from operating activity / Current liability
  - (2) Cash flow adequacy ratio = Net cash flow from operating activity in the past 5 years / (Capital expenditure + Inventory interest + Cash dividend) in the past 5 years
  - (3) Cash + reinvestment ratio = (Net cash flow from operating activity Cash dividend) / (Property, land and equipment + Long term investment + Other assets + Working capital) (NoteB)
- 6. Leverage
  - (1) Degree of operating leverage = (Net operating income Variable operating cost and expense) / Operating income(NoteC)
  - (2) Degree of financial leverage = Operating income / (Operating income interest expense)
- Note A: The following factors are to be included in the consideration for the calculation of earnings per share:
  - 1. It is based on the weighted average common stock shares instead of the outstanding stock shares at year end.
  - 2. For capitalization with cash or treasury stock trade, the stock circulation must be included for consideration to calculate weighted average shares.
  - 3. For capitalization with retained earnings and additional paid-in capital, the earnings per share calculated semi-annually and annually must be adjusted retroactively and proportionally to the capitalization but without considering the issuance period of the capitalization.
  - 4. If preferred stock shares are nonconvertible and cumulative, the dividend of the year (whether it is distributed or not) should be deducted from net income or added to the net loss. If preferred shares are not cumulative, preferred stock dividend should be deducted from net income if there is ant but it needs not be added to net loss if there is any.

Note B: The following factors are to be included for consideration for the analysis of cash flow:

- 1. Net cash flow from operating activity meant for the net cash inflow from operating activity on the Cash Flow Statement.
- 2. Capital expenditure meant for the cash outflow of capital investment annually.

- 3. Increase of inventory is counted only when ending inventory exceeds beginning inventory. If the ending inventory is decreased, it is booked as zero value.
- 4. Cash dividend includes the amount for common stock and preferred stock.
- 5. Gross Property, land and equipment for the total Property, land and equipment before deducting the cumulative depreciation.
- Note C: Issuer should classify operating coat and operating expense according to fixed and variable category If the classification is estimated and subjective, it should correspond with rationality and consistence.

#### iii. Audit Committee's Review Report in the Most Recent Year

# ACTER GROUP CORPORATION LIMITED

# Audit Committee's Review Report

This company's 2023 financial statements have been approved by the Audit Committee and resolved by the board of directors. The foregoing financial statements have been audited by CPA of KPMG under commission to the board, and the auditor has issued an audit report relating to the financial statements.

This company's 2023 business report and earnings distribution proposal have been prepared and issued by the board of directors. The foregoing business report and earnings distribution proposal have been reviewed and determined to be correct and accurate by the Audit Committee. According to Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Law, we hereby submit this report.

2024 shareholders meeting of ACTER GROUP CORPORATION LIMITED

# ACTER GROUP CORPORATION LIMITED

Chairman of the Audit Committee: Yeh, Hui-Hsin

February 26, 2024

iv. Consolidated Financial Statements for the Years Ended December 31, 2023 and 2022, and Independent Auditors' Report

Please refer to page 155 ~ page 234 of this annual report.

v. A parent company only financial statement for Years Ended December 31, 2023 and 2022, certified by a CPA

Please refer to page 235 ~ page 295 of this annual report.

vi. Impact on the company's financial situation if the company or its affiliates have experienced financial difficulties in the most recent fiscal year or during the current fiscal year up to the date of printing of the annual report None.

# VII. Review and Analysis of Financial Conditions, Financial Performance, and Risk Management

1. Analysis of changes in financial ratios:

(1) Non-current assets increased due to the increase in non-current financial assets at fair value through other comprehensive income in 2023.

(2) Non-Current Liabilities decreased due to the decrease in bonds payable.

(3) Capital surplus and total equity increased due to the conversion of convertible bonds by a subsidiary and the fact that the parent company did not subscribe for new shares issued by the subsidiary in cash capital increase in accordance with the shareholding ratio.

(4) Other equity increased due to the increase in unrealised gains (losses) from financial assets measured at fair value through other comprehensive income.

2. Future response actions: Not applicable.

3. There is advance receipts for share capital of NT\$ 11,721 thousand included in the total equity in 2022.

#### ii. Financial Performance

Unit: NT\$ thousand Year 2022 2023 Difference Percentage change (%) Item Net Sales 28,262,385 25,060,741 (3,201,644)(11.33)(3,341,241)23,484,234 20,142,993 Cost of Sales (14.23)Gross Profit 4,778,151 4,917,748 139,597 2.92 Operating Expenses 1,455,622 1,653,927 198,305 13.62 Operating Income 3,322,529 3,263,821 (58,708)(1.77)Non-operating Income and Gains 183,502 345,536 162,034 88.30 Non-operating Expenses and Losses 86,085 93,356 7,271 8.45 Income Before Tax 3,419,946 3,516,001 96,055 2.81 920,610 Tax Expense 916,428 (4, 182)(0.45)2,599,573 Net Income 2,499,336 100.237 4.01

1. Analysis of changes in financial ratios:

(1) The increase in non-operating income and gains was mainly due to the increase in interest income, dividend income and gains on financial assets at fair value through profit or loss in 2023.

2. Expected sales volume and basis for estimates:

Please refer to page 4 "2.2.2 Expected sales volume and basis for estimates" of this annual report.

#### iii. Cash Flow

1. Cash Flow Analysis for the Current Year (2023)

| Item                         | 2022  | 2023  | Variance % |
|------------------------------|-------|-------|------------|
| Cash Flow Ratio (%)          | 11.63 | 32.90 | 182.89     |
| Cash Flow Adequacy Ratio (%) | 42.53 | 59.21 | 39.22      |
| Cash Reinvestment Ratio (%)  | 2.15  | 7.47  | 247.44     |

Analysis of financial ratio change:

1. The increase in cash flow ratio, cash flow adequacy ratio and cash reinvestment ratio were mainly due to a 158.42% increase in the cash inflow from operating activity in 2023 compared to 2022.

2. Remedy for Cash Deficit and Liquidity Analysis

None.

3. Cash Flow Analysis for the Coming Year (2024)

| Cash and Cash<br>Equivalents, | Cash Flow from | Estimated Cash<br>Outflow (Inflow)<br>from Investing and<br>Financing<br>Activities (3) | Cash Surplus<br>(Deficit) | Leverage of Cash Surplus (Deficit) |                 |  |
|-------------------------------|----------------|---|---------------------------|------------------------------------|-----------------|--|
| Beginning of Year<br>(1)      |                |   | (1)+(2)-(3)               | Investment Plans                   | Financing Plans |  |
| 8,951,209                     | (1,200,000)    | (2,146,891)   | 5,604,318                 | None                               | None            |  |

Analysis of change in cash flow for the coming year:

1. Operating Activities: The cash outflow will be generating from construction expenses.

Investing Activities: The cash outflow will be mainly due to financing or investment plans and acquisition of assets needed for expanding operations.

3. Financing Activities: The cash outflow will be mainly due to cash dividend payment and repayment of bank loans.

#### iv. Major Capital Expenditure Items

None.

# v. Investment Policy in Last Year, Main Causes for Profits or Losses, Improvement Plans and the Investment Plans for the Coming Year

1. Investment Policy

Acter aims to become a globalized organization, first by securing a strong foothold in Asian markets, and then gradually replicating its successful experience to other parts of the world. This strategy begins with the Greater China region, where the company has subsidiaries in Suzhou, Shenzhen and Shanghai. Each subsidiary will be run by a dedicated team in order to closely serve local industry. Southeast Asia is another one of the company's overseas business focuses, with plans to set up in Malaysia, Indonesia, and Thailand. By which time, Taiwan, China, Singapore and Vietnam will play a role as a support center that supplies Malaysian and Indonesian counterparts with raw materials, technical know-how, and human resources. Once the Southeast Asian subsidiaries have formed a functional network, they will provide more flexibility to the company's engineering services in Southeast Asia.

In addition, the company's subsidiary Acter Technology Integration Group Co., Ltd. officially listed on the Shanghai Stock Exchange on Oct. 13, 2022, which is expected to expand China and international business, attract and motivate local talents, increase the company's reputations and enhance its global competitiveness, bring positive effects to the image and business development of the company and create added value to its reinvestments.

- 2. Main Causes for Profits or Losses and Improvement Plans
  - (1)As projects gradually approach completion, and in comparison to the high base period from the previous year, revenue momentum has slowed. Nevertheless, the company remains committed to cost reduction and efficiency improvements to sustain profit growth.
  - (2)Improvement Plans

The company will seek to implement its management model with the subsidiaries, while in the meantime developing an elite team of local talent that is capable of handling existing technologies and actively visit customers to obtain orders.

3. Investment Plans for the Coming Year

The company actively develops business in Southeast Asia and will follow the path over the next year. Through the globalization strategy to expand the company's operation scale and gradually integrate operation in China area. The company's subsidiary Acter Technology Integration Group Co., Ltd. will have the core service of clean room engineering and electromechanical system integration service and Winmax Technology will have the core service of chemical system of electronic engineering respectively in China, hoping to create optimum returns for the investors.

In Taiwan, in response to the development needs and strategic investments of the group, the company aims to achieve synergies by integrating resources and collectively expanding business through investing in Phoenix Silicon International Corporation.

In the future, the company will continue to seek suitable investment targets for horizontal and vertical integration, expanding the group's one-stop service range and expanding its footprint to become an international EPCM service provider and create mutual benefits.

#### vi. Analysis of Risk Management

- 1. Effects of Changes in Interest Rates, Foreign Exchange Rates and Inflation on Corporate and its affiliates Finance, and Future Response Measures
  - (1)Interest Rates

A. Effects of Changes in Interest Rates on Corporate and its affiliates Finance The interest income or interest expenses to net operating revenues in 2023 were below 0.52%. The effect of interest rate movements on net income was limited.

|   |            | enne i i i i i u dubund |
|---|------------|-------------------------|
| Item  | 2023       | As of February 29, 2024 |
| Interest Income(1)  | 129,306    |                         |
| Interest Expenses(2)  | 34,170     |                         |
| Net Operating Revenue(3)                                    | 25,060,741 | Note1                   |
| Ratio of Interest Income to Net Operating Revenue (1)/(3)   | 0.52%      |                         |
| Ratio of Interest Expenses to Net Operating Revenue (2)/(3) | 0.14%      |                         |
|   |            |                         |

Unit: NT\$ thousand

Note1: Financial information in 2023 has been audited by CPA and financial information as of February 29, 2024 has not been reviewed by CPA.

B. Future Response Measures

The company's interest expenses were incurred mainly due to the utilization of short-term working capital financing offered by banks. The company will continue maintaining close relationships with banking partners in order to borrow funds at more favorable rates and reduce interest expenses.

## (2)Foreign exchange rates

A. Effects of Changes in Foreign Exchange Rates on Corporate and its affiliates Finance

The company and its affiliates are construction services providers and not importer/exporter. Although some of its raw materials are purchased from overseas suppliers and are denominated in foreign currencies, the NTD (18,372) thousand in exchange gains (losses) in 2023 was relatively insignificant compared to overall revenue and operating profits. For this reason, changes in exchange rates should not cause any significant impact on the company and its affiliates' revenues and profitability.

Unit: NT\$ thousand

| Year   | 2023       | As of February 29, 2024 |
|--|------------|-------------------------|
| Income/Loss from Foreign Exchange Transactions   | (18,372)   |                         |
| Net Operating Revenue  | 25,060,741 |                         |
| Ratio of Income/Loss from Foreign Exchange Transactions to<br>Net Operating Revenue(%) | (0.07%)    | Note1                   |
| Operating Income   | 3,263,821  |                         |
| Ratio of Income/Loss from Foreign Exchange Transactions to Operating Income (%)        | (0.56%)    |                         |

Note1: Financial information in 2022 has been audited by CPA and financial information as of February 29, 2024 has not been reviewed by CPA.

**B.** Future Response Measures

Although exchange rate fluctuations have little effect on the company and its affiliates' operations, the company still attempts to mitigate exchange risks by closely monitoring exchange rate information provided by its banking partners, and by reflecting exchange rate fluctuations into the pricing of its sales and purchases.

#### (3)Inflation

A. Effects of Changes in Inflation on Corporate and its affiliates Finance

The changes in inflation does not have a significant impact on the company's profits and business operations during the most recent fiscal year and during the current fiscal year up to the date of printing of this annual report.

B. Future Response Measures

The company constantly monitors price changes in the market, and maintains good relations with suppliers to minimize the effect of cost variations on profitability. At the same time, the company has strict budget and internal controls in place to keep operating costs and expenses within reasonable levels.

- 2. Policies, Main Causes of Gain or Loss and Future Response Measures with Respect to High-risk, High-leveraged Investments, Lending or Endorsement Guarantees, and Derivatives Transactions
  - (1)The Company did not engage in any high-risk or high-leveraged investments during the most recent fiscal year and during the current fiscal year up to the date of printing of the annual report.
  - (2)The company and its subsidiaries have established respectively the "Procedure for Loaning of Company Funds" or "Financing and external guarantee management system" which were reported to and approved by the shareholders meeting as the basis for making loans to others. The transactions and procedures related to lending are based on the company's norm.

- (3)The company and its subsidiaries have established respectively the "Procedure for Endorsements and Guarantees" or "Financing and external guarantee management system" which were reported to and approved by the shareholders meeting as the basis for making endorsements and guarantees for others. The transactions and procedures related to making endorsement and guarantees are based on the company's norm.
- (4)The Company and its subsidiaries have established the "Procedure for Acquisition and Disposal of Assets." or "Major operation and investment decision management system" which were reported to and approved by the shareholders meeting as the basis for conducting any derivative transactions. The transaction and procedures related to conducting any derivative transactions are based on the Company's norm.
- 3. Future Research & Development Projects and Corresponding Budget

The R&D focus of system integration engineering is different from that of other industries in that system integration engineering is a customized solution developed based on a project owner's needs, for which the company is required to explore different combinations of construction techniques, materials and equipment to deliver the best solution, while developing an operating system and environment that satisfies customers' production requirements. Due to the high dependency on customers' industry characteristics, the company's R&D efforts are largely focused on industry-specific innovations. In order to excel in innovation, the company and its affiliates have developed a fundamental research, design and management procedure that brings different teams of researchers to develop a tightly integrated customer solution. Below is a description of the company's future R&D plans:

- (1)Patent development: the company keeps acquiring patents in China; most of them relating to construction methods, applications and new materials, and software programming of a chemical equipment supply system.
- (2)Talent incubation and academia-industry cooperation: the company has comprehensive on-the-job training programs in place to help employees develop skills required, and works with scholars to explore new innovations. The company has been collaborating with Taipei Tech, Taiwan Tech, NCUT, NYUST, NKUST, FEU, and HKU in an internship program since 2006, and allying with Taipei Tech and NCUT.
- (3)Energy-saving technologies: in light of rising global emphasis on energy-saving, green and low-carbon lifestyles, the company has devoted many resources into research on energy-saving construction techniques and products that help customers reduce costs by making more efficient use of available resources, and improving business competitiveness.
- (4)Biotech research: The innovation, research, and development efforts in the implementation of biotech pharmaceutical projects were mainly reflected in the system impact assessment (SIA). Modern biotech pharmaceutical companies must comply with the PIC/S GMP requirements and GEP (Good Engineering Practice) is the cornerstone of PIC/S GMP while SIA is at the core of GEP.

The standard SIA operating procedure researched and developed by the Quality Control Department applies to projects during the design stage. Quality control engineers and system engineers apply the standard SIA operating procedure while performing internationally approved assessments of all systems involved in biotech pharmaceutical projects comprehensively. By successfully implementing the standard SIA operating procedure, it helps set a clear goal while biotech pharmaceutical projects are being qualified, which not only saves the manpower and time needed for a project but also perfects the qualification logic for biotech pharmaceutical projects.

- (5)Studies on rationalized production procedures: in-depth studies on project owners' production procedures are helpful to facilitate communications with them. Doing so allows the company to make adjustments and help project owners optimize the efficiency of their production environment. Due to the extensive range of industries that the company's services touch on, it is imperative for the company to gain in-depth knowledge of production procedures involved before recommending any solutions to customers.
- (6)In utilization of the technical capability of established Building Information Modeling (BIM) - Revit of Company, take one step further into the Digital Twin application technology for air conditioning system which applies the digital computing and simulation technology in design and construction process so that the design efficiency, optimization design, construction efficiency and efficiency optimization of system energy is improved; the system balance and performance validation is assisted during the completion acceptance process so that the acceptance efficiency is improved; in the operation phase, the BIM, energy model, environmental control model, and monitoring system of physical and digital systems is integrated to perform the system operation management, system predictive maintenance diagnosis, faults diagnosis, operation optimization analysis, and artificial intelligence mechanical learning so that the risk of unanticipated faults is reduced, the operating costs is decreased, and the system energy efficiency is improved.
- (7)To solve the time-consuming and complicated modeling and calculation issues of air conditioning design engineers in the design stage, the Building Information Modeling (BIM) of Revit and energy simulation technology is integrated and utilized by external computer programs so that the system design calculation report will be produced automatically through the automation database connection mechanism between the system design data, which not only can assist the air conditioning design engineers to complete air conditioning design volume calculations efficiently but also perform the value engineering analysis such as energy efficiency and cost optimization calculations.
- (8) The adoption of illuminance simulation software-aided lighting design ensures that the number of installed lighting fixtures matches actual needs, while achieving the goal of minimal deviations and reduced energy consumption.
- (9)Import the 3D drawing and cooperate with the 3D online platform to improve the quality and efficiency of the project, reduce the correction and adjustment time required for the follow-up pipeline overlay conflicts, and import the ISOGEN software to save time costs, establish the pipeline ISO diagram, so that the pipeline can be factory preset to reduce waste and reduce carbon emissions.
- (10) Develop Dynamo program writing automation modeling to reduce repetitive modeling tasks. Decrease personnel's time spent on checking drawings repeatedly, and improve model output efficiency and drawing accuracy

4. Effects of and Response to Changes in Policies and Regulations Relating to Corporate Finance and Sales

The company constantly monitors changes in key policies and regulations around the world. The company also gathers market intelligence and adjusts business strategies to better control its financial performance. There have been no changes in key policies or regulations, locally or overseas, that have caused significant impact on the company's financial performance during the most recent fiscal year and during the current fiscal year up to the date of printing of this annual report.

5. Effects of and Response to Changes in Technology (including cyber security risks) and in Industry Relating to Corporate Finance and Sales

In light of the relocation of many tech industries to Southeast Asia and China, the company has established subsidiaries in strategic locations such as Singapore, Malaysia, Vietnam, Indonesia, Thailand, Shenzhen, Suzhou, and Shanghai. This expanded network has enabled the company to cover a broader area and reach more customers.

With the development of technology, the information security risks faced by enterprises are increasing day by day. The company also pays attention to this issue. To strengthen information security management, protect security of computer information data, systems, equipment and networks of the company, prevent the improper use, leakage, alteration and destruction of information assets due to human negligence and deliberate sabotage, which may affect the normal operation of the computer operating system or damage the operations of the company, the company formulates an "Information Security Policy" for all colleagues to follow, and at the same time promotes it from time to time to enhance employees' awareness of information security

There have been no changes in technology (including information security risks) or the overall industry that have caused significant impact on the company's financial performance during the most recent fiscal year and during the current fiscal year up to the date of printing of this annual report.

6. The Impact of Changes in Corporate Image on Corporate Risk Management, and the Company's Response Measures

The company and its affiliates have strived to upgrade its technical know-how in line with market trends since incorporation. It places a primary focus on quality, technology and service, and is dedicated to helping customers adopt the latest technologies. Over the years, the company has provided engineering services to a number of well-known companies including Siliconware Precision Industries, TSMC, DELTA, and Corning (Taiwan). There has been no negative impact on the company's image requiring crisis management during the most recent fiscal year and during the current fiscal year up to the date of printing of this annual report.

7. Expected Benefits from, Risks Relating to and Response to Merger and Acquisition Plans

The Company and its affiliates have no ongoing merger and acquisition activities.

- 8. Expected Benefits from, Risks Relating to and Response to Factory Expansion Plans The company currently does not have any plans to expand its plants.
- 9. Risks Relating to and Response to Excessive Concentration of Purchasing Sources and Excessive Customer Concentration

The company provides construction services on a project-by-project basis. It mainly serves manufacturing companies and has no fixed customers. However, for large projects,

there may be cases where revenue is earned from a few concentrated customers over a short period of time. As a means of controlling credit risks, the company performs credit assessments on customers before a project begins, and closely monitors customers' operations and market information once a project has kicked off.

The company conducts purchasing according to the nature and progress of construction, while adhering strictly to procurement and outsourcing procedures. There has been no concentration of purchasing during the most recent fiscal year and during the current fiscal year up to the date of printing of this annual report.

10. Effects of, Risks Relating to and Response to Large Share Transfers or Changes in Shareholdings by Directors or Shareholders with Shareholdings of over 10%

The shareholdings of the Company's directors have been stable during the most recent fiscal year and during the current fiscal year up to the date of printing of this annual report, and there have been no major transfers or swaps of shares.

- 11. Effects of, Risks Relating to and Response to Changes in Control over the Company There were no changes in control over the company during the most recent fiscal year and during the current fiscal year up to the date of printing of this annual report.
- 12. Litigious or Non-litigious Matters
  - (1)Major litigious, non-litigious or administrative disputes that have been concluded by means of a final and unappealable judgment during the most recent fiscal year and during the current fiscal year up to the date of printing of this annual report: None.
  - (2)Major litigious, non-litigious or administrative disputes that are still under litigation as of the date of printing of this annual report:
    - A. The non-contentious case of project payment with Wintek Corporation (Wintek) and its subsidiaries in China and Vietnam:

Cause of lawsuit: The Company and its subsidiary undertook the new manufacturing facility projects of Wintek in Dongguan, China and Gwangju, Vietnam between 2012 and 2013. Wintek started to be delinquent on payments in 2013 and filed for reorganization with Taiwan Taichung District Court on October 13, 2014. To protect the Company's rights as creditor, proceedings have been ongoing in respective jurisdictions for the debts in accordance with local legal requirements.

Status of lawsuit:

- a. Wintek Taiwan: Taiwan Taichung District Court has confirmed the reorganization ruling of Wintek on October 5, 2016. Currently it has entered the reorganization procedure. As of the printing date of the annual report, Wintek has made three installments and loss ratio for the firm with unwarranted claim is 16%, 6%, and 10%, respectively. The Company has acquired the first to third compensation payments.
- b. Wintek subsidiary in Vietnam: It has obtained an arbitrary award of winning a court case through Vietnam international arbitrary center. The parties shall reach a settlement pursuant to the payment on the arbitrary award and come to an agreement on reduction of debt with three installment payments. The Company has acquired all installment payments.
- c. Wintek subsidiary in China: After Guangdong Dongguan People' Court conducted corporate reorganization ruling, the first loss ratio for the firm with unwarranted claim is 6.5%, and every firm will be paid with an extra of CNY

50,000 as compensation money. The Company has acquired the first compensation money in 2017 and the second allocation in 2021. The amount of the second allocation is the unpaid balance after the first payment multiplied by the second loss ratio the firm with unwarranted claim of 6.26%.

B. Project payment lawsuit against Jing He Science Co., Ltd. (JHS) N2O & CO2 Gas Plant:

Cause of lawsuit: Nova Technology Corp. (Nova Tech), a subsidiary company, undertook the expansion of Jing He's JHS N2O&CO2 Gas Plant on October 29, 2012. Jing He terminated the contract unilaterally before completion. Both parties disputed over the percentage of completion, and Jing He refused to make payments. The said dispute required the judicial investigations, so Nova Tech filed an action to request for NT\$122,090,708, payments of the construction. Status of lawsuit: Nova Tech filed a civil action against Jing He on October 29, 2013. In the first trial on December 29, 2023, the Taoyuan District Court ruled that Jing He should pay NT\$22.876 million to Nova Tech. (Case No: Taiwan Taoyuan District Court 2013 Jien-Zi No.71) Nova Tech has recognized a loss of NT\$12 million in the fiscal year 2023.

13. Other Major Risks

None.

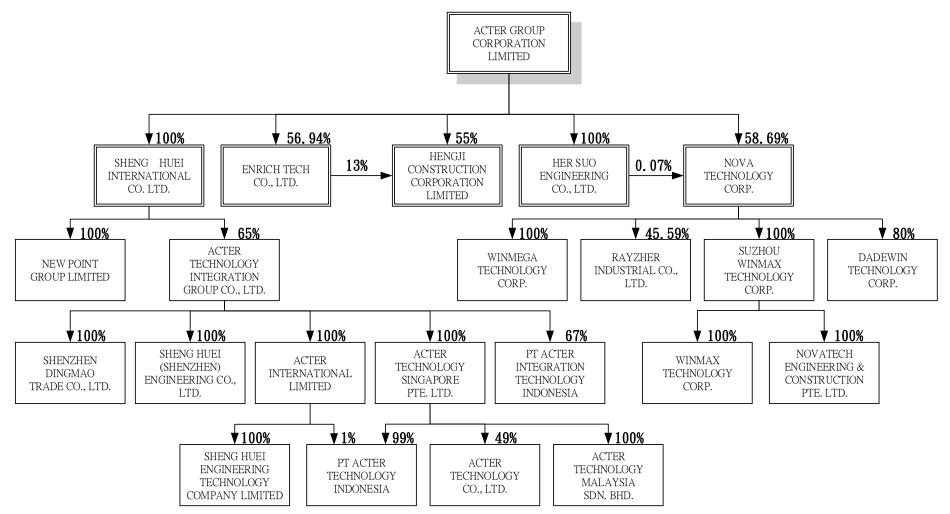

#### vii. Other Important Matter

None.

#### **Representation Letter**

The entities that are required to be included in the combined financial statements of Acter Group Corporation Limited as of and for the year ended December 31, 2023 under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with International Financial Reporting Standards No. 10, "Consolidated Financial Statements." endorsed by the Financial Supervisory Commission of the Republic of China. In addition, the information required to be disclosed in the combined financial statements are included in the consolidated financial statements. Consequently, Acter Group Corporation Limited and Subsidiaries do not prepare a separate set of combined financial statements.

Company name: Acter Group Corporation Limited

Chairman: Liang, Chin-Li

Date: February 26, 2024

#### **Independent Auditors' Report**

To the Board of Directors of Acter Group Corporation Limited:

#### Opinion

We have audited the consolidated financial statements of Acter Group Corporation Limited("the Company") and its subsidiaries ("the Group"), which comprise the consolidated balance sheet as of December 31, 2023 and 2022, the consolidated statement of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IFRSs"), Interpretations developed by the International Financial Reporting Interpretations Committee ("IFRIC") or the former Standing Interpretations Committee ("SIC") endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

#### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2023. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

#### **Construction revenue recognition**

Please refer to Note 4(p) "Revenue", Note 5 "Significant accounting assumptions and judgments, and major sources of estimation uncertainty: Construction revenue recognition", and Notes 6(v) "Revenue from contracts with customers" to the consolidated financial statements.

#### Description of key audit matter

The Group assesses its construction revenue by measuring the proportion that the contract costs incurred for work performed to date bear to the estimated total contract costs; the estimated total contract cost involves judgment and estimation uncertainty of the Group's management. Consequently, construction revenue recognition is one of the key matters for our audit.

How the matter was addressed in our audit

Our principal audit procedures included: testing the Group's internal control of sales and receipt cycle to assess whether there is any defects and irregularities of internal control systems; reviewing major contracts to understand the specific terms and risks of contracts; comparing the actual construction costs incurred with the estimated construction costs to evaluate rationality of the estimation method; assessing whether the Group's accounting policy on construction revenue recognition is in accordance with the related accounting standards.

#### **Other Matter**

The Company has prepared its parent-company-only financial statements as of and for the years ended December 31, 2023 and 2022, on which we have issued an unmodified opinion.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRC, SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Group's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2023 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Chen, Cheng-Hsueh and Lu, Chien-Hui.

KPMG

Taipei, Taiwan (Republic of China) February 26, 2024

#### Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated statement of financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' audit report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' audit report and consolidated financial statements, the Chinese version shall prevail.

#### (English Translation of Consolidated Financial Statements Originally Issued in Chinese) ACTER GROUP CORPORATION LIMITED AND SUBSIDIARIES

#### Notes to the Consolidated Financial Statements

#### For the years ended December 31, 2023 and 2022

#### (Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

#### (1) Company history

Acter Group Corporation Limited (the "Company") was incorporated on February 19, 1979, under the approval of the Ministry of Economic Affairs, R.O.C. The Company's registered office address is located at 19F-1, No.201, Sec.2, Wenxin Road, Xitun District., Taichung City, Taiwan (R.O.C.). The consolidated financial statements of the Company as of and for the year ended December 31, 2023 comprise the Company and its subsidiaries (together referred to as the "Group"). The Company is engaged in providing construction, design, and maintenance services related to air conditioners, environmental control services, clean room set-up, ice water machine trading, energy storing equipment trading, ventilation engineering, and energy technology services. The principal operating activities of the Group's entities are described in Notes 4 (c). Acter's common shares were publicly listed on the Taipei Exchange ("TPEx") on November 10, 2010.

#### (2) Approval date and procedures of the consolidated financial statements:

These consolidated financial statements were authorized for issue by the Board of Directors on February 26, 2024.

#### (3) New standards, amendments and interpretations adopted:

(a) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2023:

- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"
- Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

The Group has initially adopted the following new amendment, which do not have a significant impact on its consolidated financial statements, from May 23, 2023:

- Amendments to IAS 12 "International Tax Reform—Pillar Two Model Rules"
- (b) The impact of IFRS issued by the FSC but not yet effective

The Group assessed that the adoption of the following new amendments, effective for annual period beginning on January 1, 2024, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"

- Amendments to IAS 7 and IFRS 7 "Supplier Finance Arrangements"
- Amendments to IFRS 16 "Lease Liability in a Sale and Leaseback"
- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The Group does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 "Insurance Contracts" and amendments to IFRS 17
- Amendments to IAS 21 "Lack of Exchangeability"

#### (4) Summary of material accounting policies:

The material accounting policies presented in the consolidated financial statements are summarized as follows. Except for Note 3 indicated, the following accounting policies were applied consistently to all periods presented in the consolidated financial statements.

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as "the Regulations"), and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C..

- (b) Basis of preparation
  - (i) Basis of measurement

Except for the following significant items, these consolidated financial statements have been prepared on a historical cost basis:

- 1) Financial assets measured at fair value through profit or loss;
- 2) Financial assets measured at fair value through other comprehensive income; and
- 3) Net defined benefit liabilities is recognized as the fair value of the plan assets less the present value of the defined benefit obligation.
- (ii) Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan Dollar, which is the Company's functional currency. All financial information presented in New Taiwan Dollar has been rounded to the nearest thousand.

#### (c) Basis of consolidation

(i) Principle of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and subsidiaries. Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date that control ceases. All intragroup transactions, balances, income and expenses are eliminated in full on consolidation. Total comprehensive income of subsidiaries is attributed to the shareholders of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

Subsidiaries' financial statements are adjusted to align the accounting policies with those of the Company.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

Note 1: Nova Tech established the subsidiary Dadewin Technology Corp. in April 2023, with 80% of the shares held by Nova Tech.

Note 2: The Company established the subsidiary Hengji Construction Co., Ltd in May 2023, which is held 55% by The Company and 13% by Enrich Tech.

- Note 3: Rayzher completed its first cash capital increase and issued 7,400 thousand of new shares in July 2023. The Group did not purchase new shares in accordance with the shareholding ratio, and the ratio was reduced from 51.31% to 49.53%; in addition, In response to the Group's operating strategy, the Group disposed of part of Rayzher's equity in August 2023, reducing the shareholding ratio from 49.53% to 47.24%; Rayzher completed its second cash capital increase and issued 1,100 thousand of new shares in October 2023, the Group did not purchase new shares in accordance with the shareholding ratio, and the ratio was reduced from 47.24% to 45.59%.
- Note 4: Acter Integration established the subsidiary PT Acter Integration Technology Indonesia and completed procedures of cash capital increase in August and November 2023, with 67% of the shares held by Acter Integration.
- Note 5: The Group has taken control of Jiangsu Dianze since July 2023, and incorporated the financial statement of Jiangsu Dianze into the consolidated statements of the Group on that date. Acter Integration has carried out a simple combination with its subsidiary Jiangsu Dianze through the resolution of the shareholders' meeting on August 29, 2023. Jiangsu Dianze has eliminated and September 11,2023 will be the base date of the merger.
- Note 6: In response to the adjustments in the Group's organizational restructuring, the Group transferred its shares in Winmax to Suzhou Winmax by way of shareholding conversion, based on a resolution approved during the Board of Directors of Nova Tech held on August 29, 2023. All related registration procedures had been completed in October 2023.
- Note 7: In response to the adjustments in the Group's organizational restructuring, the Group disposed its entire shares in its subsidiary, NTEC, to Suzhou Winmax, based on a resolution approved during the Board of Directors of Nova Tech held on August 29, 2023. All related registration procedures had been completed in November 2023.
- Note 8: Although the Group did not own more than half of the Rayzher ownership interests, it was considered to have de facto control over the main operating policies of Rayzher. As a result, Rayzher were accounted for as subsidiaries of company.
- (iii) Subsidiaries excluded from the consolidated financial statement: None.
- (d) Foreign currency
  - (i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date.

Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of translation.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

- 1) an investment in equity securities designated as at fair value through other comprehensive income;
- 2) a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- 3) qualifying cash flow hedges to the extent that the hedges are effective.
- (ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate for the period. The resulting exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the accumulated exchange differences related to that foreign operation is reclassified to profit or loss. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interest. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planed nor likely to occur in the foreseeable future. Exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation and are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

An operating cycle (usually one year to two year) is a criterion to make judgment on whether assets or liabilities related to construction contracts are classified as current or non-current. The rest assets and liabilities are classified according to the following criteria:

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

- (i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.
- (f) Cash and cash equivalents

Cash comprises cash on hand demand deposits and checking deposits. Cash equivalents are short-term and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short-term cash commitment rather than for investment or other purpose, should be recognized as cash equivalents.

(g) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date or settlement date basis for which financial assets were classified in the same way respectively.

On initial recognition, a financial asset is classified as measured at: amortized cost; Fair value through other comprehensive income (FVOCI) – equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL :

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Financial assets measured at fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL :

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Some trade receivables are held within a business model whose objective is achieved by both collecting contractual cash flows and selling by the Group; therefore, those receivables are measured at FVOCI. However, they are included in the ' trade receivables' line item.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income derived is recognized on the date that the Group's right to receive payment is established (usually the ex-dividend date).

3) Financial assets measured at fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above (e.g., financial assets which is held for trading and manages and assess performance based fair value) are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

4) Impairment of financial assets

The Group recognizes its loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, notes and trade receivables, other receivable, refundable deposit and other financial assets) and contract assets.

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL :

- debt securities that are determined to have low credit risk at the reporting date ; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment, as well as forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 360 days past due.

The Group considers the credit risk of a financial asset to be in default when the financial asset is aged over 540 days or the debtor is unlikely to pay its credit obligations to the Group in full.

The Group considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of investment grade which is considered to be BBB- or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings'.

ECL are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECL are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost is credit-impaired. A financial asset is "credit-impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data :

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 540 days past due ;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider ;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For corporate customers, the Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

5) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets.

- (ii) Financial liabilities and equity instruments
  - 1) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and a equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less, the direct cost of issuing.

3) Compound financial instruments

The compound financial instruments issued by the Group are convertible corporate bonds (denominated in NTD) that the holder has the option to convert into equity capital. The number of issued shares will not vary with changes in fair value.

The amount originally recognized for the liability component of a compound financial instrument is measured at the fair value of a similar liability excluding equity conversion rights. The originally recognized amount of the equity component is measured as the difference between the fair value of the overall compound financial instrument and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to the carrying amounts of the original liability and equity.

Subsequent to original recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not remeasured after initial recognition.

Interest related to financial liabilities is recognized in profit or loss. Financial liabilities are reclassified to equity upon conversion, and no gain or loss is incurred on their conversion.

4) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

5) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligation has been discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

6) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is calculated using the weighted average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(i) Investment in associates

Associates are those entities in which the Group has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition, less, any accumulated impairment losses.

The consolidated financial statements include the Group's shares of profit or loss and other comprehensive income of those associates, after adjustments to align the accounting policies with those of the Group, from the date on which significant influence commences until the date on which significant influence ceases. The Group recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual significant influence.

Gains and Losses resulting from the transactions between the Group and an associate are recognized only to the extent of unrelated Group's interests in the associate. When the Group's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of its associate.

(j) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services, or for administrative purposes. Investment property is measured at cost on initial recognition, and subsequently at cost, less accumulated depreciation and accumulated impairment losses. Depreciation expense is calculated based on the depreciation method, useful life, and residual value which are the same as those adopted for property, plant and equipment.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount) is recognized in profit or loss.

Rental income from investment property is recognized as other revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income, over the term of the lease.

- (k) Property, plant and equipment
  - (i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that future economic benefits associated with the expenditure will flow to the Group.

(iii) Depreciation

Depreciation is calculated on the cost of an asset, less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful life for the current and comparative years of significant items of property, plant and equipment are as follows:

- 1) Buildings: 5~50 years
- 2) Other facilities: 3~10 years
- 3) The significant portion of plant and building consists of its main building and miscellaneous parts, which are estimated over their useful life within 5~50 years.
- 4) The significant portion of other facilities consists of transportation vehicles and others, which are estimated over their useful life within 3~10 years.

Depreciation methods, useful life, and residual values are reviewed at each reporting date and adjusted if appropriate.

#### (l) Lease

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate; or
- there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- there is a change of its assessment on whether it will exercise a extension or termination option; or
- there is any lease modifications

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases of working office, staff dormitory and business equipment that have a lease term of 12 months or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(ii) As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Group applies IFRS15 to allocate the consideration in the contract.

The Group recognizes lease payments received under operating leases as income on a straightline basis over the lease term as part of 'other income'.

#### (m) Intangible assets

(i) Recognition and measurement

Goodwill arising on the acquisition of subsidiaries is measured at cost, less accumulated impairment losses.

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Other intangible assets, including dedicated certificate, patents and trademarks, that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognized in profit or loss as incurred.

(iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for current and comparative periods are as follows:

Dedicated certificate 4 years

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(n) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories, contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units (CGUs). Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(o) Provisions

A provision is recognized if, as a result of a past event, the Group has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

A provision for warranties is recognized when the underlying products or services are sold, based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

- (p) Revenue
  - (i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

1) Equipment contracts and construction contracts

The Group is engaged in providing construction, design, and maintenance services related to air conditioners, environmental control services, clean room set-up, ice water machine trading, energy storing equipment trading and energy technology service. Because its customer controls the asset as it is constructed, the Group recognizes revenue over time on the basis of the construction costs incurred to date as a proportion of the total estimated costs of the contract. The consideration promised in the contract includes those fixed amounts. The Group recognizes revenue only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. If the Group has recognized revenue, but not issued a bill, then the entitlement to consideration is recognized as a contract asset. The contract asset is transferred to receivables when the entitlement to payment becomes unconditional.

If the Group cannot reasonably measure its progress towards complete satisfaction of the performance obligation of a construction contract, the Group shall recognize revenue only to the extent of the costs expected to be recovered.

A provision for onerous contracts is recognized when the Group expects the unavoidable costs of performing its obligations under a construction contract that exceed its economic benefits expected to be received under the contract.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by the management.

For constructions, the Group offers a standard warranty to provide assurance that they comply with the agreed-upon specifications and has recognized the warranty provisions for this obligation; please refer to note 6(p).

2) Sales of goods

Revenue is recognized when the control over a product has been transferred to the customer. The transfer of control refers to the product has been delivered to and accepted by the customer without remaining performance obligations from the Company. Delivery occurs when the product has been shipped to the specified location and the risk of loss over the product has been transferred to the customer, as well as when the product has been accepted by the customer according to the terms of sales contract, or when the Company has objective evidence that all criteria for acceptance have been satisfied.

3) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

- (ii) Contract costs
  - 1) Incremental costs of obtaining a contract

The Group recognizes as an asset the incremental costs of obtaining a contract with a customer if the Group expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained shall be recognized as an expense when incurred, unless those costs are explicitly chargeable to the customer regardless of whether the contract is obtained.

The Group applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less.

2) Costs to fulfill a contract

If the costs incurred in fulfilling a contract with a customer are not within the scope of another Standard (for example, IAS 2 Inventories, IAS 16 Property, Plant and Equipment or IAS 38 Intangible Assets), the Group recognizes an asset from the costs incurred to fulfill a contract only if those costs meet all of the following criteria:

- a) the costs relate directly to a contract or to an anticipated contract that the Group can specifically identify;
- b) the costs generate or enhance resources of the Group that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- c) the costs are expected to be recovered.

For general and administrative costs, costs of wasted materials, labor or other resources to fulfill the contract that were not reflected in the price of the contract, costs that relate to satisfied performance obligations (or partially satisfied performance obligations), and costs for which the Group cannot distinguish whether the costs relate to unsatisfied performance obligations or to satisfied performance obligations(or partially satisfied performance obligations), the Group recognizes these costs as expenses when incurred.

- (q) Employee benefits
  - (i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

(ii) Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(r) Share-based payment transaction

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant-date fair value of the sharebased payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the share appreciation rights. Any changes in the liability are recognized in profit or loss.

Grant date of a share-based payment award is the date which the board of directors authorized the price and number of a new award.

#### (s) Income Taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction.
- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
  - 1) the same taxable entity; or
  - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

### (t) Earnings per share

The Group discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. The calculation of basic earnings per share is based on the profit attributable to ordinary shareholders of the Company, divided by the weighted-average number of ordinary shares outstanding.

Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company, divided by the weighted-average number of ordinary shares outstanding, after adjustment, for the effects of all potentially dilutive ordinary shares, such as employee bonuses and employee stocks bonuses or rewards that have yet to be approved during the stockholders' meeting.

(u) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Each operating segment consists of standalone financial information.

### (5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting assumptions and estimates. It recognized any changes in the accounting estimates during the period and the impact of the changes in the accounting estimates in the next period.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is as follows:

Construction revenue recognition

Contract revenue are recognized by reference to the stage of completion of each contract. The stage of completion of a contract is measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs. Estimated total contract costs of contracted items are assessed and determined by the management based on the nature of activities, expected sub-contracting charges, construction periods, processes, methods, etc., for each construction contract. Changes in these estimates might affect the calculation of the percentage of completion and related profits from construction contracts. Please refer to note 6(v) for further description of the revenue recognition.

When measuring the assets and liabilities, the Group uses observable inputs in the market at its best. The hierarchy of fair value is classified based on the input used by the valuation techniques as follows:

- Level 1: Public quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets or liability that are not based on observable market data (unobservable inputs).

Please refer to Note 6(y) for assumptions used in measuring fair value.

### (6) Explanation of significant accounts:

(a) Cash and cash equivalents

|  | D          | ecember 31,<br>2023 | December 31,<br>2022 |

|  | <u></u> | 1,416,444          | 508,217              |

(i) Debt investments at fair value through other comprehensive income

The Group has assessed that the following securities were held within a business model whose objective was achieved by both collecting the contractual cash flows and by selling securities. Therefore, they have been classified as debt investments at fair value through other comprehensive income.

(ii) Equity investments at fair value through other comprehensive income

The Group designated the investments shown above as equity securities as at fair value through other comprehensive income because these equity securities represent those investments that the Group intends to hold for long-term for strategic purposes.

Because of over-allotment agreement, certain equity instruments measured at FVOCI were sold in 2023, the related gain accumulated in other comprehensive income of \$253 thousand has been reclassified from other equity to retained earnings, accordingly.

- (iii) For credit risk and market risk; please refer to note 6(y).
- (iv) The financial assets were not pledged.

#### (d) Notes and trade receivables

|  | D         | ecember 31,<br>2023 | December 31,<br>2022 |
|--|-----------|---------------------|----------------------|
| Notes receivable-measured as amortized cost                        | \$        | 327,671             | 236,830              |
| Notes receivables-at fair value through other comprehensive income |           | -                   | 3,221                |
| Less: Loss allowance   |           | (459)               |                      |
|  | <u>\$</u> | 327,212             | 240,051              |
| Trade receivables-measured as amortized cost                       | \$        | 6,400,446           | 8,279,250            |
| Less: Loss allowance   |           | (131,649)           | (143,075)            |
|  | <u>\$</u> | 6,268,797           | 8,136,175            |

The Group has assessed a portion of its notes receivables that was held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; therefore, such notes receivables were measured at fair value through other comprehensive income.

The Group applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, notes and trade receivables have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information, including macroeconomic and relevant industry information. The loss allowance provisions were determined as follows:

|   | December 31, 2023 |  |  |                             |
|---|-------------------|--|--|-----------------------------|
| Aging days  |                   | Gross carrying<br>amount                                       | Weighted-<br>average loss rate                     | Loss allowance<br>provision |
| 1 to 120 days                                       | \$                | 5,702,646  | -  | -                           |
| 121 to 180 days                                     |                   | 581,904  | 0.5%   | 2,910                       |
| 181 to 360 days                                     |                   | 274,355  | 1%   | 2,744                       |

### (k) Investment Property

Investment property comprises office buildings that are leased to third parties under operating leases, as well as properties that are owned by the Group. The leases of investment properties contain an initial non-cancellable lease term of 1 year. For all investment property leases, the rental income is fixed under the contracts.

The movements in investment property for the Group were as follows:

|                                    |            | (                 | <b>Owned property</b>        |            | Right-of-use<br>assets |         |

- (i) The original recognition of investment property is measured at cost, and the subsequent measurement is also accounted for under cost model.
- (ii) The depreciation is calculated by its depreciable amount after the original recognition of investment property, and market value is used as the fair value to asset its impairment.
- (iii) The investment property is not pledged.

### (l) Intangible assets

| Cumulative redeemed amount  |            | (100)               | -                    |
| Cumulative converted amount   |            | (1,272,300)         | (247,500)            |
| Less: current portion   |            | -                   | (546,019)            |
| Corporate bonds issued balance at year-end  | \$         | 315,115             | 754,706              |
| Embedded derivative-call options, included in financial assets at fair value through profit or loss     | \$         | 164                 | 295                  |
| Embedded derivative-put options, included in financial liabilities at fair value through profit or loss | \$ <u></u> |                     | 1,840                |
| Remeasured gain and (loss) of embedded derivative-call  |            | 2023                | 2022                 |
| and put rights, included in financial assets and (liabilities) at fair value through profit or loss     | \$         | 1,709               | (1,545)              |
| Interest expense  | \$ <u></u> | 13,897              | 9,602                |

The Group issued 8,000 unsecured 3 years convertible bonds without any effective interest rate in Taiwan on November 27, 2020. The bonds have been fully redeemed or converted in September 2023.

The conversion price was set at \$196.4 at the time of issuance. When the common shares qualify for conversion price adjustment in accordance to the terms of issuance, such adjustment will be made based on a formula in accordance with the terms of issuance. There are no reset terms for this bond.

Due to the cash capital increase in 2021, the conversion price will be adjusted to \$195.1 per stock from January 4, 2021. In 2020, the distribution of cash dividends was announced, and the conversion price was adjusted to \$183.2 per share from July 11, 2021. In 2021, the distribution of cash dividends was announced, and the conversion price was adjusted to \$169.6 per share from July 8, 2022. In 2022, the par value of the stock was changed, and the conversion price was adjusted to \$84.8 per share from September 16, 2022.

In the first half of 2022, the distribution of cash dividends was announced, and the conversion price was adjusted to \$82 per share from February 13, 2023. In the second half of 2022, the distribution of cash dividends was announced, and the conversion price was adjusted to \$77.5 per share from July 12, 2023.

Beginning from three month after the issue date (February 28, 2021) until forty days before maturity (October 18, 2023), if the closing price of the company's common shares on the Taipei Exchange is higher than 30% of the conversion price for thirty consecutive trading days or when the outstanding convertible bonds are less than 10% of the initial issued bonds, the Group may redeem the remaining bonds at their face value by cash in five trading days after the redemption date.

Bondholders are entitled to exercise the put option two years after issuance (November 27, 2022) with an exercise price at 100% of the face value of the bonds. Upon receipt of a sell request, the Group shall pay the amount to the bondholders by cash within five trading days of the put date.

On December 12, 2022, Nova Tech issued 8,000 unsecured three-year convertible bonds in Taiwan, at 101% face value, totaling \$800,000 thousand, without interest rate. The total value raised and issued was \$808,000 thousand, with the effective interest rate of 1.7414% and a conversion price was set at \$89.5 at the time of issuance.

When the common shares qualify for conversion price adjustment in accordance with the terms of issue, such adjustment will be made based on a formula according to the terms of issue. There are no reset terms for this bond. After the dividends were distributed in 2022, the conversion price had been adjusted to \$82.2 per share effective July 5, 2023 and \$87.5 per share effective February 5, 2023, respectively. After the dividends were distributed in 2023, the conversion price had been adjusted to \$80.2 per share effective January 14, 2024.

From the day following the three months after the issuance date (March 13, 2023) until forty days before the maturity date (November 2, 2025), if the closing price of Nova Tech's ordinary shares at the securities counter trading center exceeded the converted corporate bond's conversion price by more than, or equals to 30% for 30 consecutive business days, or the outstanding balance of the convertible bonds is less than 10% of the total face value of the bonds, Nova Tech may redeem the outstanding bonds, by cash, within 5 trading days after the call date of the bonds, at the face value of the bonds.

Nova Tech should set the date (December 12, 2024) following 2 years of the issuance date of convertible bonds as recorded date for bondholders' early bond sellback. Bondholders are entitled to exercise the put option beginning from the put date (December 12, 2024), with an exercise price at 100% of the face value of the bonds. Upon receipt of a sell request, Nova Tech shall pay the amount to the bondholders, by cash, within five trading days of the put date.

(o) Lease liabilities

|             | Dec | ember 31,<br>2023 | December 31,<br>2022 |
|-------------|-----|-------------------|----------------------|
| Current     | \$  | 65,917            | 70,099               |
| Non-current | \$  | 77,300            | 118,052              |

For the maturity analysis, please refer to note 6(y).

The amounts recognized in profit or loss was as follows:

|  | 2023          | 2022   |
|--|---------------|--------|
| Interest on lease liabilities  | \$<br>4,098   | 3,529  |
| Expenses relating to short-term leases   | \$<br>107,636 | 76,847 |
| Expenses relating to leases of low-value assets, excluding short-term leases of low-value assets | \$<br>12,018  | 25,196 |

The amounts recognized in the statement of cash flows for the Group was as follows:

|                               | 2023          | 2022    |
|-------------------------------|---------------|---------|
| Total cash outflow for leases | \$<br>200,886 | 166,508 |

(i) Land and building leases

The Group leases land and buildings for its office space. The leases typically run for a period of 1 to 6 years.

(ii) Other leases

The Group leases transportation equipment with contract terms of 2 to 5 years. In certain cases, the Group has options to purchase the assets at the end of the contract term.

Offices, employee dormitory and office equipment leases with contract terms of 1 to 3 years are short-term or for low-value items. The Group has elected not to recognize right-of-use assets and lease liabilities for these leases.

### (p) Provisions

|                                       | 2023          | 2022     |
|---------------------------------------|---------------|----------|
| Balance on January 1                  | \$<br>271,706 | 259,896  |
| Provisions made during the period     | 301,580       | 145,926  |
| Provisions used during the period     | (99,721)      | (48,466) |
| Provisions reversed during the period | (91,824)      | (87,613) |
| Unwinding of discount                 | (27)          | -        |
| Effect of movements in exchange rates | <br>(3,962)   | 1,963    |
| Balance on December 31                | \$<br>377,752 | 271,706  |

The Group's warranty provision is estimated based on historical data of the construction contract. Most liabilities are expected to occur during the warranty period that is mentioned in the contract since completion of the construction.

### (q) Employee benefits

(i) Defined benefit plans

The reconciliation in the present value of defined benefit obligations and fair value of plan assets were as follows:

|   | Dec       | ember 31,<br>2023 | December 31,<br>2022 |
|---|-----------|-------------------|----------------------|
| Present value of defined benefit obligation | \$        | 78,263            | 91,535               |
| Fair value of plan assets                   |           | (26,318)          | (31,492)             |
| Net defined benefit liabilities             | <u>\$</u> | <u>51,945</u>     | 60,043               |

The Group makes defined benefit plan contributions to the pension fund account in the Bank of Taiwan. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits based on the years of service and the average monthly salary for six months prior to retirement.

1) Composition of plan assets

The Group set aside pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to these funds, its minimum earnings in the annual distributions on the final financial statements shall not be less than the earnings from two-year time deposits with the interest rates offered by local banks.

The Group's labor pension reserve account balance in the Bank of Taiwan amounted to \$26,318 thousand as of December 31, 2023. For information on the utilization of the labor pension fund assets including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

2) Movement in present value of the defined benefit obligations

The movements in present value of the defined benefit obligations for the Group were as follows:

|   |    | 2023    | 2022    |
|---|----|---------|---------|
| Balance, January 1  | \$ | 91,535  | 94,527  |
| Service cost and interest for the period  |    | 1,579   | 1,072   |
| Remeasurements of the net defined benefit liabilit (asset)                                  | У  |         |         |
| <ul> <li>Actuarial (gain) loss arising from changes in<br/>financial assumptions</li> </ul> |    | (2,453) | (7,170) |
| <ul> <li>Actuarial loss arising from changes in<br/>experience adjustments</li> </ul>       |    | (3,067) | 3,093   |
| Benefits paid   |    | (9,382) | -       |
| Effect of movement in exchange rates  |    | 51      | 13      |
| Balance, December 31  | \$ | 78,263  | 91,535  |

### 3) Movement in fair value of defined benefit plan assets

The movement in fair value of defined benefit plan assets for the Group were as follows:

|  |        | 2023    | 2022   |
|--|--------|---------|--------|
| Balance, January 1   | \$     | 31,492  | 27,322 |
| Interest revenue   |        | 580     | 198    |
| Remeasurements of the net defined benefit liab                             | oility |         |        |
| <ul> <li>Return on plan assets (excluding the interest revenue)</li> </ul> |        | 95      | 2,043  |
| Contributions made   |        | 2,243   | 1,929  |
| Benefits paid  |        | (8,092) | -      |
| Balance, December 31   | \$     | 26,318  | 31,492 |

4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Group were as follows:

|                              | 2023 |         | 2022  |  |
|------------------------------|------|---------|-------|--|
| Interest cost                | \$   | 1,579   | 1,072 |  |
| Actual return on plan assets |      | (580)   | (198) |  |
| Settlement gains             |      | (1,290) | -     |  |
|                              | \$   | (291)   | 874   |  |

(Continued)

5) Remeasurements of the net defined benefit liability (asset) recognized in other comprehensive income

The actuarial gains and losses are recognized in other comprehensive income for the Group were as follows:

|                            | 2023 |         | 2022    |  |
|----------------------------|------|---------|---------|--|
| The Company                | \$   | (3,391) | (5,207) |  |
| Non-controlling interests  |      | (2,236) | (910)   |  |
| Recognition for the period | \$   | (5,627) | (6,117) |  |

6) Actuarial assumptions

The significant actuarial assumptions used to determine the present value of the defined benefit obligation by the Group at the reporting date are as follows:

|                                 | December 31,<br>2023 | December 31,<br>2022 |
|---------------------------------|----------------------|----------------------|
| Discount rate                   | 1.625%~2.00%         | 1.75%~7.00%          |
| Increases in future salary rate | 3.00%~4.00%          | 3.00%~8.00%          |

The Group is expected to make a contribution payment of \$1,810 thousand to the defined benefit plans for the one-year period after the reporting date.

The weighted – average duration of the defined benefit plans is 12.81 to 15.22 years.

7) Sensitivity analysis

|                                   | Th    | e impact on o<br>obliga | defined benefit<br>ation |
|-----------------------------------|-------|-------------------------|--------------------------|
|                                   | Incre | Decrease 0.25%          |                          |
| December 31, 2023                 |       |                         |                          |
| Discount rate                     | \$    | (2,030)                 | 2,029                    |
| Future salary increase (decrease) |       | 2,108                   | (1,966)                  |
| December 31, 2022                 |       |                         |                          |
| Discount rate                     | \$    | (5,318)                 | 5,501                    |
| Future salary increase (decrease) |       | 5,344                   | (5,268)                  |

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions remain constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in the balance sheets.

There were no changes in the method and assumptions used in the preparation of sensitivity analysis for 2023 and 2022.

(ii) Defined contribution plans

The Company, Hengji, Nova Tech, Her Suo, Enrich Tech, Winmega, Rayzher and Dadewin Tech contribute an amount at the rates of 6% of their employee's monthly wages to the Labor Pension personal account with the Bureau of the Labor Insurance in accordance with the provisions of the Labor Pension Act. The Group's offshore subsidiaries contribute their pensions to their respective local social insurance agency in accordance with the provisions of their local acts. The Group's contributions to the Bureau of the Labor Insurance or other local social insurance agency for the Group's employee pension benefits require no further additional payment of legal or constructive obligations.

For the years ended December 31, 2023 and 2022, the Group set aside \$41,770 thousand and \$35,942 thousand, respectively, of the pension costs under the defined contribution plan.

- (r) Income taxes
  - (i) Income tax expense

The amount of income tax expense for the years ended December 31, 2023 and 2022 were as follows:

|  |    | 2023      | 2022    |
|--|----|-----------|---------|
| Current income tax expense:                                      |    |           |         |
| Current period   | \$ | 1,064,375 | 774,909 |
| Prior years income tax adjustment                                |    | (48,839)  | (1,820) |
|  |    | 1,015,536 | 773,089 |
| Deferred tax expense:  |    |           |         |
| Origination and reversal of temporary differences                |    | (105,559) | 146,916 |
| Changes in deductible temporary difference withou<br>recognition | ut | (3,069)   | 4,535   |
| Recognition of previously unrecognized loss carry forward        |    | 9,520     | (3,930) |
|  |    | (99,108)  | 147,521 |
| Income tax expense   | \$ | 916,428   | 920,610 |

The amount of tax income benefit (expense) recognized in other comprehensive income for the years ended December 31, 2023 and 2022 were as follows:

|  |    | 2023   | 2022     |
|--|----|--------|----------|
| Items that will be reclassified subsequently to profit o | r  |        |          |
| loss:  |    |        |          |
| Exchange differences on translation of foreign           |    |        |          |
| operations   | \$ | 18,982 | (23,063) |

Reconciliation of income tax benefit and income before tax were as follows:

|  | <br>2023        | 2022      |
|--|-----------------|-----------|
| Profit before tax  | \$<br>3,516,001 | 3,419,946 |
| Tax rate according to the Group's location               | \$<br>703,200   | 683,989   |
| Effect of difference in tax rate of foreign jurisdiction | 485,921         | 426,685   |
| Adjustment in tax rate                                   | -               | 470       |
| Changes in unrecognized temporary difference             | (3,069)         | 4,535     |
| Prior years income tax adjustment                        | (48,839)        | (1,820)   |
| Surtax on undistributed earnings                         | 31,966          | 15,822    |
| Effect on income tax due to adjust tax law               | (267,636)       | (205,141) |
| Unrecognized loss carry forward                          | <br>14,885      | (3,930)   |
| Income tax expense                                       | \$<br>916,428   | 920,610   |

#### (ii) Deferred tax asset and liability

1) Unrecognized deferred tax asset

|                                 | Dece | December 31,<br>2022 |       |
|---------------------------------|------|----------------------|-------|
| Deductible temporary difference | \$   | 4,498                | 7,567 |
| Loss carry forward              |      | 17,061               | 2,176 |
|                                 | \$   | 21,559               | 9,743 |

Except for the remaining profit, the tax losses, which are the previous accounting losses examined and approved by the tax authorities, are deductible from profit before tax for the current year, according to the respective local tax law of the Company and its subsidiaries. The deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Group can utilize the benefits therefrom.

As of December 31, 2023, the subsidiaries' estimated unused carry-forwards were as follows:

| <b>Company Name</b> | Year of Occurrence | Unused amount    | Expiry Year | Note            |
|---------------------|--------------------|------------------|-------------|-----------------|
| Acter Singapore     | 2017               | \$ 4,804         |             | Assessed amount |
| Acter Singapore     | 2018               | 1,377            | -           | Assessed amount |
| Acter Singapore     | 2020               | 28,898           | -           | Assessed amount |
| Acter Singapore     | 2022               | 2,867            | -           | Assessed amount |
| Acter Malaysia      | 2016               | 3,181            | -           | Assessed amount |
| Acter Malaysia      | 2017               | 644              | -           | Assessed amount |
| Acter Malaysia      | 2018               | 364              | -           | Assessed amount |
| Acter Malaysia      | 2020               | 163              | -           | Assessed amount |
| Acter Malaysia      | 2021               | 644              | -           | Assessed amount |
| Acter Malaysia      | 2022               | 1,209            | -           | Assessed amount |
| Acter Malaysia      | 2023               | 4,231            | -           | Assessed amount |
| ·                   |                    | \$ <u>48,382</u> |             |                 |

2) Recognized deferred tax asset and liabilities

### Deferred tax assets:

(iii) Assessment of tax

The income tax returns of Enrich Tech have been assessed by the tax authorities through year 2020.

The income tax returns of the Company, Her Suo, Winmega, Rayzher and Nova Tech, have been assessed by the tax authorities through year 2021.

(s) Capital and other equity

As of December 31, 2023 and 2022, the authorized common stock was \$720,000 thousand, while the issued common stock amounted to \$620,405 thousand and \$574,673 thousand, with a par value of \$5 per share, respectively.

(i) Issuance of common stock

The Company issued the first domestic unsecured convertible corporate bonds, and the application for conversion amounted for the year ended December 31, 2023 and 2022 were \$552,400 thousand and \$246,500 thousand, respectively, for which 6,802 thousand and 2,783 thousand common stock, respectively, were converted.

The company passed the resolution of the ordinary shareholders' meeting to amend the company's articles of association on May 26, 2022, changing the value of \$10 per share to \$5 per share, and proposed by the Board of Directors on August 5, 2022, to set the stock exchange base date as September 16, 2022, and the relevant statutory registration procedures have been completed.

(ii) Capital surplus

The components of the capital surplus were as follows:

|   | D  | ecember 31,<br>2023 | December 31,<br>2022 |
|---|----|---------------------|----------------------|
| From issuance of common stock   | \$ | 2,221,085           | 1,684,104            |
| Difference between the consideration and the carrying amount of subsidiaries acquired or disposed | g  | 6,034               | 6,034                |
| Changes in ownership interest in subsidiaries   |    | 1,480,813           | 1,342,101            |
| Equity component of convertible bonds recognized in stock option                                  |    | -                   | 23,272               |
| Other   |    | 16                  |                      |
|   | \$ | 3,707,948           | 3,055,511            |

1) Nova Tech, a subsidiary of the Group, issued the unsecured convertible corporate bonds in 2023. The Company recognized the change of \$104,074 thousand in ownership interest in subsidiaries, and the capital surplus has been adjusted.

- 2) Nova Tech, a subsidiary of the Group, disposed equity shares of Rayzher and NTEC Singapore in 2023 and recognized the change of \$6,101 thousand in ownership interest in subsidiaries, and the capital surplus has been adjusted.
- 3) Rayzher, a subsidiary of the Group, processed a capital increase, resulting in a change of \$28,537 thousand in ownership interest in subsidiaries, and the capital surplus has been adjusted.

According to the ROC Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring paid-in capital in excess of par value should not exceed 10% of the total common stock outstanding.

(iii) Retained earnings

According to the Company's articles of incorporation, 10% of the annual earnings, after offsetting any accumulated deficit and payment of income taxes due, if any, the legal reserve shall be set aside until the accumulated legal reserve equals the Company's paid-in capital. In addition, a special reserve in accordance with applicable laws and regulations shall also be set aside, and the remaining balance is partially reserved depending on the business environment, growth status, and long-term finance planning. After deducting the aforementioned partially reserve, the remaining balance, plus, any unappropriated earnings in previous years shall be used for distribution of stockholders' bonuses by the board of directors, depending on the capital status and economic development in the current year. Cash bonuses should not be less than 10% of the total stockholders' bonuses, and they will be recommended by the board of directors to be approved in the stockholders' meeting.

1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve that exceeds 25% of capital may be distribute.

2) Special reserve

In Accordance with Ruling No.1010012865 issued by the FSC on April 6, 2012, the difference between the total net reduction of other shareholders' equity and the carrying amount of special earnings reserve as stated above shall be reclassified as special earnings reserve during earnings distribution. Other prior accumulated debit balance of stockholders' equity was recognized as additional special reserve from prior undistributed earnings since distributions were prohibited. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions.

3) Earnings distribution

The amounts of cash dividends on the appropriations of earnings for 2022 second half and 2022 first half had been approved during the board meeting on February 24, 2023 and November 4, 2022, respectively. The relevant earnings distributions to shareholders were as follows:

|  | 20 | 22 second half | 2022 first half |
|--|----|----------------|-----------------|
| Dividends distributed to ordinary shareholders |    |                |                 |
| Cash   | \$ | 1.012.988      | 402.696         |

The amounts of cash dividends on the appropriations of earnings for 2023 second half and 2023 first half had been approved during the board meeting on February 26, 2024 and November 8, 2023, respectively. The relevant dividend distributions to shareholders were as follows:

|  | 2023 | 3 second half | 2023 first half |
|--|------|---------------|-----------------|
| Dividends distributed to ordinary shareholders |      |               |                 |
| Cash   | \$   | 744,486       | 558,364         |

#### (t) Share-based payment

### Cash capital increase reserved for employee subscription

Rayzher's Board of Directors approved to issue 7,400 thousand and 1,100 thousand shares on April 6 and August 7, 2023, to conduct a cash capital increase, of which, 1,100 thousand and 110 thousand shares, with the equivalent percentages of 14.86% and 10%, respectively, of the above issued shares shall be reserved as employee stock option for qualified employees to subscribed in accordance with article 267 of R.O.C Company. For the remaining unsubscribed shares or shares which have not been exercised, the Chairman will be authorized to contact a specific person to fully subscribe those shares at the issuance price.

In light of the matter, the entire shares for both periods, which have been reserved for employee stock option, have been subscribed at the par values of \$16.60 and \$1.7295 per share, with their fair values measured in accordance with the provisions of the IFRS 2 Share-based Payment Regulations. Moreover, \$5,552 thousand and \$12,905 thousand of the above compensation costs amounting to \$18,260 thousand and \$197 thousand had been recognized by the Company and its non-controlling interests, respectively.

The estimated fair values of the options granted were calculated at the date of grant using the Black-Scholes option pricing model. The assumptions adopted in this valuation model as follow:

|  | Retention of Cash Increase<br>for staff subscription |          |  |
|--|--|----------|--|
|  | 2023 1st   | 2023 2nd |  |

(ii) Contract balances

|   | December 31,<br>2023 |           | December 31,<br>2022 |  |
|---|----------------------|-----------|----------------------|--|
| Contract assets-Construction and equipment      | \$                   | 4,437,202 | 6,137,192            |  |
| Less: allowance for impairment                  |                      | (100,663) | (62,862)             |  |
|   | <u>\$</u>            | 4,336,539 | 6,074,330            |  |
| Contract liabilities-Construction and equipment | \$                   | 3,465,368 | 3,576,899            |  |

The amount of revenue recognized for the year ended December 31, 2023 and 2022 that was included in the contract liability balance at the beginning of the period were \$2,330,316 thousand and \$1,319,451 thousand, respectively.

The contract assets primarily relate to the Group had recognized contract revenue but yet to issue bill on reporting date. The contract assets are transferred to receivables when the rights to consideration become unconditional.

The contract liabilities primarily relate to the advance consideration received from customers for construction contract for which revenue is recognized progressively during the construction period.

The major change in the balance of contract assets and contract liabilities is the difference between the time frame in the performance obligation to be satisfied and the payment to be received. There were no major changes in 2023 and 2022.

(iii) Transaction price allocated to the remaining performance obligations

As of December 31, 2023 and 2022, the aggregated amount of the transaction price from construction contracts allocated to the remaining performance obligation from construction contract were \$24,437,630 thousand and \$23,592,205 thousand, respectively. The Group will recognize revenue gradually over time as the consideration is completed, which is expected to occur over the next 1 to 3 years.

If the contract of construction has an original expected duration of less than one year, the Group shall apply the practical expedient of IFRS 15 and shall not disclose the information about the transaction price allocated to the remaining performance obligations of the contract.

All consideration from contracts with customers are included in the transaction price disclosed above.

(w) Remuneration to employees and directors

The Company's Articles of Incorporation require that earnings shall first be offset against any deficit, then, a minimum of 3% shall be distributed as employee remuneration, and a maximum of 5% as remuneration to directors and supervisors.

For the years ended December 31, 2023 and 2022, the Company estimated its employee remuneration amounting to \$141,101 thousand and \$150,092 thousand, and its directors' and supervisors' remuneration amounting to \$70,550 thousand and \$75,046 thousand, respectively. The estimated amounts mentioned above are calculated based on the net profit before tax, excluding the remuneration to employees, directors and supervisors of each period, multiplied by the percentage of remunerations were recognized under operating costs or operating expenses during 2023 and 2022. The amounts, as stated in the consolidated financial statements, are identical to those of the actual distributions for 2023 and 2022.

## (y) Financial Instruments

### (i) Credit risk

1) Exposure to credit risk

The carrying amount of financial assets represents the Group's maximum credit exposure.

2) Concentration of credit risk

As of December 31, 2023 and 2022, concentration of credit risk deriving from the Group's top customer did not constitute more than 12% and 22%, respectively, of the Group's receivables while those deriving from the Group's other top four customers did not constitute more than 20% and 19%, respectively, of the Group's receivables.

3) Receivables

For credit risk exposure of note and trade receivables, please refer to note 6(d).

Other financial assets measured at amortized cost include other financial assets and other receivables.

All of these financial assets are considered to have low risk, and thus, the impairment provision recognized during the period was limited to 12 months expected losses. Regarding how the financial instruments are considered to have low credit risk, please refer to note 4(g).

The loss allowance provisions were determined as follows:

|                             | inancial assets<br>ee deposits paid) |
|-----------------------------|--------------------------------------|
| Balance on January 1,2023   | \$<br>22,065                         |

| USD                   |                   | 989                | 30.880           | 30,540  | 7,972               | 30.708           | 244,804   |  |
| Financial liabilities |                   |                    |                  |         |                     |                  |           |  |
| Monetary items        |                   |                    |                  |         |                     |                  |           |  |
| USD                   |                   | 4,090              | 30.880           | 126,299 | 11,377              | 30.708           | 349,365   |  |
| JPY                   |                   | 126,983            | 0.2163           | 27,466  | 281,684             | 0.2313           | 65,154    |  |

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, trade receivables, other receivables, financial assets at fair value through other comprehensive income, loans, trade payables and other payables that are denominated in foreign currency. A 1% of appreciation or depreciation of the TWD against the USD, CNY, JPY and SGD as of December 31, 2023 and 2022 would have increased or decreased the before-tax net income by \$12,763 thousand and \$13,864 thousand, respectively. The analysis is performed on the same basis for both periods.

3) Exchange gains and losses of monetary items

As the Group transacts in diverse foreign currencies, gains or losses on foreign exchange were summarized as a single amount. For the year ended December 31, 2023 and 2022, the foreign exchange gains or losses, including both realized and unrealized, amounted to \$(18,372) thousand and \$52,443 thousand, respectively.

(iv) Interest rate analysis

The interest risk exposure from financial assets and liabilities has been disclosed in this note of liquidity risk management.

The following sensitivity analysis is based on the exposure to the interest rate risk of derivative and non-derivative financial instruments on the reporting date. Regarding assets with variable interest rates, the analysis is based on the assumption that the amount of assets outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate which increases or decreases by 1% basic point when reporting to the internal management, which also represents the Group management's assessment of the reasonably possible interest rate change.

If the interest rate increases/decreases by 1%, the Group's net income will decrease/increase by \$5,406 thousand and \$3,502 thousand for the year ended December 31, 2023 and 2022, respectively, assuming all other variable factors remain constant. This is mainly due to the Group's borrowing in variable rates.

(v) Other market price risk

For the years ended December 31, 2023 and 2022, the sensitivity analyses for the changes in the securities price at the reporting date were performed using the same basis for the profit and loss as illustrated below:

|  | For the years ended December 31,      |                          |                                       |                          |  |  |  |

| Prices of securities at the reporting date | Other comprehensive income before tax | Net income<br>before tax | Other comprehensive income before tax | Net income<br>before tax |  |  |  |
| Increasing3%                               | \$34,232                              | 11,093                   | 15,247                                | 22,608                   |  |  |  |
| Decreasing 3%                              | \$(34,232)                            | (11,093)                 | (15,247)                              | (22,608)                 |  |  |  |

- (vi) Fair value of financial instruments
  - 1) The kinds of financial instruments and fair value

The fair value of financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income is measured on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value and lease liabilities, disclosure of fair value information is not required:

|  | December 31, 2023   |           |            |         |           |  |  |

| Financial liability at fair value through<br>profit or loss                                     |                     |            |           |         |           |  |  |
| Financial liabilities designated as fair value through profit or loss                           | \$ 1,840            | -          | 1,840     | -       | 1,840     |  |  |
| Financial liabilities at amortized cost   |                     |            |           |         |           |  |  |
| Bonds payable   | 1,300,725           | -          | 1,504,804 | -       | 1,504,804 |  |  |
| Total   | \$ <u>1,302,565</u> | -          | 1,506,644 | -       | 1,506,644 |  |  |

2) Valuation techniques for financial instruments not measured at fair value

Financial assets and financial liabilities measured at amortized cost. If there is quoted price generated by transactions, the recent transaction price and quoted price data is used as the basis for fair value measurement. However, if no quoted prices are available, the discounted cash flows are used to estimate fair values.

3) Valuation techniques for financial instruments measured at fair value

Financial instruments traded in active markets are based on quoted market prices. The quoted price of a financial instrument obtained from main exchanges and on the run bonds from Taipei Exchange can be used as basis to determine the fair value of the listed companies' equity instrument and debt instrument of the quoted price in an active market.

If quoted price of a financial instrument can be obtained in time and often from exchanges, brokers, underwriters, industrial union, pricing institute, or regulators and such price can reflect those actual trading and frequently happen in the market, then the financial instrument is considered to have quoted price in active market. If a financial instrument does not accord with the definition aforementioned, then it is considered to be without quoted price in active market. In general, market with low trading volume or high bid ask spreads is an indication of non-active market.

The Group's financial instruments are classified by their category, and the attributes of their fair value are as follows if such financial instruments are traded in active markets: beneficiary securities – open end fund, Corporate bonds and emerging stock, whose fair value was determined based on market quoted prices.

Measurements of fair value of financial instruments without an active market are based on a valuation technique or quoted price from a competitor. Fair value measured by a valuation technique can be extrapolated from similar financial instruments, the discounted cash flow method, or other valuation technique including a model using observable market data at the reporting date.

When the financial instrument of the Group is not traded in an active market, its fair value is determined based on the ratio of the quoted market price of the comparative listed company and its book value per share. Also, the fair value is discounted for its lack of liquidity in the market.

4) Transfers between Level 1 and Level 2

There were no transfers from one level to another for the years ended December 31,2023 and 2022.

5) Reconciliation of Level 3 fair values

|  | Fair value through other <u>comprehensive income</u> |           |  |  |
|--|--|-----------|--|--|
| Opening balance, January 1, 2023<br>Transfer out of the third tier | \$   | - 2,246   |  |  |
| Ending Balance, December 31, 2023                                  | \$   | 2,246     |  |  |
| Opening balance, January 1,2022                                    | \$   | 129,646   |  |  |
| Transfer out of the third tier                                     |  | (127,400) |  |  |
| Ending Balance, December 31,2022                                   | \$   | 2,246     |  |  |

6) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments that use Level 3 inputs to measure fair value include "fair value through other comprehensive income – equity investments".

Most of the Group's financial assets in Level 3 have only one significant unobservable input, while its equity investments without an active market have more than one significant unobservable inputs. The significant unobservable inputs of equity investments without an active market are individually independent, and there is no correlation between them.

Quantified information of significant unobservable inputs was as follows:

| Valuation<br>Item technique  |                           | Significant<br>unobservable inputs   | Inter-relationship between<br>significant unobservable<br>inputs and fair value<br>measurement |  |  |
|--|---------------------------|--|--|--|--|
| Financial assets at fair value<br>through other comprehensive<br>income - equity investments<br>without an active market | Net asset value<br>method | <ul> <li>Discount for lack of market<br/>ability (As of December 31,<br/>2023 and 2022 were both<br/>30%)</li> </ul> | • The higher the discount for lack of marketability, The lower the fair value.                 |  |  |

7) Fair value measurements in Level 3 – sensitivity analysis of reasonably possible alternative assumptions

The method be applied by the Group to measure the financial instruments are reasonable. There will be different result if applied other measurement models or assumptions.

For fair value measurements in Level 3, changing one or more of the assumptions by 10% to reflect reasonably possible alternative assumptions would have the following effects:

|   |                                    |                         | Effects of changes in fair<br>value on other<br>comprehensive income |             |  |
|---|------------------------------------|-------------------------|--|-------------|--|
|   | Inputs                             | Increase or<br>decrease | Favorable  | Unfavorable |  |
| December 31, 2023   |                                    |                         |  |             |  |
| Financial assets at fair value through other comprehensive income |                                    |                         |  |             |  |
| Equity investments without an active market                       | Discount for lack of marketability | 10%                     | 321  | (321)       |  |
| December 31, 2022   |                                    |                         |  |             |  |
| Financial assets at fair value through other comprehensive income |                                    |                         |  |             |  |
| Equity investments without an active market                       | Discount for lack of marketability | 10%                     | 321  | (321)       |  |

The favorable and unfavorable effects represent the changes in fair value, and fair value is based on a variety of unobservable inputs calculated using a valuation technique.

## (z) Financial risk management

(i) Overview

The Group is exposed to the following risks due to its use in financial instruments:

- 1) Credit risk
- 2) Liquidity risk

### 3) Market risk

This note discloses the exposure risk information, and the Group's objectives, policies and procedures of measuring and managing risks. For more quantitative disclosure information, please refer to notes of the financial statements.

#### (ii) Risk management framework

The Group's finance department provides business services for the overall internal department. It coordinates the domestic and international financial market operations, as well as supervises and manages financial risks related to the Group's operation based on internal risk report about exposure to risk, with the analysis of the extent and width of risk. Operation of derivative financial instruments is subject to the policy approved by the Board of Directors, which is documented based on exchange rate risk, interest risk, credit risk, operation of derivative and non-derivative financial instruments, and investment in the remaining current capital. The internal auditors of the Group continue with the review of the compliance with the policy and the extent of the exposure to risk. The Group has no transactions in financial instruments (including derivative financial instruments) for the purpose of speculation.

The Group's audit committee oversees how management supervision is in compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to risks faced by the Group. The internal auditors assist the Group's audit committee in oversight, maintain control on risk management and procedures of both regular and exceptional reviews, and report the review results to the audit committee.

(iii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to financial instruments fails to meet its contractual obligations that arise principally from the Group's accounts receivable, investments in securities and financial guarantees.

1) Accounts receivable and other receivable

The Group goes through the process of credit assessment on the trading parties pertaining to company size, industry perspective and general impression from the same industry before transaction begins. The engineering department also conducts an on-site interview, and the finance department will check to financial institutions for any abnormal dishonored check. The engineering department also establishes credit lines for each client, and updates the credit lines on a timely basis to reduce the transaction risk. The Group follows every uncollected receivable monthly. The administrative and the engineering department are responsible for gaining understandings about the overdue receivables and their anticipated date of collection, gaining understandings about clients' financial position, negotiations with the clients or demanding pledges or installment payment.

2) Investment

The credit risk exposure in the bank deposits, fixed income investments and open-end fund investments are measured and monitored by the Group's finance department. Since, the Group deals with banks and other external parties with good credit standing, the Group believes that there is no significant impact on credit risk.

3) Guarantee

The Group's policy stated that financial guarantee may be rendered to subsidiaries and trading parties running construction business.

(iv) Liquidity risk

The Group manages sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows.

(v) Market risk

Market risk is a risk that changes in market prices, such as foreign exchange rates and interest rates that will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

1) Currency risk

The Group is exposed to currency risk on sales and purchases that are denominated in a currency other than the respective functional currencies of the Group's entities, primarily the Chinese Yuan (CNY) and US Dollars (USD) as well.

2) Interest rate risk

The Group borrows funds on variable interest rates. Changes in market interest rates leads to the change of effective interest rates and fluctuation of future cash flows. The Group reduces interest rate risk by negotiating interest rates with banks from time to time.

3) Other market price risk

The Group is exposed to equity price risk due to the investments in equity securities. This is a strategic investment and is not held for trading. The Group does not actively trade in these investments. The Group assigned a specific team to supervise and assess the equity price risk so as to avoid or minimize the risk from the hedging position.

#### (aa) Capital management

The Group meets its objectives for managing capital to safeguard the capacity to continue to operate and provide a return on its shareholders; also, to benefit other related parties, as well as to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the dividend payment to the shareholders, reduce the capital for redistribution to shareholders, issue new shares or sell assets to settle any liabilities.

The Group and other entities in the similar industry use the debt-to-equity ratio to manage capital. This ratio uses the total net debt to be divided by the total capital. The net debt from the balance sheet is derived from the total liabilities, less, cash and cash equivalents. The total capital and equity include share capital, capital surplus, retained earnings and other equity, plus, net debt.

The Group's debt to capital ratios at the balance sheet date were as follows:

|                                 | De | December 31,<br>2022 |             |
|---------------------------------|----|----------------------|-------------|
| Total liabilities               | \$ | 14,501,871           | 16,317,848  |
| Less: cash and cash equivalents |    | (8,951,209)          | (6,410,782) |
| Net debt                        |    | 5,550,662            | 9,907,066   |
| Total equity                    |    | 8,811,847            | 7,584,732   |
| Total Capital                   | \$ | 14,362,509           | 17,491,798  |
| Debt to capital ratio           |    | 38.65 %              | 56.64 %     |

The management believes that there were no changes in the Group's approach to capital management for the years ended December 31,2023.

## (ab) Investing and financing activities not affecting current cash flow

The Group's financing activities which did not affect the current cash flow in the years ended December 31,2023 and 2022, were as follows:

|   |                    |             |                     | _         |                                 |              |              |

## (7) Related-party transactions:

#### (a) Names and relationship with the Group

The followings are entities that have had transactions with related party during the periods covered in the consolidated financial statements.

| Name of related party                        | Relationship with the Group                |
|--|--|
| Johnwell Airconditioning Enterprise Co., Ltd | The key management personnel of the parent |
|  | company's directors                        |
| Xiang-Hui Development Co., Ltd.              | The key management personnel of the parent |
|  | company's directors                        |

(b) Other related party transactions

Construction cost, and related assets and liabilities:

The amounts of significant purchase transactions and outstanding payables for goods and equipment between the Group and its related parties were as follows:

|   | Purch           | lases | Payables to<br>Part |                   |
|---|-----------------|-------|---------------------|-------------------|
|   | 2023            | 2022  | December 31, 2023   | December 31, 2022 |
| Entity under the key management's control | \$ <u>3,331</u> | 3,461 | 578                 | 1,095             |

There were no differences in the purchase price and terms of payments offered to related parties and those of third-party vendors.

#### Key management personnel compensation (c)

|                              | 2023          | 2022    |
|------------------------------|---------------|---------|
| Short-term employee benefits | \$<br>164,183 | 162,379 |
| Post-employment benefits     | <br>540       | 648     |
|                              | \$<br>164,723 | 163,027 |

## (8) Pledged assets:

The Group's pledged assets were as follows:

| Asset                             | Purpose of pledge  | December 31,<br>2023 | December 31,<br>2022 |
|-----------------------------------|--|----------------------|----------------------|
| Other financial assets – current: |  |                      |                      |
| Demand deposit and time deposit   | construction contract<br>fulfillment and warranty<br>guarantee | \$ <u>406,557</u>    | <u> </u>             |

## (9) Commitments and contingencies:

Significant commitments and contingencies for the Group as of December 31, 2023, and 2022 were as follows:

- (a) Fulfillment and warranty guarantee (excluding related parties) for engaging in construction contracts amounted to \$2,254,369 thousand and \$1,955,330 thousand, respectively.
- (b) The amounts pledged to the bank for engaging in construction contracts amounted to \$4,982,354 thousand and \$3,520,805 thousand, respectively.

- (c) Contract fulfillment guarantee and warranty guarantee (excluding related parties) for the competitive corporations amounted to \$2,004,700 thousand and \$0, respectively.
- (d) For already-signed but not-yet-finished significant construction contracts, please refer to note 6(v).
- The Company's subsidiary, Nova Tech, entered into an agreement with Jing He Science Co., Ltd. (e) (Jing He) for the construction and expansion of a new factory and gas factory, respectively, wherein Nova Tech is responsible for the installation process of the pipelines, as well as for purchasing the related equipment according to the design layout and purchase order provided by Jing He. However, Jing He made certain changes to its layout plan, which in turn, requires extra work; and for this reason, Nova Tech requested Jing He for an additional payment, in which Jing He argued that the contract is a lump-sum contract; therefore, refused to make any additional payment. Furthermore, it unilaterally terminated the agreement prior to the completion of the construction. Nova Tech then filed a lawsuit to the District Court against Jing He, demanding the amount of the contract to be paid in full. Nova Tech has also engaged a lawyer to defend its case. On the other hand, the District Court appointed Taiwan Association of Construction and Development, as well as Taiwan Professional Electrical Engineers Association, to estimate the value of the completed part of the new factory building, with both parties providing supplementary opinions for the preliminary valuation. The District Court has also appointed Taiwan Construction Research Institute (TCRI) to estimate the value of the expansion of the gas factory, wherein the estimated result turned out to be the same as that of which conducted by Nova Tech. On December 29, 2023, the Taiwan Taoyuan District Court ordered Jing He to pay the amount of \$22,876 thousand to Nova Tech, resulting in Nova Tech to make the provision of \$12,000 thousand for its loss in 2023.

## (10) Losses due to major disasters: None

## (11) Subsequent events: None

## (12) Other:

(a) The employee benefits, depreciation and amortization expenses categorized by function were as follows:

| By function                        |                    | 2023      |           |                    | 2022      |           |

Note 1. The ending balance was the used credit line approved by the Board of Directors for the year ended December 31, 2023.

Note 2. Calculation methods of the company and its subsidiaries for the limited amount and the total amount available for lending purpose for single party:

1. The Company:

(1) The total amount available for lending purpose shall not exceed 10% of the Company's net worth.

(2) The amount for short-term financing needs for single party, shall not exceed 10% of the Company's net worth.

2. Nova Tech:

(1) The total amount available for lending purpose shall not exceed 40% of Nova Tech's net worth.

(2) The total amount available for short-term financing needs, shall not exceed 40% of Nova Tech's net worth; and the amount available for single party for short-term financing needs shall not exceed 40% of Nova Tech's net worth.

## 3. SHI

- (1) The total amount available for lending purpose shall not exceed 90% of SHI's net worth.
- (2) The total amount available for short-term financing needs, shall not exceed 40% of SHI's net worth; and the amount available for single party for short-term financing needs shall not exceed 40% of SHI's net worth.
- (3) The leading amount to directly or indirectly wholly owned subsidiaries outside Taiwan for finance needs, or directly or indirectly wholly owned subsidiaries outside Taiwan to the Group for finance needs, are not limited by the 40% of net worth. The total amount still remains limited, shall not exceed 90% of SHI's net worth.
- 4. Acter Integration and its subsidiaries (AIL and Sheng Huei Shenzhen):
  - (1) The total amount available for lending purpose shall not exceed 40% of Acter Integration and its subsidiaries 's net worth.
  - (2) The total amount available for short-term financing needs, shall not exceed 40% of net worth of the company which lent funds; and the amount available for single party for short-term financing needs shall not exceed 40% of net worth of the company which lent funds.
  - (3) The maximum amount to directly or indirectly wholly owned subsidiaries outside Taiwan (must be within the scope of the consolidated financial statements of Acter Integration) for short-term financing needs, the total amount and maximum amount for lending shall not exceed 1000% of the net worth of each subsidiary.

#### 5. Winmax:

- (1) The total amount available for lending purpose shall not exceed 40% of Winmax's net worth.
- (2) The maximum amount to directly or indirectly wholly owned subsidiaries outside Taiwan for short-term financing needs, the total amount and maximum amount for lending shall not exceed 40% of Winmax's net worth.

Note 3. The net worth was audited by a Certified Public Accountant.

Note 4. The transaction had been eliminated upon consolidation.

Note: Paid-in capital refers to the paid-in capital of the Company. Since the par value of each share of the Company's stock is not NT\$10, the transaction amount of more than 20% of the paid-in capital is calculated based on 10% of the equity attributable to the parent of the Company on the balance sheet.

(viii) Receivables from related parties with amounts exceeding the lower of NT\$100 million or 20% of the capital stock: None.

- (ix) Trading in derivative instruments: None.
- (x) Business relationships and significant intercompany transactions:

Note 1: The number filled in as follows:

1) 0 represents the Company.

2) Subsidiaries are sorted in a numerical order starting from 1.

Note 2: Transactions labeled as follows:

1) 1 represents the transactions from parent company to subsidiaries.

2) 2 represents the transactions from subsidiaries to parent company.

- 3) 3 represents the transactions between subsidiaries.
- Note 3: Calculation of the ratio of transaction amount to total revenue or total assets in a business transaction. If it belongs to the asset and liability account, it is calculated as the year-end balance divided by the total assets. If it belongs to the income and expense account, it is calculated as the cumulative amount divided by the total revenue up to the middle of the period.
- Note 4: Whether significant transactional relationships should be disclosed in this table is subject to the company's determination based on the materiality principle.

- Note 1: The total amount of capital included the capital increase incurred from retained earnings of USD4,590 thousand in 2007 and 2012.
- Note 2: The total amount of capital included the capital increase incurred from retained earnings of USD4,537 thousand in 2006, 2007, 2010, 2011 and 2019, and the capital increase incurred from capital surplus of USD\$1,891 thousand in 2023.
- Note 3: The total amount of capital included the capital increase incurred from retained earnings of USD4,830 thousand in 2009, 2010 and 2011.
- Note 4: The total amount of capital included the capital increase incurred from retained earnings of USD2,000 thousand and share-based of USD17,200 thousand in 2023.
- Note 5: It included retained earnings to the Company amount \$457,505 thousand (USD15,166 thousand) and CNY27,822 thousand was paid to SHI.
- Note 6: The accumulated investment in Mainland China included through Nova Tech amounting to \$1,456,185 thousand (USD47,342 thousand) was authorized by the Investment Commission. However, the remittance from Winmax to Nova Tech amounting to \$1,482,545 thousand (USD48,735 thousand) and the remittance from Fuyu International to SHI amounting to \$164,079 thousand (USD 5,879 thousand) and the remittance from Acter Integration to the Company amounting to \$457,505 thousand (USD15,166 thousand) were not included in the accumulated investment amounts.
- Note 7: According to the "Regulations Governing the Examination of Investment or Technical Cooperation in Mainland China" issued by the Investment Commission on August 29, 2008, the maximum amount on investment in Mainland China shall not exceed 60% of the Company's net worth.
- Note 8: All foreign currency amounts were translated at the exchange rates and authorized by the Investment Commission.
- Note 9: The amount was recognized based on the audited financial statements.
- Note 10: Fuyu had been liquidated in December 2020. However, the accumulated investment in Mainland China amounting to \$6,110 thousand (USD200 thousand) has yet to be remitted to the Company.
- Note 11: Jiangsu Dianze was liquidated in November 2023.
- Note 12: Ways to invest in Mainland China:
  - (1) Direct investment in Mainland China.
    - (2) Indirect investment in Mainland China through a foreign company.
    - (3) Investment in Mainland China through an existing company in Mainland China.
- (iii) Significant transactions:

The significant inter-company transactions with the subsidiary in Mainland China, which were eliminated in the preparation of consolidated financial statements, were disclosed in "the Information on significant transactions".

#### (d) Major shareholders:

As of December 31, 2023, there were no shareholders holding more than 5% of the shares.

#### (14) Segment information:

#### (a) General information

There are three reportable segments of the Group: Taiwan, Mainland China, and other Asian countries. The Taiwan segment provides engineering, maintenance, sales and other services in Taiwan area. The Mainland China segment provides engineering services and sales in Mainland China. The other Asian segment provides engineering services in Vietnam, Singapore, Malaysia and other Asian countries.

The reportable segments are strategic business units that render products and services in different areas. Since each strategic business unit is located in a different environment, they require different administration strategies and are managed separately. Most of the business units were founded by the Company, and the management teams have been cultivated by the Company as well.

(b) Information on reportable segment profit or loss, segment assets, segment liabilities, and their measurement and reconciliations

The Group uses the segmented net income from the internal management report that the chief operating decision maker reviews as the basis to determine the resource allocation and make a performance evaluation. The Group has allocated income tax expense (benefit) or extraordinary gain or losses to reportable segments. In addition, profit or loss from all reportable segments includes significant non-cash items, excluding depreciation and amortization. The reportable amount is similar to that of the report used by the chief operating decision maker.

The operating segment accounting policies are similar to those described in Note 4 "Significant accounting policies". The Group's income from operating segment is measured by using the net income, and is referred to as the basis of performance evaluation.

The Group's operating segment information and reconciliation are as follows:

| 2023                               | Taiwan               | Mainland<br>China | Other<br>Asian | Adjustments<br>and<br>eliminations | Total      |

## **Independent Auditors' Report**

The Board of Directors Acter Group Corporation Limited:

## Opinion

We have audited the accompanying parent company only financial statements of Acter Group Corporation Limited (the "Company"), which comprise the balance sheets as of December 31, 2023 and 2022, and the statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the parent company only financial statements, including material accounting policies information.

In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the accompanying parent company only financial position of the Company as of December 31, 2023 and 2022, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

## **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

## **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent company only financial statements for the year ended December 31, 2023. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Construction revenue recognition

Please refer to Note 4(n) "Revenue", Note 5(a) "Significant accounting assumptions and judgments, and major sources of estimation uncertainty: Construction revenue recognition", and Notes 6(q) "Revenue from contracts with customers" to the financial statements.

## Description of key audit matter

The Company assesses its construction revenue by measuring the proportion that the contract costs incurred for work performed to date bear to the estimated total contract costs; the estimated total contract cost involves judgment and estimation uncertainty of the Company's management. Consequently, revenue recognition is one of the key matters for our audit.

How the matter was addressed in our audit

Our principal audit procedures included: testing the Company's internal control of sales and receipt cycle to assess whether there is any defects and irregularities of internal control systems. Reviewing major contracts to understand the specific terms and risks of the contracts; comparing the actual construction costs incurred with the estimated construction costs to evaluate rationality of the estimation method; assessing whether the Company's accounting policy on revenue recognition is in accordance with the related accounting standards.

# Responsibilities of Management and Those Charged with Governance for the Parent Company Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Company's financial reporting process.

### Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements for the year ended December 31, 2023 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Cheng-Hsueh Chen and Chien-Hui Lu.

KPMG

Taipei, Taiwan (Republic of China) February 26, 2024

#### Notes to Readers

The accompanying parent company only financial statements are intended only to present the financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such parent company only financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' report and the accompanying parent company only financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and parent company only financial statements, the Chinese version shall prevail.

## (English Translation of Parent Company Only Financial Statements Originally Issued in Chinese) ACTER GROUP CORPORATION LIMITED

## Notes to the Parent Company Only Financial Statements

## For the years ended December 31, 2023 and 2022

## (Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

### (1) History and Organization

Acter Group Corporation Limited (the "Company") was incorporated on February 19, 1979, under the approval of the Ministry of Economic Affairs, R.O.C. The Company's registered office address is located at 19F-1, No.201, Sec.2, Wenxin Road, Xitun District., Taichung City, Taiwan (R.O.C.). The Company is engaged in providing construction, design, and maintenance services related to air conditioners, environmental control services, clean room set-up, ice water machine trading, energy storing equipment trading, ventilation engineering, and energy technology services. Acter's common shares were publicly listed on the Taipei Exchange ("TPEx") on November 10, 2010.

## (2) The Authorization of the financial statements

The parent company only financial statements were authorized for issue by the Board of Directors on February 26, 2024.

### (3) Application of new standards, amendments and interpretations

(a) The impact of endorsed by the Financial Supervisory Commission, R.O.C. ("FSC") which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its parent company only financial statements, from January 1, 2023:

- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"
- Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

The Company has initially adopted the following new amendments, which do not have a significant impact on its parent company only financial statements, from May 23, 2023:

Amendments to IAS 12 "International Tax Reform-Pillar Two Model Rules"

(b) The impact of IFRS issued by the FSC but not yet effective

The Company assessed that the adoption of the following new amendments, effective for annual period beginning on January 1, 2024, would not have a significant impact on its parent company only financial statements:

• Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"

• Amendments to IAS 1 "Non-current Liabilities with Covenants"

• Amendments to IAS 7 and IFRS 7 "Supplier Finance Arrangements"

• Amendments to IFRS 16 "Lease Liability in a Sale and Leaseback"

(c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The Company does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its parent company only financial statements:

## **ACTER GROUP CORPORATION LIMITED**

## Notes to the Parent Company Only Financial Statements

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 "Insurance Contracts" and amendments to IFRS 17
- Amendments to IAS 21 "Lack of Exchangeability"

## (4) Summary of significant accounting policies

The significant accounting policies presented in the parent company only financial statements are summarized as follows. Except for Note 3 indicated, the following accounting policies were applied consistently to all periods presented in these financial statements.

(a) Statement of compliance

The accompanying parent company only financial statements have been prepared in conformity with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as "the Regulations").

- (b) Basis of preparation
  - (i) Basis of measurement

Except for the following significant items, these parent company only financial statements have been prepared on the historical cost basis:

- 1) Financial assets measured at fair value through profit or loss;
- 2) Financial assets measured at fair value through other comprehensive income; and
- 3) Net defined benefit liabilities is recognized as the fair value of the plan assets less the present value of the defined benefit obligation.
- (ii) Functional and presentation currency

The parent company only financial statements are presented in New Taiwan Dollars, which is the currency of the main economic environment of each entity of the Company's operates as its functional currency. All financial information presented in New Taiwan Dollars has been rounded to the nearest thousand.

- (c) Foreign currency
  - (i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of the company at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period ("the reporting date"), monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies that are measured at fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of translation.

## ACTER GROUP CORPORATION LIMITED

## Notes to the Parent Company Only Financial Statements

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

- 1) an investment in equity securities designated as at fair value through other comprehensive income;
- 2) a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- 3) qualifying cash flow hedges to the extent that the hedges are effective.
- (ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising from acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate for the period. All resulting exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the accumulated exchange differences related to that foreign operation is reclassified to profit or loss. When the Company disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interest. When the Company disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planed nor likely to occur in the foreseeable future. Exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation and are recognized in other comprehensive income.

(d) Classification of current and non-current assets and liabilities

An operating cycle (usually one year to two year) is a criterion to make judgment on whether assets or liabilities related to construction contracts are classified as current or non-current. The rest assets and liabilities are classified according to the following criteria:

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

- (i) It is expected to be realized, or intended to be sold or consumed in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

## ACTER GROUP CORPORATION LIMITED Notes to the Parent Company Only Financial Statements

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.
- (e) Cash and cash equivalents

Cash consists of cash on hand, demand deposits and checking deposits. Cash equivalents are short-term and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short-term cash commitment rather than for investment or other purpose, should be recognized as cash equivalents.

(f) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date or settlement date basis for which financial assets were classified in the same way respectively.

On initial recognition, a financial asset is classified as measured at: amortized cost, fair value through other comprehensive income (FVOCI) - equity investment or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

## ACTER GROUP CORPORATION LIMITED

## Notes to the Parent Company Only Financial Statements

Subsequent to initial recognition, these assets are measured at amortized cost, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as recognition (reversal) of impairment loss are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Financial assets measured at fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment loss are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income derived from equity investments is recognized on the date that the Company's right to receive the dividends is established (usually the ex-dividend date).

3) Financial assets measured at fair value through profit or loss (FVTPL)

All financial assets not classified as measured at amortized cost or at FVOCI described as above (e.g., financial assets which is held for trading and manages and assess performance based on fair value) are measured at FVTPL, including derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any dividend or interest income, are recognized in profit or loss.

4) Impairment of financial assets

The Company recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, notes and accounts receivable, other receivables, refundable deposits and other financial assets) and contract assets.

## ACTER GROUP CORPORATION LIMITED

## Notes to the Parent Company Only Financial Statements

The Company measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for accounts receivable and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Company's historical experience and informed credit assessment as well as forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if the aging days exceed 360 days.

The Company considers the credit risk of a financial asset to be in default when the financial asset is aged over 540 days or the debtor is unlikely to pay its credit obligations to the Company in full.

The Company considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of investment grade which is considered to be BBB- or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings'.

ECL are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). ECL are discounted at the effective interest rate of the financial asset.

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is "credit-impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that financial assets are credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 540 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

## Notes to the Parent Company Only Financial Statements

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

5) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets.

- (ii) Financial liabilities and equity instruments
  - 1) Classification of debt or equity

Debt and equity instruments issued by the Company are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Compound financial instruments

The compound financial instruments issued by the company are convertible corporate bonds (denominated in New Taiwan dollars) that the holder has the option to convert into equity capital. The number of issued shares will not vary with changes in their fair value.

The amount originally recognized for the liability component of a compound financial instrument is measured at the fair value of a similar liability excluding equity conversion rights. The originally recognized amount of the equity component is measured as the difference between the fair value of the overall compound financial instrument and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to the carrying amounts of the original liability and equity.

### Notes to the Parent Company Only Financial Statements

Subsequent to original recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not remeasured after initial recognition.

Interest related to financial liabilities is recognized in profit or loss. Financial liabilities are reclassified to equity upon conversion, and no gain or loss is incurred on their conversion.

4) Financial liabilities

Financial liabilities are classified as measured at amortized cost or at FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

5) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligations have been discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

6) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(g) Investment in subsidiaries

When preparing the parent company only financial statements, investment in subsidiaries which are controlled by the Company is accounted for using the equity method. Under the equity method, net income, other comprehensive income and equity in the parent company only financial statements are equivalent to those of the profit, other comprehensive income and equity which are attributable to parent company shareholders in the consolidated financial statements.

Changes in the parent's ownership interests in subsidiaries that do not result in a loss of control are accounted as equity transactions.

#### (h) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services, or for administrative purposes. Investment property is measured at cost on initial recognition, and subsequently at cost, less accumulated depreciation and accumulated impairment losses. Depreciation expense is calculated based on the depreciation method, useful life, and residual value which are the same as those adopted for property, plant and equipment.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount) is recognized in profit or loss.

Rental income from investment property is recognized as other revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income, over the term of the lease.

- (i) Property, plant and equipment
  - (i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that future economic benefits associated with the expenditure will flow to the Company.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for the current and comparative periods are as follows:

- 1) Buildings: 50 years
- 2) Other facilities: 3~9 years
- 3) The significant portion of plant and building consists of its main building and miscellaneous parts, which are estimated over their useful lives within 50 years.

### Notes to the Parent Company Only Financial Statements

4) The estimated useful lives of other equipment for significant components items are as follows:

| <u>Component Items</u>         | <u>Useful Lives (years)</u> |
|--------------------------------|-----------------------------|
| Transportation vehicles        | 5                           |
| Instrument equipment           | 5                           |
| Computer equipment             | 3~5                         |
| Office decoration construction | 9                           |
| Other equipment                | 5~9                         |

Depreciation methods, useful lives, and residual values are reviewed at each annual reporting date and adjusted if appropriate.

(j) Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- 1) fixed payments, including in-substance fixed payments;
- 2) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- 3) amounts expected to be payable under a residual value guarantee; and
- 4) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

# Notes to the Parent Company Only Financial Statements

- 1) there is a change in future lease payments arising from the change in an index or rate; or
- 2) there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee; or
- 3) there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset; or
- 4) there is a change of its assessment on whether it will exercise an extension or termination option; or
- 5) there is any lease modification

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Company accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Company presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases of office, staff dormitory and business equipment that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

#### (ii) As a lessor

When the Company acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies IFRS15 to allocate the consideration in the contract.

The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of "other income".

#### (k) Intangible assets

(i) Recognition and measurement

Other acquired intangible assets with finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses.

(ii) Subsequent Expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognized in profit or loss as incurred.

(iii) Amortization

Amortization is calculated over the cost of the asset less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use. The estimated useful life for computer software is 1~3 years.

Amortization methods, useful lives and residual values are reviewed at each annual reporting date and adjusted if appropriate.

(1) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

For non-financial assets other than goodwill, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(m) Provisions

A provision is recognized if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

# Notes to the Parent Company Only Financial Statements

A provision for warranties is recognized when the underlying products or services are sold, based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

### (n) Revenue recognition

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Company's main types of revenue are explained below.

1) Construction contracts

The Company is engaged in construction business of semiconductors, consumer industry and electronic assembly companies. Since assets are gradually controlled by customers during the construction process, revenue is gradually recognized based on the proportion of the project cost incurred to date of the estimated total contract costs. The consideration promised in the contract includes those fixed amounts. The Company recognizes revenue only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. If the Company has recognized revenue, but not issued a bill, then the entitlement to consideration is recognized as a contract asset. The contract asset is transferred to receivables when the entitlement to payment becomes unconditional.

If the Company cannot reasonably measure its progress towards complete satisfaction of the performance obligation of a construction contract, the Company shall recognize revenue only to the extent of the costs expected to be recovered.

A provision for onerous contracts is recognized when the Company expects the unavoidable costs of performing its obligations under a construction contract that exceed its economic benefits expected to be received under the contract.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by the management.

For constructions, the Company offers a standard warranty to provide assurance that they comply with the agreed-upon specifications and has recognized the warranty provisions for this obligation; please refer to note 6(1).

2) Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

- (ii) Contract costs
  - 1) Incremental costs of obtaining a contract

The Company recognizes the incremental costs of obtaining a contract with a customer as an asset if the Company expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Company incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained shall be recognized as an expense when incurred, unless those costs are explicitly chargeable to the customer regardless of whether the contract is obtained.

The Company applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less.

2) Costs to fulfill a contract

If the costs incurred in fulfilling a contract with a customer are not within the scope of another Standard (for example, IAS 2 Inventories, IAS 16 Property, Plant and Equipment or IAS 38 Intangible Assets), the Company recognizes an asset from the costs incurred to fulfill a contract only if those costs meet all of the following criteria:

- a) the costs relate directly to a contract or to an anticipated contract that the Company can specifically identify;
- b) the costs generate or enhance resources of the Company that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- c) the costs are expected to be recovered.

For general and administrative costs, costs of wasted materials, labor or other resources to fulfill the contract that were not reflected in the price of the contract, costs that relate to satisfied performance obligations (or partially satisfied performance obligations), and costs for which the Company cannot distinguish whether the costs relate to unsatisfied performance obligations or to satisfied performance obligations(or partially satisfied performance obligations), the Company recognizes these costs as expenses when incurred.

- (o) Employee benefits
  - (i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

(ii) Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(p) Income Taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are not recognized for the following:

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;
- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

# Notes to the Parent Company Only Financial Statements

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
  - 1) the same taxable entity; or
  - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.
- (q) Earnings per share

The Company discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. The calculation of basic earnings per share is based on the profit attributable to ordinary shareholders of the Company, divided by the weighted-average number of ordinary shareholders of the Company, divided by the weighted-average number of ordinary shareholders of the Company, divided by the weighted-average number of ordinary shareholders of the Company, divided by the weighted-average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as employee bonuses and employee stock bonuses or rewards that have yet to be approved during the stockholders' meeting. The company's potentially dilutive ordinary shares include convertible corporate bonds and employee dividends or remuneration that have not been resolved by the board of directors and can be issued in stock.

(r) Operating segments

The Company has provided the operating segments disclosure in the consolidated financial statements. Thus, disclosure of the segment information in the parent company only financial statements is waived.

### (5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty

The preparation of the parent-company-only financial statements requires management to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting assumptions and estimates. It recognized any changes in the accounting estimates during the period and the impact of the changes in the accounting estimates in the next period.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is as follows:

(a) Construction Revenue recognition

Contract revenue are recognized by reference to the stage of completion of each contract. The stage of completion of a contract is measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs. Estimated total contract costs of contracted items are assessed and determined by the management based on the nature of activities, expected sub-contracting charges, construction periods, processes, methods, etc., for each construction contract. Changes in these estimates might affect the calculation of the percentage of completion and related profits from construction contracts. Please refer to Note 6(q) for further description of the for revenue recognition.

When measuring the assets and liabilities, the Company uses observable inputs in the market at its best. The hierarchy of fair value is classified based on the input used by the valuation techniques as follows:

- Level 1: Public quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the assets or liability that are not based on observable market data (unobservable inputs).

Please refer to Note 6(t) for assumptions used in measuring fair value.

# (6) Explanation of significant accounts

(a) Cash and cash equivalents

|   | De | ecember 31,<br>2023 | December 31,<br>2022 |  |
|---|----|---------------------|----------------------|--|
| Petty cash and cash on hand                   | \$ | 198                 | 201                  |  |

| - call and put provision                             | . <u> </u> |                   | 55                   |  |
|  | \$         | 53,675            | 389,552              |  |

(c) Financial assets at fair value through other comprehensive income

|  | De | ecember 31,<br>2023 | December 31,<br>2022 |
|--|----|---------------------|----------------------|
| Equity investments at fair value through other comprehensive |    |                     |                      |
| income   |    |                     |                      |
| Listed stocks  | \$ | 748,889             | 112,363              |
| Emerging stocks  |    | 4,235               | 207,244              |
|  | \$ | 753,124             | 319,607              |

(i) The Company designated the investments shown above measured as at fair value through other comprehensive income because these equity instruments are held for long-term strategic purposes and not for trading.

Because of over-allotment agreement, certain equity instruments measured at FVOCI were sold in 2023, the related gain accumulated in other comprehensive income of \$253 thousand has been reclassified from other equity to retained earnings, accordingly.

- (ii) For credit risk and market risk, please refer to Note 6(t).
- (iii) The financial assets shown above were not pledged.
- (d) Notes and accounts receivable, net

| Measured at amortized cost | De | December 31,<br>2023 |           |  |
|----------------------------|----|----------------------|-----------|--|
| Notes receivable           | \$ | 80,901               | 48,830    |  |
| Accounts receivable        |    | 2,125,129            | 3,324,533 |  |
| Less: loss allowance       |    | (1,997)              | (5,794)   |  |
|                            | \$ | 2,204,033            | 3,367,569 |  |

The Company applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, notes and accounts receivable have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information, including macroeconomic and relevant industry information. The loss allowance were determined as follows:

|                    |           | <b>December 31, 2023</b> |                               |                |  |  |

#### (i) Investment Property

Investment property comprises office buildings that are leased to third parties under operating leases, as well as properties that are owned by the Company. The leases of investment properties contain an initial non-cancellable lease term of 1 year. For all investment property leases, the rental income is fixed under the contracts.

### Notes to the Parent Company Only Financial Statements

(i) The original recognition of investment property is measured at cost, and the subsequent measurement is also accounted for under cost model.

(ii) The depreciation is calculated by its depreciable amount after the original recognition of investment property, and market value is used as the fair value for impairment assessment.

(iii) The investment property is not pledged.

### (j) Bonds payable

| Profit or loss   | <u>\$</u> | (55)          | 55                |
| Finance cost   | <u>\$</u> | <u>1,804</u>  | 9,602             |

The company issued 8,000 unsecured 3 years convertible bonds without any effective interest rate in Taiwan on November 27, 2020. The bonds have been fully redeemed or converted in September 2023.

The conversion price was set at \$196.4 at the time of issuance. When the common shares qualify for conversion price adjustment in accordance to the terms of issuance, such adjustment will be made based on a formula in accordance with the terms of issuance. There are no reset terms for this bond.

Due to the cash capital increase in 2021, the conversion price will be adjusted to \$195.1 per stock from January 4, 2021. In 2020, the distribution of cash dividends was announced, and the conversion price was adjusted to \$183.2 per share from July 11, 2021. In 2021, the distribution of cash dividends was announced, and the conversion price was adjusted to \$169.6 per share from July 8, 2022. In 2022, the par value of the stock was changed, and the conversion price was adjusted to \$84.8 per share from September 16, 2022.

In the first half of 2022, the distribution of cash dividends was announced, and the conversion price was adjusted to \$82 per share from February 13, 2023. In the second half of 2022, the distribution of cash dividends was announced, and the conversion price was adjusted to \$77.5 per share from July 12, 2023.

Beginning from three month after the issue date (February 28, 2021) until forty days before maturity (October 18, 2023), if the closing price of the company's common shares on the Taipei Exchange is higher than 30% of the conversion price for thirty consecutive trading days or when the outstanding convertible bonds are less than 10% of the initial issued bonds, the Company may redeem the remaining bonds at their face value by cash in five trading days after the redemption date.

## Notes to the Parent Company Only Financial Statements

Bondholders are entitled to exercise the put option two years after issuance (November 27, 2022) with an exercise price at 100% of the face value of the bonds. Upon receipt of a sell request, the Company shall pay the amount to the bondholders by cash within five trading days of the put date.

(k) Lease liabilities

The carrying amounts of lease liabilities were as follows:

|   | <b>December 31, 2023</b> |              | December 31, 2022 |
|---|--------------------------|--------------|-------------------|
| Current   | \$                       | 15,126       | 13,295            |
| Non-current                                       | \$                       | 23,954       | 31,289            |
| For the maturity analysis, please refer to Note 6 | (t).                     |              |                   |
| The amounts recognized in profit or loss was as   | follows:                 |              |                   |
|   |                          | 2023         | 2022              |
| Interest expenses on lease liabilities            | \$                       | 410          | 425               |
| Expenses relating to short-term leases            | \$                       | 8,249        | 13,538            |
| Expenses relating to leases of low-value assets,  |                          |              |                   |
| excluding short-term leases of low-value asse     | ts <u>\$</u>             | <u>4,796</u> | 6,183             |

The amounts recognized in the statement of cash flows for the Company were as follows:

|                               | 2023 |        | 2022   |  |
|-------------------------------|------|--------|--------|--|
| Total cash outflow for leases | \$   | 28,325 | 33,250 |  |

(i) Real estate leases

The company leases buildings for its office space. The leases typically run for a period of 1.5 to 8 years.

(ii) Other leases

The Company leases transportation equipment with contract terms of 2 to 5 years. In certain cases, the Company has options to purchase the assets at the end of the contract terms.

Office, employee dormitory and office equipment leases with contract terms of 1 year are shortterm or for low-value items. The Company has elected not to recognize its right-of-use assets and lease liabilities for these leases.

(1) Provisions

The movement in the provisions with respect to warranties was as follows:

### Notes to the Parent Company Only Financial Statements

The Company's warranty provision is estimated based on historical data of the construction contract. Most liabilities are expected to occur during the warranty period that is mentioned in the contract since completion of the construction.

#### (m) Employee benefits

(i) Defined benefit plans

Reconciliation of defined benefit obligations at present value and plan assets at fair value were as follows:

|   | Decen     | ıber 31, 2023 | December 31, 2022 |
|---|-----------|---------------|-------------------|
| Present value of defined benefit obligation | \$        | 30,979        | 31,414            |
| Fair value of plan assets                   |           | (15,460)      | (13,962)          |
| Net defined benefit liability               | <u>\$</u> | 15,519        | 17,452            |

The Company deposits defined benefit plan contributions to the pension fund account in the Bank of Taiwan. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits based on years of service and average monthly salary for the six months prior to retirement.

1) Composition of plan assets

The Company allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Company's labor pension reserve account balance in the Bank of Taiwan amounted to \$15,460 thousand as of December 31, 2023. For information on the utilization of the labor pension fund assets including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

2) Movement in present value of the defined benefit obligations

The movements in the present value of the defined benefit obligations for the Company were as follows:

|  |           | 2023    | 2022         |
|--|-----------|---------|--------------|
| Balance, January 1   | \$        | 31,414  | \$<br>32,260 |
| Current service costs and interest                         |           | 549     | 242          |
| Remeasurement of the net defined benefit liability (asset) |           |         |              |

| assumptions  |           | 427     | (4,120)      |
| -Actuarial loss (gain) arising from experience             |           |         |              |
| adjustments  |           | (1,411) | <br>3,032    |
| Balance, December 31                                       | <u>\$</u> | 30,979  | <br>31,414   |

### 3) Movement of defined benefit plan assets at fair value

The movements of defined benefit plan assets at fair value for the Company were as follows:

|  |           | 2023   |    | 2022   |
|--|-----------|--------|----|--------|
| Balance, January 1   | \$        | 13,962 | \$ | 11,801 |
| Interest income  |           | 255    |    | 93     |
| Net remeasurements of defined benefit liabilit<br>(asset) — Return on plan assets (excludin<br>current interest) | •         | 43     |    | 868    |
| Amounts contributed to plan  |           | 1,200  |    | 1,200  |
| Balance, December 31   | <u>\$</u> | 15,460 |    | 13,962 |

### 4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Company were as follows:

|  | 2023          | 2022 |
|--|---------------|------|
| Net interest cost of net defined benefit liability |               |      |
| (Operating expense)                                | <u>\$ 294</u> | 149  |

5) Remeasurements of the net defined benefit liability (asset) recognized in other comprehensive income

The net defined benefit liability (asset) are recognized in other comprehensive income for the Company were as follows:

|   |           | 2023    | 2022    |
|---|-----------|---------|---------|
| Actuarial gain arising from defined benefit<br>obligation<br>Actuarial gain arising from fair value of plan | \$        | (984)   | (1,088) |
| assets  |           | (43)    | (868)   |
| Actuarial gain recognized in current period   | <u>\$</u> | (1,027) | (1,956) |

6) Actuarial assumptions

The significant actuarial assumptions used to determine the present value of the defined benefit obligation by the Company at the reporting date are as follows:

|                             | December 31,<br>2023 | December 31,<br>2022 |
|-----------------------------|----------------------|----------------------|
| Discount rate               | 1.625%               | 1.75%                |
| Future salary increase rate | 3.00%                | 3.00%                |

The Company expects to contribute \$1,200 to the defined benefit plans in 2024.

The weighted – average duration of the defined benefit plans is 14.01 years.

### Notes to the Parent Company Only Financial Statements

7) Sensitivity analysis

If the actuarial assumptions had changed, the impact on the present value of the defined benefit obligation shall be as follows:

|                                   | Impact on defined benefit obligation |       |                |  |  |  |
|-----------------------------------|--------------------------------------|-------|----------------|--|--|--|
| December 31, 2023                 | Increase 0.25%                       |       | Decrease 0.25% |  |  |  |
| Discount rate                     | \$                                   | (849) | 885            |  |  |  |
| Future salary increase (decrease) |                                      | 853   | (826)          |  |  |  |
| December 31, 2022                 |                                      |       |                |  |  |  |
| Discount rate                     | \$                                   | (943) | 970            |  |  |  |
| Future salary increase (decrease) |                                      | 938   | (916)          |  |  |  |

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in the balance sheets.

The approach to develop the sensitivity analysis and its relevant actuarial assumptions are the same as those in previous year.

(ii) Defined contribution plans

The Company allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of the Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plan, the Company allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

The Company's pension costs under the defined contribution plan were \$15,371 thousand and \$14,253 thousand for the years ended December 31, 2023 and 2022, respectively.

#### (n) Income tax

(i) Income tax expense

The components of income tax expense for the years ended December 31, 2023 and 2022 were as follows:

|                                       | 2023 |         | 2022    |
|---------------------------------------|------|---------|---------|
| Current income tax expense:           |      |         |         |
| Current period                        | \$   | 270,577 | 274,606 |
| Income tax adjustments on prior years |      | (7,336) | (2)     |
|                                       |      | 263,241 | 274,604 |
| Deferred tax expense:                 |      |         |         |
| Origination and reversal of temporary |      |         |         |
| differences                           |      | 38,683  | 67,880  |
| Income tax expense                    | \$   | 301,924 | 342,484 |

Income taxes recognized expense (benefit) directly in other comprehensive income for the years ended December 31, 2023 and 2022 were as follows:

|   |           | 2023   | 2022     |
|---|-----------|--------|----------|
| Items that will be reclassified subsequently to profit or loss: |           |        |          |
| Foreign currency translation differences –                      |           |        |          |
| foreign operations  | <u>\$</u> | 12,521 | (17,779) |

Reconciliation of income tax expense (benefit) and income before tax were as follows:

|  | _  | 2023      | 2022      |
|--|----|-----------|-----------|
| Profit before tax                                | \$ | 2,140,028 | 2,275,606 |
| Tax rate using the Company's domestic tax rate   | \$ | 428,006   | 455,121   |
| Investments tax credits                          |    | (147,618) | (119,621) |
| The impact of tax adjustments in accordance with |    | (8,902)   | (1,851)   |
| the tax law                                      |    |           |           |
| Prior years income tax adjustment                |    | (7,336)   | (2)       |
| Surtax on undistributed earnings                 |    | 19,573    | 8,837     |
| Other  |    | 18,201    | -         |
| Total  | \$ | 301,924   | 342,484   |

### (o) Capital and other equity

As of December 31, 2023 and 2022, the authorized common stock of the Company amounted to \$720,000 thousand, while the issued common stock amounted to \$620,405 thousand and \$574,673 thousand with a par value of \$5 per share, respectively.

#### (i) Issuance of common stock

The Company issued the first domestic unsecured convertible corporate bonds, and the application for conversion amounted for the year ended December 31, 2023 and 2022 were \$552,400 thousand and \$246,500 thousand, respectively, for which 6,802 thousand and 2,783 thousand common stock, respectively, were converted.

The company passed the resolution of the ordinary shareholders' meeting to amend the company's articles of association on May 26, 2022, changing the value of \$10 per share to \$5 per share, and proposed by the Board of Directors on August 5, 2022, to set the stock exchange base date as September 16, 2022, and the relevant statutory registration procedures have been completed.

### (ii) Capital surplus

The components of the capital surplus were as follows:

|   | December 31,<br>2023 | December 31,<br>2022 |
|---|----------------------|----------------------|
| From common stock   | \$<br>2,221,085      | 1,684,104            |
| Difference between the consideration and the carrying amount of subsidiaries acquisition or |                      |                      |
| disposal  | 6,034                | 6,034                |
| Changes in ownership interest in subsidiaries   | 1,480,813            | 1,342,101            |
| Equity component of convertible bonds recognized in stock option                            | -                    | 23,272               |
| Other   | <br>16               |                      |
|   | \$<br>3,707,948      | 3,055,511            |

(1) Nova Tech, a subsidiary of the Group, issued the unsecured convertible corporate bonds in 2023. The Company recognized the change of \$104,074 thousand in ownership interest in subsidiaries, and the capital surplus has been adjusted.

- (2) Nova Tech, a subsidiary of the Group, disposed equity shares of Rayzher and NTEC Singapore in 2023 and recognized the change of \$6,101 thousand in ownership interest in subsidiaries, and the capital surplus has been adjusted.
- (3) Rayzher, a subsidiary of the Group, processed a capital increase, resulting in a change of \$28,537 thousand in ownership interest in subsidiaries, and the capital surplus has been adjusted.

According to the ROC Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring paid-in capital in excess of par value should not exceed 10% of the total common stock outstanding.

(iii) Retained earnings

According to the Company's articles of incorporation, 10% of the annual earnings, after offsetting any accumulated deficit and payment of income taxes due, if any, the legal reserve shall be set aside until the accumulated legal reserve equals the Company's paid-in capital. In addition, a special reserve in accordance with applicable laws and regulations shall also be set aside, and the remaining balance is partially reserved depending on the business environment, growth status, and long-term finance planning. After deducting the aforementioned partially reserve, the remaining balance, plus, any unappropriated earnings in previous years shall be used for distribution of stockholders' bonuses by the board of directors, depending on the capital status and economic development in the current year. Cash bonuses should not be less than 10% of the total stockholders' bonuses, and they will be recommended by the board of directors to be approved in the stockholders' meeting.

### Notes to the Parent Company Only Financial Statements

1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve that exceeds 25% of capital may be distribute.

2) Special reserve

In Accordance with Ruling No.1010012865 issued by the FSC on April 6, 2012, the difference between the total net reduction of other shareholders' equity and the carrying amount of special earnings reserve as stated above shall be reclassified as special earnings reserve during earnings distribution. Other prior accumulated debit balance of stockholders' equity was recognized as additional special reserve from prior undistributed earnings since distributions were prohibited. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions.

3) Earnings distribution

The amounts of cash dividends on the appropriations of earnings for 2022 second half and 2022 first half had been approved during the board meeting on February 24, 2023 and November 4, 2022, respectively. The relevant dividend distributions to shareholders were as follows:

| Dividends distributed to ordinary shareholders: | 2022      | Second half | 2022 First half |
|---|-----------|-------------|-----------------|
| Cash  | <u>\$</u> | 1,012,988   | 402,696         |

The amounts of cash dividends on the appropriations of earnings for 2023 second half and 2023 first half of the year had been approved during the board meeting on February 26, 2024, and November 8, 2023, respectively. The relevant dividend distributions to shareholders were as follows:

| Dividends distributed to ordinary shareholders: | 2023      | Second half | 2023 First half |  |
|---|-----------|-------------|-----------------|--|

For details on accounts receivable and loss allowance, please refer to Note 6(d).

The amount of revenue recognized for the year ended December 31, 2023 and 2022 that was included in the contract liability balance at the beginning of the period were \$747,131 thousand and \$208,130 thousand.

The contract assets were primarily related to the Company had recognized contract revenue but yet to issue bill on reporting date. The contract assets are transferred to receivables when the rights to consideration become unconditional.

The contract liabilities were primarily related to the advance consideration received from customers for construction contract, for which revenue is recognized progressively during the construction period.

The major change in the balance of contract assets and contract liabilities is the difference between the time frame in the performance obligation to be satisfied and the payment to be received. There were no major changes in 2023 and 2022.

# Notes to the Parent Company Only Financial Statements

(iii) Transaction price allocated to the remaining performance obligations

As of December 31, 2023 and 2022, the aggregated amount of the transaction price from construction contracts allocated to the remaining performance obligation from construction contract were \$10,953,365 thousand and \$11,036,276 thousand, respectively. The Company will recognize revenue gradually over time as the consideration is completed, which is expected to occur over the next 1 to 3 years. If the contract of construction has an original expected duration of less than one year, the Company shall apply the practical expedient of IFRS 15 and shall not disclose the information about the transaction price allocated to the remaining performance obligations of the contract.

All consideration from contracts with customers are included in the transaction price disclosed above.

Remuneration to employees and directors (r)

> The Company's articles of incorporation require that earnings shall first be offset against any deficit, then, a minimum of 3% shall be distributed as employee remuneration, and a maximum of 5% as remuneration to directors and supervisors.

> For the years ended December 31, 2023 and 2022, the Company accrued and recognized employee remuneration amounting to \$141,101 thousand and \$150,092 thousand and its directors' and supervisors' remuneration amounting to \$70,550 thousand and \$75,046 thousand, respectively. The amounts mentioned above were calculated based on the income before income tax, excluding the remuneration to employees, directors and supervisors of each period, multiplied by the percentage of remuneration to employees, directors and supervisors as specified in the Company's articles. These remunerations were recognized under operating costs or operating expenses during 2023 and 2022. The amounts, as stated in the financial statements, are identical to those of the actual distributions for 2023 and 2022.

### (t) Financial instruments

- (i) Credit risk
  - 1) Exposure to credit risk

The carrying amount of financial assets represents the maximum amount exposed to credit risk.

2) Concentration of credit risk

As of December 31, 2023 and 2022, notes receivable and accounts receivable (including related parties) from the Company's top 5% customers representing 70% and 71% of the company's receivable, respectively. Accordingly, concentrations of credit risk exist.

3) Receivables

For credit risk exposure of note and accounts receivables, please refer to Note 6(d).

Other financial assets at amortized cost include other receivables are considered to have low risk, and thus, the impairment provision recognized during the period was limited to 12 months expected losses (Regarding how the financial instruments are considered to have low credit risk, please refer to Note 4(f)). There were no loss allowance recognized for the year of 2023 and 2022.

(ii) Liquidity risk

The following table shows the contractual maturities of financial liabilities, excluding notes payable, accounts payable (including related parties) accrued salaries and dividends and other accrued expenses:

|   | Carrying<br>amount          | Contractual cash flows    | Within<br>1 year  | 1-2 years                      | 2-5years         | More than<br>5 years |

| USD                   |                     | 195    | 30.880           | 6,022   | 561                 | 30.708           | 17,227  |  |
|                       |                     |        |                  |         |                     |                  |         |  |

2) Sensitivity analysis

The Company's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, accounts receivable, other receivables, accounts payable and other payables that are denominated in foreign currency. A 1% of appreciation (depreciation) of the TWD against the USD and CNY as of December 31, 2023 and 2022 would have increased or decreased the before-tax net income by \$4,539 thousand and \$527 thousand, respectively. The analysis assumes that all other variable remain constant.

3) Foreign exchange gain (loss) on monetary item

With varieties of functional currencies within the company, the information on foreign exchange gain (loss) was disclosed based on the total amount. The foreign exchange gains (losses) (including realized and unrealized) in 2023 and 2022 were \$14,697 thousand and \$1,182 thousand respectively.

(iv) Other market price risk

If the prices of equity securities change on reporting date (two periods analysis and other factors are assumed to remain unchanged), the effects on the profit or loss as illustrated below:

|  |           | 2023  | i i i i i i i i i i i i i i i i i i i | 202  | 2                       |

(v) Fair value information

#### 1) Categories and fair values of financial instruments

The fair value of financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income is measured on a recurring basis. The carrying amount and fair value of the Company's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

2) Valuation techniques for financial instruments not measured at fair value

If there are quoted prices generated by transactions, the recent transaction price and quoted price data is used as the basis for fair value measurement. However, if no quoted prices are available, the discounted cash flows are used to estimate fair values.

3) Valuation techniques for financial instruments measured at fair value

Financial instruments traded in active markets are based on quoted market prices. The quoted price of a financial instrument obtained from main exchanges and on the run bonds from Taipei Exchange can be used as basis to determine the fair value of the listed companies' equity instrument and debt instrument of the quoted price in an active market.

If quoted price of a financial instrument can be obtained in time and often from exchanges, brokers, underwriters, industrial union, pricing institute, or regulators and such price can

## Notes to the Parent Company Only Financial Statements

reflect those actual trading and frequently happen in the market, then the financial instrument is considered to have quoted price in active market. If a financial instrument does not accord with the definition aforementioned, then it is considered to be without quoted price in active market. In general, market with low trading volume or high bid ask spreads is an indication of non-active market.

The Company's financial instruments are classified by their category, and the attributes of their fair value are as follows if such financial instruments are traded in active markets: beneficiary securities — open end fund and emerging stock, whose fair value was determined based on market quoted prices.

Measurements of fair value of financial instruments without an active market are based on a valuation technique or quoted price from a competitor. Fair value measured by a valuation technique can be extrapolated from similar financial instruments, the discounted cash flow method, or other valuation technique including a model using observable market data at the reporting date.

When the financial instrument of the Company is not traded in an active market, its fair value is determined based on the ratio of the quoted market price of the comparative listed company and its book value per share. Also, the fair value is discounted for its lack of liquidity in the market.

4) Transfers between Level 1 and Level 2

There were no transfers from one level to another for the year ended December 31, 2023 and 2022.

5) Reconciliation of Level 3 fair values

- (u) Financial risk management
  - (i) Overview

The Company is exposed to the following risks due to usage of financial instruments:

- 1) Credit risk
- 2) Liquidity risk
- 3) Market risk

The following likewise discusses the Company's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative

## Notes to the Parent Company Only Financial Statements

effects of these risk exposures, please refer to the respective notes in the parent company only financial statements.

(ii) Risk management framework

The Company's finance department provides business services for the overall internal department. It coordinates the domestic and international financial market operations, as well as supervises and manages financial risks related to the Company's operation based on internal risk report about exposure to risk, with the analysis of the extent and width of risk. Operation of derivative financial instruments is subject to the policy approved by the Board of Directors, which is documented based on exchange rate risk, interest risk, and credit risk, operation of derivative and non-derivative financial instruments, and investment in the remaining current capital. The internal auditors of the Company continue with the review of the compliance with the policy and the extent of the exposure to risk. The Company has no transactions in financial instruments (including derivative financial instruments) for the purpose of speculation.

The Company's audit committee oversees how management supervision is in compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to risks faced by the Company. The internal auditors assist the Company's audit committee in oversight, maintain control on risk management and procedures of both regular and exceptional reviews, and report the review results to the audit committee.

(iii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to financial instruments fails to meet its contractual obligations that arise principally from the Company's accounts receivable and investments.

1) Accounts and other receivable

The Company goes through the process of credit assessment on the trading parties pertaining to company size, industry perspective and general impression from the same industry before transaction begins. The engineering department also conducts an on-site interview, and the finance department will check to financial institutions for any abnormal dishonored check. The engineering department also establishes credit lines for each client, and updates the credit lines on a timely basis to reduce the transaction risk. The Company follows every uncollected receivable monthly. The administrative and the engineering department are responsible for gaining understandings about the overdue receivables and their anticipated date of collection, gaining understandings about clients' financial position, negotiations with the clients or demanding pledges or installment payment.

2) Investment

The credit risk exposure in the bank deposits, fixed income investments and open-end fund investments are measured and monitored by the Company's finance department. Since, the Company deals with banks and other external parties with good credit standing, the Company believes that there is no significant impact on credit risk.

3) Guarantee

## Notes to the Parent Company Only Financial Statements

The Company's policy stated that financial guarantee may be rendered to subsidiaries and trading parties running construction business.

(iv) Liquidity risk

The Company maintain sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows.

(v) Market risk

Market risk is a risk that changes in market prices, such as foreign exchange rates, interest rates and equity instrument prices that will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

1) Currency risk

The Company is exposed to currency risk on sales and purchases that are denominated in a currency other than the respective functional currencies of the Company's entities, primarily the Chinese Yuan (CNY) and US Dollars (USD) as well.

2) Interest risk

The Company's borrowings are mainly floating interest rates, changes in effective rates along with the fluctuation of the market interest rate influence the Company's future cash flow. The Company reduces the interest risks by negotiating the loan interest rates frequently with banks.

3) Other market price risk

The Company is exposed to equity price risk due to the investments in equity securities. This is a strategic investment and is not held for trading. The Company does not actively trade in these investments. The Company assigned a specific team to supervise and assess the equity price risk so as to avoid or minimize the risk from the hedging position.

(v) Capital management

The Company meets its objectives for managing capital to safeguard the capacity to continue to operate and provide a return to the shareholders; also, to benefit other related parties, as well as to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the dividend payment to the shareholders, reduce the capital for redistribution to shareholders, issue new shares or sell assets to settle any liabilities.

The Company and other entities in the similar industry use the debt-to-equity ratio to manage capital. This ratio uses the total net debt to be divided by the total capital. The net debt from the balance sheet is derived from the total liabilities, less, cash and cash equivalents. The total capital and equity include share capital, capital surplus, retained earnings and other equity, plus, net debt.

The Company's debt to capital ratios at the balance sheet date were as follows:

|                                 | D         | ecember 31,<br>2023 | December 31,<br>2022 |
|---------------------------------|-----------|---------------------|----------------------|
| Total liabilities               | \$        | 5,259,657           | 6,011,694            |
| Less: cash and cash equivalents |           | (2,770,269)         | (802,106)            |
| Net debt                        |           | 2,489,388           | 5,209,588            |

As of December 31, 2023 and 2022, the additional information for employee numbers and employee benefits were as follows:

|  |           | 2023    | 2022   |
|--|-----------|---------|--------|
| Average numbers of employee                  |           | 399     | 380    |
| Average numbers of directors without serving |           | 6       | 6      |
| concurrently as employee                     |           |         |        |
| Average employee benefits                    | \$        | 1,746   | 1,894  |
| Average employee salaries                    | \$        | 1,552   | 1,700  |
| Average adjustment rate of employee salaries |           | (8.71)% | 20.23% |
| Supervisor's remuneration                    | <u>\$</u> |         |        |

The company's salary and remuneration policy (including directors, managers and employees) are as follows:

1. Remuneration policy for directors and managers:

(1). The salary and remuneration of the company's directors is determined by the company's salary and remuneration committee in accordance with reference to the policies of other companies in the same industry and shall be approved by the board of directors.

(2). The remuneration of the company's managers is based on the company's operating conditions and individual performance, and is evaluated by the responsible supervisor. The remuneration of managers is reviewed by the Salary and Compensation Committee and approved by the board of directors.

2. Employee salary and remuneration policy:

It is based on the "Employee Salary Management method", "Dividend Performance Bonus Management method" and "Employee Appraisal Method" and refer to comprehensive factors such as seniority and performance.

Note 1. Calculation method of the company and its subsidiaries for the endorsement guarantee limit and the maximum endorsement guarantee limit for a single enterprise

1. The company:

(1) The total amount of endorsements and guarantees provided by the Company to its subsidiaries, who need to fulfill their contractual obligation by providing mutual endorsements and guarantees for peer in order to undertake a construction project, shall not exceed 500% of the Company's net worth. Also, the maximum amount for single subsidiary shall not exceed 300% of the Company's net worth.

- (2) The company that directly or indirectly hold more than 50% of the voting shares, the total amount of endorsements and guarantees shall not exceed 800% of the company's net worth, and the amount of endorsements and guarantees for a single company shall not exceed 500% of the company's net worth as a limit.
- (3) The company and its subsidiaries need mutual endorsement guarantee for non-group companies in accordance with the contractual provisions of the contracted projects, and the parent-subsidiary company or the company directly and indirectly hold 100% of the voting shares in the company's endorsement guarantee, the total guarantee amount shall not exceed 800% of the company's net worth, and the amount of endorsement guarantee for a single enterprise is limited to not more than 500% of the company's net worth.

#### 2. Her Suo:

- (1) The total amount of endorsement guarantee provided by Her Suo shall not exceed 3500% of the net worth of Her Suo; the amount of endorsement guarantee for a single enterprise shall not exceed 3000% of the net worth of Her Suo.
- (2) Acter directly or indirectly holds more than 90% of the voting shares, the total amount of endorsements and guarantees shall not exceed 10% of Acter's net worth. However, this restriction does not apply to the company that Acter directly and indirectly holds 100% of the voting shares.
- 3. Nova Tech:
  - (1) Except for contracting projects that require mutual endorsement guarantee between the peer in accordance with the provisions of the contract, the total accumulated external endorsement guarantee shall not exceed the limit of 300% of Nova Tech's net worth. The limit of endorsement guarantees for a single enterprise shall not exceed the limit of 200% of Nova Tech's net worth.
  - (2) Nova Tech and its subsidiaries requires mutual endorsement guarantee between the peer in accordance with the contract provisions for the contracted project, and the total amount shall not exceed 500% of the company's net worth, and the amount of endorsement guarantee for a single enterprise shall not exceed 300% of Nova Tech's net worth;
- 4. Acter Integration and its subsidiaries (Sheng Huei Shenzhen and Shenzhen Dingmao)
  - (1) The total amount of external guarantees of Acter Integration shall not exceed 800% of Acter Integration's most recent audited consolidated net worth; the amount of external guarantees for a single company shall not exceed 600% of Acter Integration's most recent audited consolidated net worth.
  - (2) The total amount of external guarantees provided by its subsidiaries shall not exceed 1800% of the latest audited net assets of the subsidiary; the amount of external guarantees provided to a single enterprise shall not exceed 1500% of the latest audited net assets of the subsidiary.
  - (3) The total amount of external guarantees provided by Acter Integration and its subsidiaries shall not exceed 1000% of the latest audited net assets of Acter Integration; the amount of external guarantees provided to a single enterprise shall not exceed 800% of the latest audited net assets of Acter Integration.

#### 5. Winmax:

- (1) The total amount of endorsement guarantee provided by Winmax shall not exceed 500% of the net worth; the amount of endorsement guarantee for a single enterprise shall not exceed 300% of the net worth of Winmax.
- (2) Acter or Nova Tech directly or indirectly holds more than 90% of the voting shares, the total amount of endorsements and guarantees shall not exceed 10% of Acter's or Nova Tech's net worth. However, this restriction does not apply to the company that Acter or Nova Tech directly and indirectly holds 100% of the voting shares.
- 6. Enrich Tech:
  - (1) The total amount of endorsement guarantee provided by Enrich Tech shall not exceed 3500% of the net worth of Enrich Tech; the amount of endorsement guarantee for a single enterprise shall not exceed 3000% of the net worth of Enrich Tech.
- Note 2. The net worth was audited by a Certified Public Accountant.
- Note 3. In accordance with the first paragraph of Article 13 of the company's endorsement guarantee procedures, the endorsement guarantee object originally complied with but later did not meet the requirements, and the relevant endorsement guarantee amount was proposed to improve the relevant plan.
- Note 4. In accordance with the fourth paragraph of Article 6 of Nova Tech's endorsement guarantee procedures, the endorsement guarantee object originally complied with but later did not meet the requirements, and the relevant endorsement guarantee amount was proposed to improve the relevant plan.
- Note 5. The relationship between the endorsement guarantor and the endorsed guarantor is as follows:
  - 1. Companies with business relationships.
  - 2. A company where the company directly or indirectly holds more than 50% of the voting shares.
  - 3. A company that directly or indirectly holds more than 50% of the voting rights of the company.
  - 4. Between companies where the company directly or indirectly holds more than 90% of the voting shares.
  - 5. Based on the needs of the contracting project, peer or co-builder by the people in accordance with the contractual guarantee.
